MARITIME MEDICAL NEWS.

A MONTHLY JOURNAL OF
MEDICINE AND SURGERY.

Vol. XI.

HALIFAX, NOVA SCOTIA, MAY, 1899.

No. 5.

IN THE MANY CASES

where one of the principal problems is, how to nourish the patient, **PANOPEPTON** will be found most useful and acceptable.

Panopepton contains the nutritive constituents of beef and wheat in a soluble and freely absorbable form.

PANOPEPTON is likewise of the utmost value for the nutrition of the sick in cases where every other resource has failed.

The life-sustaining powers of **PANOPEPTON** are also very remarkable, the administration of a few drops having frequently proved the turning-point to recovery in most critical straits, due to irritability, feebleness or abeyance of the digestive functions.
