NAVY QUESTION?

coming of Mr. Borden to Lonticeable.

Since his western expedition there has been no doubt anywhere as to his precise stand on the question of the Kingston Standard and to hear what, if anything, Mr. Borden enriching the farmers will make the will his self have to say on that sub-

In Quebec the Nationalists are giving referendum on the navy, in case he should be returned to power. Of course the terms of such a referendum could be "fixed up," as easily as the composition and finding of a tariff commission, in a way to defeat the Nationalist hopes of repeal. But still they are hoping, and as King Lear thought that Regan might be gentler than Goneril, so they try to suppose and to make the habitant think that Border will be kinder than Laurier to Quebec

But what is Mr. Borden's policy re specting the navy? Has he any? the west he said a good deal about railways and terminals, but not a word on thought, decision and action upon commissions and plebiscites. But as to tariff he has shown such general consistency as a high protectionist, opposing even British preference with all his right (an exclusive loyalist indeed), that there can be little question of his close alliance with the would-be monopolists of Toronto and Montreal. On the navy, however, as he Las taken two absolutely opposite and contra dictory positions, there is much uncertainty as to his present views. To quote from the columns of this paper last November, a parallel then drawn: IMF. R. L. Borden Mr. R. L. Borden in the House of Commons on March 29, 1909.]

So our out-of-office party runs a campaign with a cry of wolf directed in Quebec against the ridiculous bogey of conscriptionist im-perialism, in Ontario against the equally absurd phantom of annexation. To shiver and cry out before agreement through the centre of the United States than to fear faval conscription. Yet the Free Press is usually half mad with terror at election times, wholly possessed with one panic-stricken idea; in 1905 it was though fickle Laurier had forgotten the Pope, now it looks as though fickle Laurier had forgotten the new siren in President Taft. Certainly the two bogies, government by Mashington are not in least reconcilable. We have no doubt that if the oc-casion should at some future time arise when in justification of their loyalty it was necessary for British-Canadians to assert their dominance, Sir Wiffrid would again bow to the inevitable, just as he did on the oc-casion of the South African trouble. The reciprocity proposition may have good points as regards Canadian access to United States markets. But these points will undoubtedly be mostly gained in any case.
