PANCREOPEPSINE LIOUID

(WM. R. WARNER & CO.)

(TO DOCTORS ONLY

A REMEDY FOR INDIGESTION.

A REMARY FOR INDIGESTION. Containing Parcreatine, Pepsin, Lactic and Muriatic Acids, etc. The combined principles of Indigestion. To aid in digesting animal and vegetable cooked food, fatty and any claceous substances. Dosg. —A tablesponful containing 5 grs. Pepsin, after each meal, with an Aperient Pill taken occasionally. This preparation contains in an agreeable form the natural and assimilative principles of the digestive fluids of the stomarh, comprising Pancreatine, Pepsin, Lactic and Muriatic Acids. The best means of re-establishing digestion in enfected stomachs, where the power to assimilate and digest food is impaired, is to administer principles capable of communicating the elements necessary to convert food into nutriment. The value of Liquor Pancreopepsine in this connection has been fully established, and we can recommend it with confidence to the profession as superior to pepsin alone. It alds in digesting animal and vegetable cooked food, fatty and any faceous substances, and may be employed in all cases where from prolonged sickness or other cuses, the alimentary processes are not in their normal condition. alimentary processes are not in their normal condition.

RHEUMATISM.

Salicylic Acid Elixir

(WM R. WARNER & CO.)

(TO DOCTORS ONLY.)

This preparation combines in a pleasant and permanent form, in each fluid drachm, the following : R Acid. Salicylic, (Schering's), grs. v. Cinneifuga, grs. i].

Potass. Iodid., - grs. iss. Tr. Gelseminum, - gtt. i.

So prepared as to form a permanent, potent and reliable remedy in

RHEUMATISM, GOUT, LUMBAGO, ETC.

This preparation combines in a pleasant and agreeable form :- Salicylic Acid, Cimicifuga, Gelseminum Sodi-Bi-Carb, and Potass. Iodid, so combined as to be more prompt and effective in the treatment of this class of diseases than either of the ingredients when administered alone. This remedy can be given without producing any of the unpleasant results which so often follow the giving of Salicylic Acid and Salicylite of Sodium, viz. gastric and intestinal irritatation, nausea, delirium, deafness, nervous irritability. restlessness, and rapid respiration; on the contrary, it gives prompt relief from pain, and quiets the nerves without the aid of opiates. Elixir Salicylic Acid Comp. has been extensively used in private practice for several years with almost unvarying success and better results than any other mode of treatment yet suggested.

It is a matter of great satisfaction to us to be able to place before the medical profession a remedy so effectual in the cure of one of the most stubborn classes of disease.

The dose is from a tenspoonful to a descriptionful, and increased as necessary to meet the requirements of the case. Each tenspoonful contains five grains of Salicylic Acid.

Elixir Salicylic Acid Comp. is put up in 12-oz square bottles, and may be obtained from Druggists everywhere.

SCROFULA.

(WM. R. WARNER & CO.)

(TO DOCTORS ONLY.)

ALTERATIVE, RESOLVENT, APERIENT, TONIC

Composition :-- Phytolaeca Decandra, Stillingia, Salvatica, Lappa Major, Corydalis Formosa, a grs. vi. Xanthoxylum Fraxineum, Potassii Iodidum, Cascara Sagrada, aa grs. ij, in each dessertspoonful.

Syr. Phytolacca Comp., the composition of which has been given to the profession, has been known and used by physician, tayself and others of my acquaintance, and found superior to other alterative compounds now in usc. It has been used with great success in the treatment of Lupus, Herpes, Psoriasis, Acne, Glandular Enlargements, Strumous, Affections, Granular Conjunctivitis and Eczema. As a remedy for Syphilitic Diseases of the skin and nuccous membranes it has proved to be specially valuable in my hands in a large number of cases where all the usual remedies had failed to improve their condition, and when Syr. Phytolacca Comp. was administered the improvement was very prompt and subjective. satisfactor

It will be seen that Syr. Phytolacca Comp. contains the best alterative remedies now in use, and that they are so combined as to make a permanent and agreeable preparation that can be administered to children or persons with the most delicate stomach.

I usually prescribe it in doses of a teaspoonful, which may be increased to a tablespoonful four times a day, the frequency of the dose to be diminished if bowels become too active. CHARLES W. BROWN, M. D.
