Branch Factories in Canada.

Two of the leading thresher manufacturing concerns of the United States have joined in purchasing an established Canadian plant and formed a company to manufacture threshing machinery on Canadian soil threshing machinery on Canadian soil and extend the trade throughout the Dominion, which now promises so great a development in agriculture. A few weeks ago announcement was few weeks ago announcement was the that another leading American three that another leading American black of the company would soon establish a plant in Canada and rumors of lish a plant in Canada and rumors of give them a prestige of incalculable value in extending their trade throughout a land of wonderful pro-
