THE HOSPITAL BOARD OUT OF TRUSTEE BOARD OF 25 CITY GETS 5 MEMBERS

Is Given Equal Representation With University — E. B. Osler in the Government's Portion—Dr. Cameron Says Hospital Is To Educate Rather Than To Cure.

A healthy protest on behalf of the city, made by Ald. Noble, Harrison, McChile and the mayor, was effectual in persuading the representative committee handling the hospital to increase the representation of the city on the board of trustees at a splendid meeting in the reception room at the Parliament Buildings last evening. The meeting opened at 5 o'clock and lasted three hours. It was called to discuss the act to amend and consolidate the act respecting the hospital. The trustees of the Toronto General Hospital, J. W. Flavell, president, and the gathering were: Hon. Mr. Hanna, Hon. Mr. Osler, E. B. Osler, M.P., Dr. Graesselt, Dr. Cameron, B. E. Walker, Dr. Reeve, Mayor Coatsworth, Ald. McChile, Ald. Dr. Noble, Ald. Dr. Harrison, Dr. C. A. Hodgetts, Ald. McPhedran, Chief Justice Moss, Fred Nicholls, M. J. Hancey, Dr. Brown, President London, P. C. Larkin and a score of others.

The meeting decided that the site at College and University avenues would be most desirable.

The act which was up for discussion provided that there should be 21 trustees, six of whom would be appointed by the lieutenant-governor-in-council, five by the University of Toronto, three by the city council and seven elected by subscribers.

This clause satisfied nearly everybody but the city council members, who had expected a much smaller board. It was eventually increased to 25. The city gets two more trustees than it had with the act which was passed last year, and with varying representation will have a controlling interest on the board.

Wanted it increased.

Ald. Dr. Harrison was very much in earnest when he moved that the city have at least five representatives on the hospital board. "The hospital would be a university one, it would build a Toronto hospital and he thought the city should have a controlling interest on the board. 'Give them three representatives and give us five,' said the alderman."

Ald. McChile seconded the motion to increase Toronto's representation. Talking directly to the trustees, he said the present trustees in urging their claims on the city had dwelt on the fact that the board of trustees would be numerically very small, say nine. Now it was increased to 25.

Mr. Hanna would not object to Dr. Harrison's motion if the university representation was made seven instead of five.

An able defence of the directorate as proposed in the bill was made by Mr. Flavell, who said the government had practically controlled the hospital trust and the same conditions should exist under the new law. He said the city would have a controlling interest on the board over a course of years. He said the board would be made up of representatives of the city, the university and the government. He said the city would have a controlling interest on the board over a course of years. He said the board would be made up of representatives of the city, the university and the government. He said the city would have a controlling interest on the board over a course of years.

TORONTO NEWS STRIPPING HIM

MILLIONS FOR EQUIPMENT OF CANADIAN NORTHERN

Officials Announce That Prince Arthur Branch, 260 Miles, is About Completed.

Montreal, Jan. 10.—(Special.)—Messrs. Mackenzie & Mann's orders for railway equipment to be delivered this year will total about \$2,600,000. This statement was made today by D. B. Hanna, third vice-president of the Canadian Northern, who reached here today from Quebec in company with William Mackenzie, D. D. Mann, Hugh Sutherland and Z. A. Lush, who had all been down to the Ancient Capital attending the annual meeting of the Great Northern.

The equipment orders just referred to embrace 1000 box cars, 400 flat cars, 40 stock cars, 20 first-class day coaches, 16 baggage mail and express cars, 5 sleepers, 2 diners and 14 high-class freight and passenger locomotives. All the latter and most of the cars to be made in Canada.

The important announcement was also made that the Prince Arthur branch, from Dauphin to Prince Albert, 260 miles long, or 436 miles from Winnipeg, had been about completed. It was also explained that in a great many places the main line to Edmonton and the Prince Albert branch are 100 miles apart, and also there will not doubt be several lines radiating from both the Edmonton and Prince Albert line. It is quite possible a parallel line may be built between them, joining the main line somewhere near Edmonton.

Hugh Sutherland, who is president of the Canadian Northern Coal and Oil Co., said that his company has a large tract of land, a storage capacity of 500,000 tons, a cost one million, will be completed by the opening of navigation. The blast furnace, producing 200 tons of pig iron per day, will be finished by August.

