LURE OF THE LAW.

The Craze For Litigation Is America's Most Costly Folly.

If one were asked to name the costliest folly known in this country he would not be far from the mark if he should say it was the American craze for litigation.

In some communities, especially the small ones in rural districts, a man's importance seems to be measured by the number of lawsuits he has on hand, and he who has none is often regarded as a person of slight consequence.

But the habit of going to law is not confined to small neighborhoods nor to persons of trifling affairs, as a single instance will show. There is now in process of settlement in a neighboring state the estate of a man which at the time of his death was valued at \$1,000,000. Rival claimants to the property engaged in litigation, which has extended over a period of several years, and now, as the end approaches, it is said the estate has dwindled to about \$23,000.

Manifestly the parties to this litigation have made a heavy investment in experience; but, unhappily for them, it is not what financiers call a "liquid asset."—Docket.

MOONS OF THE UNIVERSE.

Besides Our Own Luna Twenty-five Others Are Known to Exist.

There are in all twenty-five moons besides our queen of night, Mars having two, Jupiter eight, Saturn ten, Uranus four and Neptune one, says the Philadelphia Public Ledger. Of course new lunar additions are likely to be discovered at any time, although it is improbable that Mercury and Venus have any satellites or that Mars has more than two.

The two known moons of Mars are, indeed, very minute, neither being over fifty miles in diameter. On the other hand, Jupiter's first four satellites, as well as Ganymede, are each larger than Queen Luna, Ganymede having a diameter of about 3,550 miles. Titan of Saturn possesses a diameter approximating 5,000 miles, while that of Neptune's sole satellite is about 2,000 miles.

As respects our own moon, Queen Luna has only one-fourth the size and one-eighth the weight of our earth. Luna's distance from us varies a good deal, from 221,000 miles to 252,000 miles. Her mean or average distance is about 238,000 miles.

Atte With Tears In His Eyes.

On one occasion General Scott attended a banquet where all the states of the Union were represented by a dish in some way characteristic of each commonwealth. Pennsylvania was represented by a bowl of sauerkraut, and in speaking of the fact the next morning the general remarked, "I partook of it with tears in my eyes." This fondness of Scott for the good things of the table, taken in conjunction with the famous "hasty plate of soup" incident, gave point to the name of "Marshal Turenne," with which he was once saluted by the Rev. Dr. Smith Byrne, an inveterate punster. It was Dr. Pyne who once exclaimed after hearing Ole Bull play, "If honorable degrees were conferred upon musicians Ole Bull would be fiddle D. D."—*Marian Gouveneur in "As I Remember."*

Blackjacks.

The earliest drinking vessels for wines and ales were those made from skins of animals, and these vessels still retain their popularity in the east and on the continent. In England these vessels were made of carefully tanned hides which were unbreakable and possessed everlasting properties. The blackjacks, famed in song and story, were shaped like pitchers and were fashioned from one large piece of leather, which was curled in the necessary manner. Pitch was smeared over the inside. These old blackjacks gave their name to the heavy riding boots worn by cavaliers, which came to be called jackboots. Owing to the popularity of the blackjacks the French declared that the English drank out of their boots.—London Globe.

Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

The Seeing Eye.

I know a man who has lived on one farm half a century. He sleeps in the room in which he was born. He knows every rod of his farm in the dark. Yet his lambs and his pigs, the velvet roll of new sprouting wheat, the procession of the seasons, the apple trees he planted and has watched for years—all are new to him each day. I have seen him stand and look at his sheep as if he were a city man long shut out from such sights. A sunset or a sunrise is to him a miracle new performed each day. That man has the seeing eye.—Detroit News.

Not What He Expected.

"Darling," he murmured, "whatever induced you to care for a fellow like me?"

"I really don't know, George," she replied. "Pa has threatened to send me to a brain specialist."—Boston Transcript.

Old Time Vintners.

In the city of London at the time of King John every vintner was required to hang outside his shop an iron vessel with pegs marking the different quantities sold.

Easy Prediction.

"I have often predicted that my wife's hair would be nice and curly at night," said the clever one. "How did I know? Why, I saw it in the morning baners."

WELL KNOWN MINISTER

Restored to Health by Vinol

Rev. D. Schneider, who is a well known minister in Rice Lake, Wis., writes:

"I had a very severe stomach trouble last year from which I was kept in bed three months. I had engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine, and I can gladly recommend it."

Prominent men from all over the country do not hesitate to endorse this wonderful tonic.

For twelve years Vinol has been sold on the "money back" plan, and every year strengthens its popularity and proves by continued tests that it will do what we claim for it.

His Suspicion.

"Well, whaddy you want?"

"I am the man who was married in the cage of wildcats."

"I asked whaddy you want?"

"I thought I would like to look into the cage again. I fear I left my wife there and took one of the wildcats."—Houston Post.

The Home.

The blessing of a house is goodness. The honor of a house is hospitality. The ornament of a house is cleanliness. The happiness of a house is contentment.

Experience.

"That sinner certainly knows how to manage her range."

"She ought to. She used to be a cook."—Baltimore American.

Prefer diligence to idleness unless you esteem rust above brightness.

IGNORANCE IS A CURSE.—"Know thyself" is a good admonition, whether referring to one's physical condition or moral habits. The man who is acquainted with himself will know how to act when any disarrangement in his condition manifests itself. Dr. Thomas' Electric Oil is a chief and simple remedy for the eradication of pain from the system and for the cure of all bronchial troubles.
