[Canadian Press.] Cobalt, August 13 .- Last night at meeting at Englehart Mr. William Shell, of the local board of trade, asked that not only should the visitors go back south and say "It's a rich country, and worthy of investment" to their neighbors, but they should do something themselves. The advice was immediately acted upon, and before the party left last night the local real estate agent reported the sale of many farms and town lots. Mr. Geo. Shell also suggested that instead of one experimental station at Monteith, where not more than 2 per cent. the farmers would see it there should be demonstration farms all along the line. Mr. George Palmer, another lo-cal speaker, said that the old days had gone by when New Ontario and old Ontario felt the province was squan-dering money on a land of stunted poplar in the north.
