The r two roots and in village will be noted for its Peonies and thus attract visitors to see the peonies when in bloom. Watford even now is often spoken of as being one of the neatest and most attractive villages of its size in Canada. Nowhere you go will you see such well kept streets and boulevards backed by attractive homes and well attended lawns, but still there is plenty of room for further improvement.

The Horticultural Society will do what they can, with the limited means at their disposal, to beautify some of the unsightly public places, but for the rest it largely rests with the individual, and surely in a place where over 90 pr cent of the people occupy their own homes, it ought not to be hard to create a spirit of friend ly rivalry as to who will have the most attractive surroundings. The officers of the society will always be pleased to give all the assistance in their power in the laying out of grounds and advice as to the vari-eties of trees, shrubs, and flowers most suitable for planting and by ordering through the Society, you will be sure of getting them at a lower price than if ordered in any other way.
