

The Corbet
Foundry
and Iron
Works

*Steel
and Iron
Manu-
factures*

For those contemplating manu-
facturing steel and iron products,
we have laid a good foundation.
We have a large steel foundry,
making all kinds of fine steel castings.
A malleable iron foundry, four grey
iron foundries, a bolt and screw
works; all of which would be of
assistance in supplying parts; thus
often saving time and expense nearly
always incidental to bringing goods
from a distance.
