

try (4 points) while he allowed Ottawa to kick a goal (6 points) from a touch-down ten times more questionable. He allowed the game to proceed over time, during which he allowed a touch down and consequent goal kick, notwithstanding that one of Queen's men (McCaunnon) was on the ball first and that a most palpable foul had just been made by Ottawa and claimed by Queen's. In short he gave the game to Ottawa after the latter's field captain had left the field in disgust. The association should see that a man who can keep his head, to say the least, referees the next game. But in spite of the referee and in spite of all the Ottawa College team could have done, Queen's would have won had they been less confident and had they played a safe game after they had secured their nine points to nothing.

Pirie did some great work, and his *coup de grace*—a splendid kick "on the fly," was loudly cheered.

Smellie's brilliant play throughout made him the favorite of the field.

Many good fault with the referee, of whom an Ottawa man said: "Well, if Queen's had the referee last Saturday, we have him to-day."

The forwards—every man of them—did yeoman service, though the scrimmage had not so easy a time as they had in Ottawa. For Ottawa College the backs were the stars, and Paradis, as usual, saved their bacon more than once.

The thanks of all who are proud of the excellent play of Queen's men at both games are due to Mr. Pardee, who so well performed the duties of field captain on both occasions.

A Freshman knows everything: he has explored the universe and has proved all things. A Sophomore has the wisdom of an owl, but, like that sedate bird, keeps still about it. A Junior knows a little but begins to be a little doubtful about it. A Senior knows nothing. —*Ex.*

LADIES' DEPARTMENT.

—EDITORS:—

MISSSES ANNIE C. CAMPBELL, JESSIE CONNELL, LAURA BENNETT.

AS this is the first appearance of girls on the JOURNAL staff we suppose it is the proper thing for us to make our little bow, and express our high appreciation of the honor conferred upon us.

It seems as if the boys would not have to lament the absence of girls from the graduating class for some time to come, for this fall shows an addition of eight to our numbers. Some of these live in town, but we are glad to see that Queen's is beginning to attract those at a distance.

The graduates of '88 have secured good positions Miss Alice Chambers in the Brantford Ladies' College, and Miss Alice Cameron in Dr. McIntyre's Ladies' College in Toronto. Miss Cameron is still in Renfrew, but she will enter upon her new appointment after Christmas. While we congratulate these young ladies personally, it is pleasant to see that the graduates of Queen's are holding their own.

Miss Emily Bristol, '90, is the only girl who has given up her course. Miss McMannus, who has been teaching during the summer, intends to return this month. All the others are back and are making a huge effort to settle down to work, though such exciting foot-ball matches as that of Saturday last have a distracting effect even on the girls.

ITEMS OF INTEREST.

Notice is hereby given that any student calling at the same boarding house two nights in succession, will be prosecuted according to law. By order of a soph.

We heard one of the juniors exclaim after the reception "I have had the Best time out."

It has been reported that a number of young ladies wended their way homewards from the recent reception—alone! While on the other hand we heard of one young lady who was escorted home by two of her fellow(s)-students. Surely a better division of labor could be made than this.

"By the way, I saw Mr. R— in the hall this morning." "Is that possible? I suppose he will be round for a beverage to-night."

Our young philosophical friend, whose instinct impels him to seek for something on which to bestow his affections, could not do better than turn his attention to some of the fair sex

"In this old limestone city
Where the girls they are so pretty."

A proposal was recently made to us by one of the students, that a committee of their number be appointed to go severally and take their sister students out to see the sights of the city—the Court House, the Drill Shed, the Collegiate Institute, &c. We would like to say that this proposition meets with our hearty approval, and it gives us great pleasure to learn that a first year divinity student, who excels in that branch of athletic exercise termed "pole vault," began the good work one Sunday afternoon not long ago.
