

### Provisions in a System for Industrial Training and Technical Education.

The Commission considers that the provisions which are indicated hereafter under the names of classes, courses, schools, institutes and colleges, are necessary in a system or systems of industrial training and technical education for Canada.

The plan of statement by classes (or schools) is adopted because it is believed that by this means local authorities and provincial authorities will be helped in the best way to co-ordinate the provisions which now exist with what is to be provided, in so far as that is desirable, and *vice versa*.

The provisions have been arranged under three main headings:—
