For W. O. S. S. A.

Central C. I. bids fair to make a strong run for the premier honors in the Wossa track championships again this year. If the enthusiasm of the students can be taken as an omen. In the organization meeting for the season over twenty-five backers were experienced. Even in those years when Central was supreme on the cinder paths the students never showed the enthusiasm that was in evidence at this meeting. The two veterans who have been with Central all through its past triumphs, namely Bilific Adams and E. O. Hall are again the leaders in the coaching work. Added to that, they are helped by W. H. Adamson, the new athletic instructor of the school, who has many years of experience to back him up in the coming training grind.

Central has been rather late in getting to work this year, but the delay has been mostly due to the good showing of the basketball team and the recent carnival. This week they will get down to business in earnest and the athletes will be seen doing their stuff every afternoon at the Queen's Park track.

It will be mostly newcomers that will make up the squad this year as most of the veterans have been lost through graduation. Several members of the team which took part in the four-school meet last fall will most likely form the backbone of the team, but it will be the youngsters who will carry most of the burden.

At any rate, even if no world-beaters are brought to light in the next few weeks, Central should make the other teams step to get a wlace, for they have enthusiasm, and this spirit will count a great deal in the coming season.
