VESUVIUS POURS MUD

Naples, Jan. 5.—The recent heavy rains have caused enormous avalanches of mud to start from the top of Mount

DEEP-SEA FISHING

Curtailment of Bonding Privilege Given New England Company by Government

The curtailment of the bonding privilege extended by the Dominion government to the New England Fish company, which operates steamers in the halibut-fishing trade from Vancouver is encouraging those interested in the formation of a deep-sea fishing company in Victoria to remewed efforts, and it is expected the capital necessary will be subscribed during the company, which is a United States concern, has applied annually for renewal of the privilege granted with regard to bonding and usually it has been renewed for twelve months. This year the time was curtailed to six months, an Ottawa despatch says: "It is stated here that much opposition to the renewal was brought into play, and in answer to the pressure the duration of the privilege was cut down. Whether it will be extended from June 30 is a question.

"It is known that the New England Fish company has for some months."

CTOMACH TROUBLES

To wrong action of the stomach and im paired digestion a host of diseases owe

When the food is imperfectly digested the full benefit is not derived from it by the body, and then stomach troubles start to appear. Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, map and vigor are lost and in their place some dullness, dizziness, loss of appetite, depression and langour. The great point is to get the stomach back into good shaps again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her anc advised me to try a bottle. I did so, and what a happy change she first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

from Anacortes will send its first schooner to Behring sea about Feb. 15. The schooner Harold Blekum left San Francisco on Wednesday for Seattle loaded with salt, and will start next month on a fishing cruise, three months carlier than in previous seasons. General Manager King, of King & Wing, owners of the Bleekum, states that better cod are caught in the Behring sea when the ice is running than later in the season. He says although the fishing is considerably more difficult in the early spring in the heavy weather and running ice, the results of the catch are far more satisfactory. It is also the intention to have the schooner makes two trips to the banks this the intention to have the schooner makes two trips to the banks this comb honey, per lb., eastern....

was cut down. Whether it will be extended from June 30 is a question.

"It is known that the New England Figh company has for some months been making preparations to leave Vancouver and locate in Alaska should the order in council not be continued. The removal of the company to the North next summer is among the probabilities.

"The bonding privilege permits the company to land fish in Vancouver and ship them through Canada in bond to Boston."

The cod-fishing company operating coider weather and will probably be only temporary. Some shipments of pressed and dried fruits and nuts ordered for the holi-day trade, have not yet arrived, so the sup-ply is somewhat scanty. Prices, however, remain the same. Following are yesterday's quotations:

Spencer's Record JANUARYSALE

Stands Supreme

HY so much about our assertion to give you unapproachable values at exclusive sale prices? Reasons are not far to seek; in fact they are really quite about a really quite a r not far to seek; in fact they are really quite obvious. A great store like Spencer's must of necessity possess the largest and best of Stocks; consequently, before the approach of Spring preparations have to be made for carloads of New Goods. We could not tolerate congestion, and therefore present stocks must be cleared promptly; they are therefore under compulsion to quit, and without any delay. Our sacrifices then are your opportunities.

The first few days of our Record JANUARY SALE proved phenomenal; it was inevitable. The weather has certainly not been of the most propitious, but what elements can deter any of us from making money, when it can be accomplished so easily and agreeably as at SPENCER'S in January, 1907.