STOLEN GOODS RECOVERED DISTRIBUTED BY TORONTO "FENCE" MADE UP IN TWO VILLAGES

QUARANTINED IN HOUSE AN ELOPEMENT RESULTS

Or so It Would Appear in Case of Stratford Woman and Musician.

Detroit, Jan. 10.—(Special.)—Herbert Gault of Stratford, Ont., is minus his wife, mother-in-law and adopted son. Also not legally separated from her husband, Mrs. Maggie Gault, the wife is living in the same house with Professor Rudolph A. Hausman, teacher of violin and voice culture, at 105 Cherry-street, Detroit.

Hausman created a furor during the four months he spent in Stratford. An elopement of romance enters the story. Hausman boarded in the Grand Charles, a son took lessons, but got ill with scarlet fever. The house was quarantined, with Gault outside, and Hausman inside. Mrs. Gault says her attorneys advised her to leave Stratford for the matter with her, and she and professor vary as to how they came to be here together, except that "they happened to be on the same train."

Mrs. Gault says she came to stay with a sister but cannot remember the sister's name. Hausman, who is a native of Michigan, is the sister referred to. "My sister did not say she intended bringing a man with her," said Mrs. Gault. "He came several times a day, and finally they all went to Cherry-street on the same train."

8 LIVES LOST IN HOTEL FIRE TWO JUMP FROM 7TH STOREY

Man Cut in Two by Falling on Rail—Holocaust at Minneapolis.

Minneapolis, Minn., Jan. 10.—Eight persons dead of suffocation or of injuries sustained in leaping from a fire proof hotel building, a score of persons injured and a building damaged \$25,000 by fire, smoke and water is an epitome of the ravages caused by a disaster which befell the West Hotel, Hennepin avenue and Fifth-street today, throwing 700 guests and employes into a panic.

Fire Captain John Berwin fell from the fourth floor to the sidewalk while attempting to save a woman's life. W. G. Nichols, Minneapolis, suffocated. Thos. Summerville, Springfield, Mass., suffocated; J. E. Wolf, northwestern agent for Sperry & Underwood Co. of New York, suffocated; Clinton B. Lammie, New York, traveling man, suffocated; J. F. Pennington, New York traveling man, jumped from the seventh story; Mrs. M. E. Hodges, Minneapolis, jumped from the seventh story; Wm. Black, New York, suffocated.

The fire started in a packing room on the first floor, near the elevator. The wood in the elevator shaft caught fire and burned up. A sheet of flame 20 feet wide mounted the shaft to the seventh story, carrying an immense volume of smoke, which started a panic. There was so much smoke that guests the moment a door was opened were compelled to crawl out of the windows to avoid suffocation.

The excitement was so intense that Pennington, Mrs. Hodges, and another window ledge near the pavement, Pennington's clothing caught fire and he tumbled burning thru the air. He struck a railing and was cut in two.

PROF. HARPER PASSES AWAY AFTER MONTHS OF WAITING

Death of Noted Chicago Educationist Due to Physical Exhaustion, Resulting From Cancer of the Rastines.

Chicago, Jan. 10.—Wm. Rainey Harper, LL.D., president of the University of Chicago since its inception in 1891, regarded by many as the foremost educator in America, and equally renowned as educator and business man, died today of cancer of the intestines at his home on the university campus. Although his death was known by short time, the end of his life, due to physical exhaustion, came suddenly. He was 49 years old.

Despite all that was done for him, an operation was decided on to determine the cause of the severe ailment. Dr. McBurney, New York, came to Chicago expressly for the operation, in which he was assisted by Dr. Elliott, and the result was that it was discovered that Dr. Harper was suffering from a cancer at the head of the intestine, and that the cancer had progressed so far that an operation to remove it would be fatal. The only hope for Dr. Harper lay in medical measures. In a short time he left the hospital, and in a few days he died. His death was a great loss to the university.

BANNERMAN HOWLED DOWN BURNS RAPS CHAMBERLAIN

Two Exciting Incidents at Last Night's Meetings in the British Campaign.

