

"SUPERIOR NUTRITION THE LIFE"

IMPERIAL GRANUM

THE GREAT MEDICINAL FOOD

THIS ORIGINAL AND WORLD-RENOUNDED DIETETIC PREPARATION IS A SUBSTANCE OF UNRIVALED purity and medicinal worth—potent for good and powerless to harm. A solid extract, derived by a new process from very superior growths of wheat—nothing more, and as a food, it would be difficult to conceive of anything more wholesome and delicious. It has justly acquired the reputation of being the savior FOR INVALIDS AND THE AGED; an incomparable aliment for the growth and protection of INFANTS AND CHILDREN; continued fever, the most nourishing and strengthening food for NURSING MOTHERS & CONVALESCENTS; and a reliable remedial agent in all diseases of the stomach and intestines.

John Carlo & Sons, New York.

NO MORE ROUND SHOULDERS.

KNICKERBOCKER
Shoulder-Brace

—AND—
SUSPENDER COMBINED.

Expands the Chest, promotes Respiration, prevents Round Shoulders. A perfect Skirt-Supporter for Ladies. No harness—simple—unlike all others. All sizes for Men, Women, Boys and Girls.

Cheapest and Only Reliable Shoulder-Brace.

The importance of a Shoulder-Brace in holding the body erect, expanding the Chest, preventing Round Shoulders and Hollow Chest, is well understood. Good health depends upon it. Many attempts have been made to present a suitable article for this purpose, all of which, however, were objectionable in some respects, which prevented their coming into general use. In the Knickerbocker Brace all objections have been overcome. It is a Combined Shoulder-Brace and Suspender. It provides new and improved suspenders for men's pants, and supporters for ladies' underskirts, which do the double duty of holding up and bracing up.

Sold by Druggists. Send chest measure around the body. Address,

Knickerbocker Brace Company,

EASTON, PA., U.S.A. N. A. JOHNSON, Prop.

For sale by Lyman Bros. & Co., of TORONTO, and other Wholesale Druggists.

PACKAGE DYES.

Special to the DRUG TRADE of the Dominion:

The Retail Druggists of our Dominion, like other keen and shrewd business men, are ever on the alert to keep up as well as extend their trade, by carefully catering to the wants and necessities of the public. The people demand certain lines of goods which have become justly popular; and the Druggist who imagines that he can turn this tide of demand which has been created, into another channel, makes a huge mistake, and often injures his business. It is well known, that for many years, Diamond Package Dyes, for domestic dyeing, have won a fame and reputation never accorded to any other make. Then great merits have made them universally popular all over this American continent; and the manufacturers have always been successful in maintaining a uniform standard of strength, brilliancy, and durability of color, which can never be found in any of the many imitation and crude dyes now offered to the trade. Having the largest laboratory, and the best talent in the world, in connection with the package dye business, the manufacturers are enabled to turn out colorings which are deemed "Perfection" by those who are best able to judge.

Some manufacturers of inferior package dyes foolishly point to the great number of colors which they manufacture, in some instances they boast of about sixty colors.

The manufacturers of Diamond Dyes claim that a multiplicity of shades is a great disadvantage to the Retail Drug Trade, as it necessitates the keeping of a very large and useless stock, and hinders the "deal stock."

The manufacturers of Diamond Dyes, manufacture specially for the Drug Trade, forty solid colors—not reduced shades or tints in questionable mixtures, but solid pure and undiluted dye stuffs, from which nearly two hundred lovely shades can be obtained. In this way the Retail Druggist is not burdened by an over stock of dyes, as he certainly is when he keeps inferior package dyes, which can never prove satisfactory to his customers.

The attention of the Retail Drug Trade is called particularly to a partial list here given of Diamond Dye colors, and the varieties that can be produced from them:

Diamond Dye Black, Blue Black, Steel, Gray.	Diamond Dye Green, Nile Green, Grass Green, Vienna Green, Peacock Green.
Diamond Dye Cardinal Red, Light Red, Bright Red.	Diamond Dye Yellow, Straw, Lemon, Canary, Corn, Maize.
Diamond Dye Scarlet, Flame, French Red, Royal Red.	Diamond Dye Dark Green, Bottle Green, Myrtle Green.
Diamond Dye Magenta, Solferino, Rose, Aniline Red.	Diamond Dye Olive Green, Bronze Green, Sage Green.
Diamond Dye Garnet, Strawberry, Claret.	Diamond Dye Old Gold, Ecrú, Bronze, Olive.
Diamond Dye Terra Cotta, Light Terra Cotta, Mahogany.	Diamond Dye Purple, Royal Purple, Lilac.
Diamond Dye Indigo Blue, Indigo, Gobelin.	Diamond Dye Violet, Mauve, Lavender.
Diamond Dye Light Blue, Peacock Blue, Robin's Egg Blue.	Diamond Dye Fast Pink, Shell Pink, Salmon.

In the same manner can all the fashionable shades of the day be obtained from all the other solid colors made in Diamond Dyes not mentioned here.

The manufacturers of Diamond Dyes are always alive to new improvements, and colors in the dye trade, and will at all times keep pace with every advancement in science, and will ever have the interests of the Druggist, as well as the consumers at heart.

Druggists are requested to send on for the new edition of "Successful Home Dyeing," a most artistic little book, and far in advance of any previous effort ever made by the Lithographer.
