Upon reading the report of the Committee on Tenders and Public Property, the same was on motion received and adopted.

The following is the report: To Mr. Warden and Councillors of the Municipality of Annapolis.

Gentlement:— Your Committee on Tenders and Publie Property beg leave to submit the following report for year ended De-cember 31st, 1903. Quite a number of changes have tak-en place during the year at the Asy-lum.

en place during the year at the Asylum.

The Digby county patients, seven in number, were removed June 9th. As yet we have not been able to fill their places.

Several counties, however, are considering the advisability of removing their harmless insame from Mount Hope to our asylum, and applications will probably be received to admit a number of patients very shortly after the present session of Council.

Miss Etter resigned her position as Superintendent June 15th. We have taken advantage of the occasion to make a reduction in the number, and an entire change in the personel of the staff of attendants, and have thereby effected a saving of \$350.00 per year in wages. We were very fortunate in obtaining the services of Mr. and Mrs. Alfred Hiltz, of Dartmouth, as Superintendent and Matron, who, having "My hair was falling out badly and I was afraid I would lose it all. Then I tried Ayor's Hair Vigor. It quickly stopped the falling and made my hair all I could wish it to be." REBECOA E. ALLEN, Elizabeth, N. J. J. C. ATER CO., Lowell, Mass.

4.00 the Nova Scotia Hospital for the Insane, were fully qualified to take charge of our asylum. They entered upon their duties June 15th, and since them have given unqualified satisfaction; being capable, diligent and economical. Rates, 1901 Rates, 1902 Rates, 1903

100, being capable, diligent and economical.

At the Alms House affairs have run very smoothly during the year.

Mr. and Mrs. Lowe are still in charge, and as usual their services have been perfectly satisfactory. They certainly deserve commendation for their care and kindness to the unfortunate class in their charge. A large amount of work has been done by the inmates under Mr. Lowe's direction in cleaning up rough land, and an excellent crop of all kinds has been raised.

More pasture land is meeded. A piece of land adjoining the farm is for sale and in the opinion of your committee would be a good investment.

The products of the farm for the year have been as follows:
