
Indicated in adhesions

Adhesions are most likely to occur in the lower part of the colon. They are found present in cases of extremely obstinate constipation. A foremost roentgenologist and alimentary specialist states that in these conditions the lubricating action of liquid petrolatum is certainly indicated.

NUJOL is scientifically adapted by both viscosity and specific gravity to the physiology of the human intestines. In determining a viscosity best adapted to general requirements, the makers of Nujol tried consistencies ranging from a water-like fluid to a jelly. The viscosity of Nujol was fixed upon after exhaustive clinical test and research and is in accord with the highest medical opinion.

Adhesions of Pelvic Colon
in Constipation

Normal Colon

The unmatched resources of the manufacturers, the perfection of their technical equipment and an expert personnel place Nujol upon a basis of unique superiority.

Sample and authoritative literature dealing with the general and special uses of Nujol will be sent gratis upon request to Nujol Laboratories, Standard Oil Co. (New Jersey), 44 Beaver Street, New York.

Nujol

TRADE MARK

A Lubricant; not a Laxative
