REGINA IS CHOSEN AS
UNIVERSITY SITE

Capital City of Saskatchewan
Has Presented to the Uni-
versity of That Province an
Ideal Site for the Institution

Regina, Sask., April 7.—In addition to presenting all the advantages of the capital city, the commercial centre, and the farming headquarters of the province, the city of Regina will give to the board of governors of the University of Saskatchewan an ideal site for the great educational institution, and will spend \$150,000 in securing the site.

Today is an important one for the city of Regina. After visiting Moose Jaw, Battleford, Prince Albert, Saskatoon, Indian Head and Fort Qu'Appelle, the governors have come to Regina to make their official visit, and today those who have had in charge the work of preparing the matter, presented their case. The governors were shown about the city, and the excellent site selected for the university was pointed out. This site is south of the city, and is an ideal one for the purpose to which it will be devoted if the university is located here. The city, it is understood, will purchase the entire site from McCallum, Hill & Co., at a reasonable figure, and will hand it over to the University of Saskatchewan as a gift that will go a long way towards assuring the success of the institution.

Cranbrook, Man., April 7.—A. E. Watts, J. E. of Wattsburg, B. C., took evidence in camera, charging a strapping young man with attempting to entice a girl to London, England. The culprit confessed when confronted with the evidence. Mr. Watts gave him his choice of the lash or prison. He chose the lash. At Wattsburg there is a great flogging. The culprit was not flogged, but was commanded to take off his coat and vest and place his hands on the post. Mr. Watts personally applied the lash, and every stroke brought forth cries for mercy.

FINE FIRE WORKS FOR
24TH MAY

Seattle Expert on Pyrotechnics
in Victoria Today Says Holi-
day Fireworks This Year
Will be Best Ever

Victoria is to have the greatest exposition of up-to-date pyrotechnics she has ever seen on the evening of the 24th of next month, according to the program outlined by Thomas G. Hitt, of the firm of Hitt Bros., Seattle, who have the work in hand. Mr. Hitt arrived in Victoria today to look over the ground and to confer with the Victoria Day Committee at its meeting tonight as to final arrangements.

"Victoria is on the grow," said Mr. Hitt today. "Every time I come here the town seems to have let out another seam or two in its growth. But speaking about fireworks, the program this year is the best we have ever been able to offer here. This being exposition year, we are making some unusual lines and as Victoria Day occurs only a few days prior to the opening of the big fair there is every reason for making an extra effort to put on a tip-top show here on May 24."

Piece de Resistance
"Perhaps the piece de resistance, something that has never been seen in Victoria before, will be the big Silver Nyanza Falls, 50 feet high and 100 feet wide. This great curtain of light will be larger than any we have used yet, and will be brilliant enough to illuminate the surrounding neighborhood to an amazing extent. There will be two performing bears, all worked out in fireworks, and they will dance to music supplied by the band. There will be an electric screen 250 feet long bearing patriotic colors in lights; terraces of Italian fountains 250 feet long and 50 feet high; aerial pyrotechnics and silver diamond cluster, comet and spider shells. Besides these other features will be what are called whistling coons and shells that whistle in different keys. The new A. Y. P. E. shell, made especially for the big exposition, will be something worth while too. There are 20 inch propositions, the largest ever used in a fireworks display."

FERNIE EDITOR IS
CHARGED WITH CONTEMPT

J. Stanley, Editor of the Fernie Ledger, Held on Serious Charge

Vancouver, April 7.—A preliminary summons has been taken out by the deputy attorney-general in contempt proceedings against J. Stanley, editor of the Fernie Ledger, whose statements regarding Judge Wilson of that city are characterized as vicious. Stanley reflected on the conduct of his Honor in the case of one Dean, proprietor of the Globe Insurance Co., which went out of business at the time of the Fernie fire. The article stated: "If you happen to belong to secret societies and are of the right shade of politics you can commit any crime with the certain knowledge that you will be acquitted."

SYNDICATE TO SELL
DEADMAN'S ISLAND

Vancouver May Have Lease of
Island for Three Hundred
Thousand Dollars—For In-
dustrial Purposes

Vancouver, B. C., April 7.—An offer to sell the lease of Deadman's Island to the city for \$300,000 plus five per cent interest, was made by J. W. West, acting for Mr. T. Laigato, at the board of trade meeting last night. Mr. West said they only wished to transfer the lease for industrial purposes, he as a citizen believing that it was best for the city. If the offer were not accepted, they would go ahead with their own schemes, since they felt no shadow of doubt as to the legality of their claim. No action was taken further than leaving it with the committee already having the matter in hand, which will consult with the mayor on his return.

It became known today that Mr. Cowan, M.P., approves of the offer.

The former emigrated to America two years ago. He is an illiterate man. He returned well off and deposited \$6,000 in the bank of Sicily. In an examination at the hands of the police he contradicted himself frequently. After the murder of Petrosino he sent cipher cables to America, but he refuses to explain what they mean.

Treaty and Preference
London, April 7.—Discussing the Franco-Canadian treaty, the Standard regrets the substantial reduction in the British preference and lays the blame on the present British government for its obstinate refusal to consider a reciprocal arrangement which would have the effect of converting the present generous, but voluntary, and to that extent precarious, preference into another of a more binding nature.

Department Shows That
British Columbia City Is
Well Up in List of Imports

Special to The Evening Post.
Ottawa, April 7.—According to a return compiled by the Customs Department, Vancouver takes fourth place among the principal cities of the Dominion in collection of customs revenue last year.

Montreal comes first with \$12,938, 197.28; Toronto second with \$9,438, 172.04; Winnipeg third with \$3,329, 021.92; and Vancouver fourth with \$2,540,912.50.

Many Rooms Engaged.
Far-righted travellers, anticipating a great rush of visitors to this city the present season, have engaged rooms at the Empress hotel many weeks in advance, and the number doing so already is quite large. Such as have done so will practically make this city their headquarters during the great exposition at Seattle, the splendid steamer facilities enabling them to visit this sound metropolis at pleasure and with little inconvenience. Another factor in the situation is that there is a disposition among the hotel proprietors and owners of rooming houses at Seattle to increase their rates for the present season, knowing that so great will be the travel that high prices will be paid. Thus there is created an incentive for many to take up quarters in neighboring cities, and the number who will do so in Victoria for this reason will be quite large.

The lot at the corner of Cook street and Fairford road, together with the adjoining lot, was sold yesterday by the owner, Mr. C. Harris, for \$2,800. It is understood that the purchaser intends to erect a handsome residence on the property. The same vendor is reported to be selling five other lots in the same subdivision during the past few days.

THE SANITARY WELFARE
OF PRINCE RUPERT

Dr. Fagan, Provincial Medical
Superintendent, Leaves This
Evening to Look Into Sanitary
Conditions

Dr. Fagan, the provincial medical superintendent, leaves for Prince Rupert on the Princess May this evening. He has been deputed by the provincial secretary to look into the sanitary conditions existing in the new terminus of the transcontinental railway and he will report to Dr. Young direct.

The provincial government is at present installing sewers and sidewalks in Prince Rupert. All precautions will be taken to avoid the dangers to which the mining camp in embryo is subjected. In most the danger results from the drinking water. Sewage is permitted to drain into the pools, and no supervision is exercised. It is this laxness that Dr. Young seeks to avoid.
