The Sectional Idea

Q Do you remember the building blocks of boyhood days?

Q How each little block was a perfect multiple of some bigger block?

Q And how each block **FITTED IN SOMEWHERE**, no matter what its size?

Q That's the Sectional Idea—Filing Cabinets built on the multiple plan. They are interchangeable. They always **FIT IN**. Q May we give you more information?

IN HER PUBLIC LANDS

many thousands of square miles in extent, the Province of Ontario offers unexcelled inducements to mining prospectors and capitalists looking for large returns for their money.

Many valuable deposits of iron, nickel, copper, gold, silver, arsenic, mica, corundum, graphite, granite, limestone and other ores and minerals have been found in Northern, Eastern and Northwestern Ontario, and many more are doubtless yet undiscovered.

For maps, reports, Mines Act, etc., apply to Hon. E. J. Davis, Commissioner of Crown Lands, or Thos. W. Gibson, Director Bureau of Mines, Toronto.
