

What the People are Saying

OF

"THE MAGNETICON."

RECENT HOME TESTIMONY!!

Mr. THOS. J. MASON.

DEAR SIR,—I have much pleasure in testifying to the efficacy of your Magnetic Belts in alleviating and ultimately removing pain. My wife had suffered for a considerable time with an intense pain in her left side, caused by Rheumatism. At your suggestion she applied one of your Magnetic Belts, which has proved of great benefit. Immediately after its application she experienced relief, and now the pain has entirely gone. Being thoroughly convinced of the curative power contained in your Magnetic Belts, I confidently recommend persons similarly afflicted to try one of them, knowing whereof I speak.

Yours truly,

JOSEPH C. DODGE,
Superintendent Globe Job Rooms.

THOMAS J. MASON, Esq.

157 King Street East, Toronto, September 9, 1880.

DEAR SIR,—It is some two years since I procured a Magneticon Lung Invigorator one of my family and we have used others of your appliances since that time, in each case with good effect. We have recommended them largely among our friends, and I do not hesitate to say that they accomplish all you claim for them.

M. WARDELL.

THOMAS J. MASON, Esq.

LEFROY, ONT., August 10th, 1880.

DEAR SIR,—The poor old man concerning whom I have previously written you, was attacked some four years ago with Typhoid Fever, which seemed to have settled in his Spine, rendering him so helpless that he could not even turn in bed. On writing to you, you could not promise a cure, but were satisfied that he might be helped. Your promise has been fulfilled most satisfactorily, and though still to some extent crippled, he is able to get about a good deal and cultivate a nice little garden. I have great pleasure in this bearing testimony to the benefit derived from your Belt in this case, which had resisted every other remedy resorted to by the most skillful physicians. You may make any use you please of this letter; and as I have seen the old man every day, and am in no way interested further than to perform the part of neighbour, I am not likely to be deceived.

STANLEY SPILLETT,
Teacher S. S. No. 8, Innisfil, Simcoe Co.

To Mr. THOMAS J. MASON.

186 Queen Street West, Toronto, 7th September, 1880.

DEAR SIR,—It is due to yourself and to all sufferers that I should state the change that has been effected in my case by means of your British Magneticon. It is but five weeks ago that I was suffering acutely, both in my back and in one of my legs, as I had done for a long time previously, through exhaustion and excessive work. The first night I wore the Belt supplied by you I slept soundly, a luxury I had not experienced for many weeks. I have been steadily and rapidly improving from that time forth, and am confident that I have but to persevere in the use of the Belt yet further to recover my strength. I shall always feel grateful to you for the kind consideration you have extended to me.

Yours faithfully,

LOUISA JEFFERIES.

There is no gainsaying the fact that the **MAGNETICON** combines many points of excellence which are not possessed by any other form of Electric Treatment. The appliances are adapted for a

WIDER RANGE OF DISEASE.

and their influence is exerted more thoroughly upon the whole system, than by any other curative process; hence their unprecedented success.

By promptly and constantly **ASSISTING NATURE**, they quickly remove pain and irritation, and so permanently build up the strength of any part—or the **WHOLE HEALTH**—that there is no return of the weakness or disease.

Send your address for Pamphlet (Post Free) with Testimonials, Price Lists, and general information. The appliances are sent to any address on receipt of price.

Consultations always Free.