London, Jan. 10.—(Associated Press.)—The election fight is daily growing in intensity and the party leaders, with the aid of motor cars, are displaying the greatest energy in addressing many meetings at different places on the same day.

The premier, Sir Henry Campbell-Bannerman, who spoke at Shrewsbury to-night, was howled down by a Chamberlainite minority and was compelled to shorten his speech. Disorderly meetings of this kind are not uncommon.

John Burns, president of the local government board, made a speech in tilt against Joseph Chamberlain, compelling him to publicly retract his statements that a meeting of the kind would be supported in the workhouse of Great Britain. Mr. Burns' speech was met with a chorus of cheers and the workhouse was at present supporting only 214,864 persons, the majority of whom were either sick or disabled.

One of the most striking personalities in the campaign is Winston Spencer Churchill, whose restless energy, it is admitted by friends and foes, is dominating the struggle in Manchester, where he is being attended devotedly by his mother, Mrs. George Cornwallis West (who was Miss Jennie Matthews of New York before she became Lady Randolph Churchill). Mr. Churchill receives deputations, attends meetings and gives lectures at intervals several times daily.

JOE MARTIN ON CHAMBERLAIN.

Attacks Leader and His Policy on Two Points.

(Canadian Associated Press Cable.) London, Jan. 10.—Prominence is given by The Daily Chronicle this morning to a long letter from Hon. Joe Martin attacking Mr. Chamberlain and his policy. The argument proceeds on two points—that the price of wheat must be raised or there will be no benefit to the Canadian farmer, and that Canada's duty is to support the British manufacturer. He accuses Mr. Chamberlain of misleading the people, or being himself misled, when he says the situation will give further concessions.

A policy of protection, concludes the letter, is the only one that may be adopted, has always been successful in every country where it has been tried. Canada is not excused, in lowering the moral standard of the electorate. It would appear to an outsider, even to the British, that the policy of protection in this country in Great Britain, that a decided taint has already been impressed on the British mind, and that men have acquired a great reputation in the eyes of the world for high ideals and noble positions. It is a pity that whether the conduct of the Chamberlain fiscal campaign since its inauguration stands up to further concessions.

The letter is presented as the "Voice of Canada," and as the "True Feeling of the Dominion," and appears to be the work of a Man of Great Influence in the Northwest.

SHOULD JOIN THE UNION.

Statement From Scotland re Pattern Makers Here.

(Canadian Associated Press Cable.) London, Jan. 10.—After a personal enquiry by the secretary of the United Pattern Makers' Association on the Clyde, Scotland, has issued a statement regarding the fact that many Clyde men disregarded the order of the district committee, and went to Toronto to work in the mills. It is found that the Toronto branch had declared a strike. He warns them that they must conform to the Toronto regulations, but thinks they should be permitted to join the union and participate in the strike benefit.

TEETHING POWERS POISON BABY.

Second Death Due to Medicine Recorred in Victoria.

Victoria, B. C., Jan. 10.—(Special.)—Coroner Dr. E. C. Hart is making inquiry into a second case within the fortnight of fatal poisoning of an infant by the administration of patent medicines, the victim being the young son of Mr. and Mrs. Duval, whose death is laid to the use of teething powders manufactured in England, and which are alleged to violate the Poisons Act of that country in the proportion of opium contained.

In consequence of a similar poisoning case, the government has already arranged to present stringent anti-poison legislation during the session opening to-morrow.

WILL OWN GAS PLANT.

F. R. Lator, M. P., Turns Over Good Thing to Town of Dunnville.

Dunnville, Jan. 10.—(Special.)—At a largely attended public meeting here to-night F. R. Lator, M.P., laid before the people a plan for municipal gas supply to be obtained from the Dominion Gas Company ends this year, and the meeting was most enthusiastic in favor of the scheme. Mayor Wainman presided and the whole council were present and promised to submit a by-law at once. Mr. Lator holds an option on the gas supply to supply Dunnville with gas at ten cents per thousand, which he will turn over to the town.

Officers in a Plot.

London, Jan. 10.—A despatch from St. Petersburg to a new London paper, The Tribune, reports the arrest of eight artillery officers on the charge of being engaged in a conspiracy to blow up the Trolsky bridge and to capture the fortress.
