C. A. BURNS, Auctioneer and General Manager

BENCHERS' ELECTIONS.

Three of the Old Guard Fall for Re-election.

The election of the benchers at Osgoode has practically been settled. The third to be elected are so high above the next candidate, that as there are only 23 more ballots to be counted the outsiders cannot overtake them. The position of the benchers elected may be changed, but those elected will remain the same.

Those elected are: H. H. Strathy, 803; G. F. Shepley, 776; M. Wilson, 750; Hon. A. B. Aylesworth, 726; A. H. Clarke, 700; Lynch-Staunton, 697; C. H. Ritchie, 686; J. N. Glenn, 684; D. B. Macdonald, 683; G. C. Gibbons, 672; Hugh Guthrie, M. P., 671; F. H. Chrysler, 668; S. G. McKay, 654; Alex. Bruce, 623; John Hoskin, K. C., 620; Wm. Kerr, 607; W. E. White, 593; E. S. Smith, 584; Walter Barwick, 583; W. R. Riddell, K. C., 574; W. P. Hogg, 567; Jas. Bicknell, K. C., 564; W. D. McPherson, K. C., 561; Geo. Eaton, K. C., 555; W. C. Northrup, K. C., 555; R. M. Dennistoun, 554; Z. A. Lash, K. C., 519; A. C. McMaster, 518; J. W. Nesbitt, 505; Col. Farewell, 500.

The nearest ten outside the pale are: Wallace Nesbitt, K. C., 477; John Cowan, 465; F. W. Harcourt, 464; Donald McIntyre, 458; C. W. Macdonald, 418; W. M. Douglas, 416; A. J. Wilkes, 414; Richard Bayly, 413; A. G. Mackay, 346; Frank Hodgins, 343.

The counting will be finished by today at noon when the final checkover will be made.

Benchers who failed for re-election are: Richard Bayly, Wallace Nesbitt, D. T. Thompson.

The new men are: James Bicknell, John Cowan, C. H. Ritchie, R. M. Dennistoun, Col. Farewell.

SELLS FOR \$100,000 CASH.

E. B. Oster, M. P., Secures the Odd-fellows' Hall Property.

The Toronto Mortgage Company yesterday sold to E. B. Oster, M. P., the property known as "Oddfellows' Hall" at the northwest corner of Yonge and College-streets, consisting of a four-story solid brick building, standing on 60 x 126 feet of land. The sum of \$100,000 cash was paid.

Whether it is the intention to open a branch there for the Dominion Bank, of which Mr. Oster is president, or whether it is his intention to hold this property for private investment is not stated.

From the Mortgage Company's point of view, it is regarded as an advantageous sale, as they have recovered the full amount of capital invested when the building was erected some 14 years ago, together with all back interest, charges, commissions, etc.

MAY BUILD HOSPITAL.

A bill to incorporate the Toronto Free Hospital for Consumptives was passed yesterday by the private bills committee of the legislature, sections being added to provide that all plans for a new hospital building be submitted to the provincial secretary to be sent on to the provincial board of health, and that municipal councils be authorized to contribute to the hospital funds.

HARDWARE ASSOCIATION.

At 10.30 this morning a meeting will be held in Room 108, Ross Bldg., of the retail hardware men of Ontario. It is intended to form an association. Local dealers are invited to be present.

Was Cruel to Horse.

Belleville, April 12.—Chief of Police Cunyov of Deseronto was in the city to-day, having brought to the court a 50-year-old man named Walter Ketter, who will serve two months behind the bars. He was convicted at Deseronto yesterday of abusing a horse belonging to T. Gault of that town, and for this offence received the above sentence.

NEARLY ASPHYXIATED.

Three Brockville People Have a Very Narrow Escape.

Brockville, April 12.—(Special.)—Mr. and Mrs. William Horton and little daughter, aged about five years, narrowly escaped death by asphyxiation this morning.

The timely arrival of a caller to see Mrs. Horton saved their lives. They were rooming at a boarding house, and were not called for breakfast, as Mr. Horton was not working.

