POLSON'S PROBATION :

A Story of Manitoba.

BY

JAMES MORTON.

CLOTH, \$1.00, POSTPAID.

"This is the most notable literary work of which the Prairie Province is the scene. It is full of local colouring and gives vivid pictures of the various elements of life, savage and civilized, the summer's drought and winter's blizzard, the vices and virtues of frontier life. . . . A strong vein of humour runs through the book. . . . This is one of the best stories of Canadian life we have ever read."—*Onward.*
