

WHEREVER you travel in the Maritime Provinces these days you will hear people talking about "ROYAL HOUSEHOLD" FLOOR.

PROBABLY no article of foodstuffs ever sold in this country has been as much talked about as "ROYAL HOUSEHOLD" FLOUR and a particularly noticeable thing in the remarks here is the unanimity of opinion about its quality.

WHEN everybody says a flour is very good, it must be very good. They all say this of "ROYAL HOUSEHOLD."

Fatal Accident to Lumberman.

In Lumber Woods South of Bear River—Went into the Woods on Wednesday, Brought Home a Corpse Sunday.

On Saturday morning last, near Lake Franklin, Ernest Kennedy, aged 18 years, son of James Kennedy, of Waldeck Line, was accidentally killed by being struck by a falling tree limb while chopping.

Two experienced choppers, James Apt and Willard Naas, were with him and witnessed the accident. There was a good chance to get out of the way, and indeed, his companions advised him to do so, but it would seem that young Kennedy became bewildered and fell directly into the danger. He was instantly killed. The body was brought into town on Sunday morning.

Coroner R. J. Ellison, M. D., empaneled a jury, who viewed the remains and the evidence of Jas. Apt and Willard Naas, and returned a unanimous verdict of accidental death. This is the first fatal accident to happen among Clarke Bros. men in all their logging operations, covering some fifteen years. The burial took place Wednesday at Centerville. Mr. Kennedy is expressed on all sides for the bereaved family—Telephone.

If eight storm sashes effect a saving in fuel of one cord of hard wood, how much money can you save this winter by fitting all your windows with these fuel savers? Then the first cost is the only cost. They remain for years a paying investment, besides cold draughts are dispensed with, and no frost obscures your view, nor will you be troubled with water dripping. We still are able to offer you Moore's Patent Storm Window Fasteners, which have given such general satisfaction.

At our warerooms art and honesty will be found in every piece of furniture. Nothing flimsy, nothing extravagant. A dollar's worth of beauty and usefulness for every dollar of price. It is highly important now-a-days for housekeepers to get all that they can for their money, but there is another thing equally as important, and that is "what they get." Our goods are always just as represented, and that is what keeps the people coming. We are receiving new goods every day and will have the best fall and Xmas display ever shown in the valley.

Winning the Canadian Market.

It is encouraging to note that coal shipments from Nova Scotia to Montreal by the St. Lawrence route are steadily increasing. Until a comparatively recent date our mines were able to sell but a moderate quantity of coal to Upper Canada. This year the water shipments from Nova Scotia to Montreal will be close on to one million and a half tons. Up to the end of October the shipments were 1,174,000 tons, and as the different companies will be able to send their steamers up the St. Lawrence until the beginning of December, this will be added to materially before the close of navigation. Of this amount over a million tons were shipped by the Dominion Coal Company to fill its large contracts with the Grand Trunk and Canadian Pacific Railways, and the Montreal, Light and Power Company. The next largest shipper was the Nova Scotia Steel and Coal Company. The Montreal shipment this year will be nearly half a million tons larger than in any previous year. A Nova Scotia standpoint is the displacement of large shipments of Scotch and Welsh coal by the bituminous coal from our own province—Maritime Merchant.