The morning had well advanced when an attempt was made to arouse them. Then it was found all three were unconscious from coal gas from the furnace which filled the room. For a time their recovery was doubtful, but finally they revived and were pronounced out of danger.

Mrs. Horton's condition necessitated her being removed to the hospital.

UNIFORMITY IS AIMED AT.

Continued From Page 1.

Good, clear photographs of news incidents of general interest will be paid for at the rate of \$1 to \$5 each. Railway accidents, extensive or fatal fires, disastrous floods, happenings of extraordinary note anywhere in Canada—from Halifax to Vancouver—will attract subjects for the amateur or professional to seize upon.

AIM OF FRAMERS.
A number of other disadvantages in the present law could be pointed out, and there has for some time past been a general demand that a simpler and more suitable act should be substituted. The framers of the bill introduced by Mr. Cochrane, the following one, have been aimed at:

A uniform law for the whole province.
The decentralization of administration.
Protection to the prospector.
Security of titles, thus affording protection to the investor.
To some extent the bill has followed many of the provisions of the British Columbia mining laws, adapted to conditions in Ontario.

NOT SATISFACTORY.

British Policyholders' View of Mr. Choate's Recommendation.

London, April 12.—A meeting of the British policyholders of the Mutual Life Insurance Company has been called for April 20 to consider the reply of Joseph Choate, of counsel for the company, to the representations made in their behalf by A. D. Julliard, a trustee of the Mutual.

The reply, which Mr. Julliard received this morning thru Mr. Addison, counsel for the policyholders, was not satisfactory to those policyholders who were seen to verify the reserves and liabilities, and require careful legal consideration, and that in the meantime the trustees would be pleased to have the British policyholders appoint an actuary to verify the reserves and liabilities.

This, the policyholders say, is evading the issue. They are satisfied with the financial condition of the company, but demand a change in the management, desiring particularly the retirement of those of the trustees who were closely associated with the McCurdys.

DISCOVERY NECESSARY.

Under the bill a discovery of valuable mineral is necessary in order to obtain title to mining lands, and this mineral is defined in these words: "A vein or other deposit of mineral or minerals in place, containing such quantities of mineral or minerals as to be of value for use as to make it probable that the vein, lode or other deposit is capable of being developed into a working mine."

It thus affords a guarantee that lands will not be staked and recorded simply because of their proximity to known mines, and that the value of the property required by the crown to be paid is a mere bagatelle if the deposit is a valuable one. The chief consideration which the public receives for the small price of a working deposit, and in insisting upon this the law is requiring some return to be made for the work done during the term of the deposit.

Special Conditions.
In the main, mineral deposits of value in Ontario outcrop at the surface, and on this the bill proceeds in requiring actual discovery. There are, however, cases where, owing to the depth of soil or other reasons, the mineral rock the minerals do not actually outcrop, and consequently it is difficult, or impossible, to make a discovery in this way. In such cases it is necessary to dig trenches, sink a shaft, or use a diamond drill. The new act provides for such cases by permitting application to be made for a working permit, for what is called a working permit, to be issued by the mining recorder within sixty days after such application, provided the applicant has made a discovery of valuable mineral in the area of land. A working permit gives the holder exclusive possession of the claim for six months, the condition of his working on it five days per week during that time. If at the end of six months he has not made a discovery the permit may be renewed for another term, and when discovery is made the claim may be renewed or patented in the ordinary way. This provision will go a long way towards meeting the views of those mining men who hold that the crown ought not to insist upon discovery, but that first come should be first served.

PROSPECTING PERMITS.

"Prospecting permits" are also provided for in the bill, and are intended to encourage the discovery of minerals not dealt with in the bill, but to form the subject of a separate measure.

A new Roman Catholic church at Dover has not made a discovery of the height of land there is reason to believe that such valuable substances as petroleum, natural gas and salt may be found, as well as lignite, and other minerals.

WOOD'S PHOSPHODINE.

The Great English Remedy for Rheumatism, Neuralgia, Headache, and all kinds of Pain. Sold by all druggists or mailed free. Price 25 cents per box, six for \$1.00. Write for particulars to Wood's Phosphodine Co., Toronto, Ont. (Formerly Windsor)

ALL COLLEGES OF ONTARIO IN NEED OF AN ENQUIRY.

