**POPULAR SCIENCE****THE SCIENTIFIC AMERICAN  
TO BE GREATLY ENLARGED.****THIS** widely circulated and Popular Journal of the  
Industrial Arts and Sciences enters its twenty-  
second year on the 1st of January next, and the  
Publishers propose to signalize the occasion by en-  
larging it to the size of the most costly Scientific  
Journals of Great Britain, without, however, in-  
creasing the subscription price.It is almost superfluous to speak of the great value  
of this Popular and Useful Journal to all classes, and  
especially to Mechanics, Manufacturers, Inventors,  
Engineers, Chemists, Agriculturists, and all who love  
to read of the wondrous progress which now marks  
every department of Mechanical Engineering and the  
Industrial Arts and Sciences generally.The Editorial department is very ably conducted,  
and many of the best writers in this country and  
Europe are contributors to its pages. Many of the  
articles have the charm of romance about them, and  
inspire the mind with noble ideas.The Scientific American has the largest circulation  
of any similar journal in existence, but it ought to  
have a million of readers in this growing country.The engravings of New Inventions, Tools, Imple-  
ments for the Farm, Workshop and Household are  
very numerous and are splendidly executed by the  
best artists in the world. This feature of the paper is  
very striking, and has won the praise of the united  
press of this country and Europe.Another feature peculiar to the Scientific American  
is the official publication of every Patent granted by  
the Government Patent Office. Each number con-  
tains the weekly issue of Patent Claims, with copious  
notices of new inventions, together with Reviews of  
Foreign Inventions and Discoveries in every depart-  
ment of Science.Whoever reads the Scientific American is instructed  
and entertained, without being bothered with hard  
words and dry details.The American and European Patent Offices, in con-  
nection with the Scientific American form an immense  
Museum of Mechanical Novelities, which furnish con-  
stant employment to a large corps of Scientific  
Examiners who prepare drawings and specifications  
for Patents.Now is the time to send in subscriptions to the  
Scientific American, so as to begin with the new  
volume.The numbers for a year make up a splendidly  
illustrated volume of 832 pages. Terms.—\$3 per  
annum; \$1.50 for six months, \$1 for four months,  
Clubs of ten and upward, \$2.50 each, Canadian sub-  
scribers, \$3.25 per annum, always in advance. Spec-  
imen numbers sent free, also, a pamphlet of advice to  
inventors. Address**MUNN & CO.,**

No. 37 Park Row, New York City.
