Future Existence of Government Said To Be at Stake.

[Special to The Advertiser, TORONTO, March 21. - What is described by prominent Conservatives as "the biggest split in the history of the Conservative party in Ontario' has deweloped over the curtailment of the Mquor business in this province dur-

ing the termination of the war. Ten days or more 2.30, when a large deputation interviewed the Premier and his cabinet, they were assured that the Government's liquor legislation would be brought down within a short dime. But the Conservative party in Onwhole powerful resources of the liquor men, and naturally there is a large ection that is under strong moral and financial obligation to the Hquor interests. They will fight tooth and oail before permitting any act of the Legislature to seriously injure the ma-

chine, which was their 45-centimetre equipment in the last fight. Serious for Premier. Premier Hearst is faced with a serious situation. There is a strong probability, it is stated, on the best of authority, that there will be large defections in the Conservative ranks nless radical legislation is brought down. The temperance wing is led by a prominent Conservative, and it is waid, if necessary, he is ready to folis entirely in favor of the strongest re-

The action of Russia in wiping out ne vodka traffic was a tremendous timulant. Now Saskatchewan's bold, e move has strengthened the forces closing up the trade in a remark-