Sir Sandford Fleming, Chancellor of Queen's, Finds More Work for Commission.

Kingston, April 12.—(Special.)—Sir Sandford Fleming, as chancellor of Queen's, in his address this afternoon at the medical convocation, urged that the Ontario government, out of regard for the educational interests of a large number of people of the province who do not live within the limits of Toronto, should cause an official enquiry to be made into the university system of the whole province of a similar character to that which has recently been made respecting the Toronto institution, and further, that pending this enquiry, educational legislation should be deferred.

This morning Mayor Mowat was informed that the Ontario government has decided to establish an immigration office in Kingston.

The mystery which has surrounded the disappearance of John Hinds, the carrier for the Ontario government, disappeared suddenly last fall, has been cleared up. This afternoon his body rose to the surface in a slip at the foot of Queen-street, when a tug backed, and stirred the mud.

The situation at the locomotive works remains unchanged. The men who were turned away from the office on Thursday morning are still put with no immediate prospect of their returning.

RYRIE BROS. Limited

134-136 Yonge St.

For Easter, deal Gifts.

Beauty and fitness characterize the ideal Easter gift—not size or display. Whether you expend hundreds of dollars, or a fraction of but one, these essential qualities may be had at Diamond Hall.

And the inexpensive gift—like the more costly—is daintily mounted on a satin-covered card of Easter design.

This is true of a Sterling Silver Stick Pin that sells for just 15c.

Various Easter gifts are referred to in our other pages.

Time has wrought many changes but none greater than in the roofing business. The time was, when wooden shingles were considered the proper roofing material, and always it is essential that a roofing which is successful should be well manufactured.

ready to use roofing material, which effectively resists the action of fire, weather and wear. It is quickly and easily applied by anyone, is put up in rolls containing 107 square feet, complete with all the necessary materials and costs per roll, according to quality, best grade \$2, ordinary grade, A Dollar Seventy-five

Don't Waste Good Money

Repairing and patching of all kinds of roofs. Get rid of the trouble and expense at once. We have a special plan for repairing roofs with a material which will last longer than any other. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Clear Up Your Lawn and Garden

from the accumulation of fallen leaves and other debris. You'll find it a most effective and safe way to keep your lawn and garden in the best of shape. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

The Man With the Spade

will be very busy now. Get one of these spades at once. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Some People Prefer

a Digging Fork to a Spade. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

A Saving in Washing Machines.

is only round reeling Washing Machines as illustrated, one of the best makes, and most dependable machines on the market. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Don't Keep the Chickens Cooped Up

any longer, better make a run for them. A bit of poultry netting is all you need for the purpose. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Twelve Dozen Eggs for Twenty-five Cents

Our Handy Egg Crates will hold and carry safe from breakage. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Did Your Roof Leak

during the recent heavy rainstorms? We can help you. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Rope and Tackle Blocks

Don't forget to get these when you are in need of them. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Marine or Boat Hardware

We are carrying a line of one of the best makes of marine hardware. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

A Bargain in Barrows

is only. Contractors' Heavy Barrow, with steel wheel, just the kind you need for all kinds of rough work. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

When You Have Long Distance Boring

is the time to get a long distance boring machine. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

A Cut in Stanley Planes

is only. The genuine Stanley planes are the best on the market. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Doing Your Own Plumbing

If so, we can supply you with all the needed materials in the way of iron pipe and fittings, valves, elbows, etc. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Fifty-six Thousand Pounds

is the lifting capacity of some of our jackscrews, as illustrated. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

All is Not Gold that Glitters

But our Brilliant Gold Paint has every appearance of being the real thing. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.

Light, Strong, Compact and Convenient

are our sectional extension ladders, can be used up to 30 feet high, occupy very small space when not in use, and cost per foot

Fifteen Cents.

But our Brilliant Gold Paint has every appearance of being the real thing. It is a simple matter to apply, and it will greatly improve the appearance of the building, making it look like solid brick. This siding is put on in one day, and costs per square foot, according to quality, Two Dollars and Twenty-five Cents.
