## MONTREAL MINING EXCHANGE.

**C. P. R. AGAIN LEADS, CLOSING FIRM AT 95½ - WAR EAGLE CLOSES WEAKLY AT 277 - REST OF LIST DIFFERS LITTLE FROM YESTERDAY - CONSOLS CABLED HIGHER.**

Montreal, October 27.

There was one feature that the stocks had this forenoon and one great exception to this common feature. There was a firm adherence to the present moderately high levels and one very sharp descent from them. In Canadian Pacific about 1000 shares were offered in response to more enquiries induced by its earning reports and these were readily taken at virtually the same price as yesterday. Business closed firmly with 95½ offered for more and 95½ wanted. Today again the market was led by this stock. Railroads in all the markets are becoming leaders rather than the Industrials. Montreal Ry. was ½ in advance of its previous close and closed steady at 311½ demand. Duluth pfd. and Bell Telephone were each ¼ lower. Merchants' Bank ¼ higher, Montreal Cotton 1 point higher and in Toronto Ry, Republic, Payne, Dominion Cotton, Bank of Montreal, the adherence to the standard reached was without the least shade of variation. From C. P. R. downwards through the list the motto seems to have been what we have we'll keep.

War Eagle was the exception to the general rule. Buying orders were not so numerous as to give keenness to bidders. With buyers growing more and more indifferent the price in five sales ran down from 290 to 277. The 290 price was 10 lower than yesterday, so that recession has varied from 10 to 23. Everything on the market today and at prices as they were, merited attention from investors and it would seem from occasional transactions that lower priced stock is more in favor.

## MONTREAL MINING EXCHANGE.

## MORNING SALES.

**WAR EAGLE SLUMPS - MARKET WEAKENS IN SYMPATHY - KING THE EXCEPTION - GOLDEN STAR FIRM.**

Montreal, October 27.

The market was very disappointing today. The unexpected and unwarranted slump in War Eagle caused the whole market to assume a weakness altogether unlooked for.

It had a demoralizing effect, the whole tenor of the room becoming bearish. It is on such chances as these that the investing public would do well to take advantage.

War Eagle sold as low as 284, having previously sold at 286, buyers were only offering 271 at the close. As high as 290 was bid during the early part of the session, but even this was at a considerable come-down from yesterday's close, 295, and as sellers became more plentiful buyers became thoroughly scared and kept well within a safe range.

The weakness in War Eagle has not affected Republic or Payne to any extent. The former sold at 123 and 121 to the amount of 1500 shares. Payne was inactive at 104, 100.

One of the sustaining features of the market was the display of strength exhibited by King (Oro Denoro); this stock has been in good demand of late and has been daily selling at an advanced rate, sales this forenoon were made at 25½ for 2000 shares and as high as 28, 3500 shares being sold. Not concerning this property is of the best and we can recommend it to intending investors as a most likely proposition.

Golden Star sold at 30½, this is the best price of late, and is satisfactory, considering the unsettled state of the market.

Should the tendency of the market in the near future be for lower prices, which might be temporarily possible, we would recommend our readers seriously to consider the advisability of immediately making their purchases, there are many snags on the market just at the moment, and we can guarantee that they won't be there much longer.
