## PROPHETS IN CONVENTION PREDICT END OF THE WORLD

Seers Differ on Details, But Agree That Great Catastrophe Will Occur Either in 1929 or 1931.

London, May 12.—Terrible predictions concerning what will happen to the poor old earth during the next twenty-five years, were made the other day at Exeter Hall. The prophets of the disaster, a large number of whom were clergymen, were in attendance at a "prophetic and second advent conference."

While they differed in the details, all agreed that the end of the world was at hand. They were not quite sure whether the final catastrophe will come on May 2, 1929, or April 9, 1931, but were quite sure that one of these dates will prove to be the right one.

There can be no doubt that the world has nearly outlived its usefulness, the prophets declared, the wars and earthquakes which have afflicted it recently are proof positive, and all that is required to fulfill the prophecies is the coming of anti-Christ, who is unkindly identified with Napoleon.

He will make his first political appearance as King of Syria, but in 1932, he will attack and conquer France, then will extend his rule over the other kingdoms.

There will be 10,000,000 Christians in the world at this time, the prophets declare, but evidently they will not be equally deserving of favor, for in 1924 or 1926, 144,000 of them will be transported to heaven, while the other 8,856,900 will be transported to the desert near Mount Sinai, where they will have to wait three and a half years.

Members of Parliament to Be Left. The members of the British parliament of that time evidently are to be a lot of terrible sinners, for only a few will be found worthy of immediate translation. The Rev. Mr. Baxter declared that the great majority of the members of parliament would be left behind.

RABBITS RAISED ON BOTTLE. Sympathetic New Jersey Woman Adopts Unusual Device to Save Motherless Animals. Freehold, N.J., May 12.—Mrs. H. H. Moore has the distinction of being the foster mother of five wild rabbits. About a month ago Samuel Hardy, a nearby farmer, while plowing, overturned a nest in which were six new-born rabbits. When Mrs. Moore saw the youngsters her sympathy was aroused and she at once set about to provide a substitute for the lost mother.

She fitted a bottle with a cork, in which she inserted a goose quill pierced with a needle, and from this unique device the rabbits thrived first on cow's milk, then on diluted condensed milk. Now they are running about the yard looking after their own welfare.

HIS GRACE CANNOT COME. Ottawa, May 13.—(Special.)—The Duke of Argyll, first president of the Royal Society of Canada, cannot attend the May meeting of the society. An invitation to his grace some time ago, but Dr. S. E. Dawson, secretary of the society, has received a communication stating that the duke will not be able to come.

Traveling Arrangements for Summer School. The railway companies have made the following concessions to those attending the School of Bible Study, etc., in Victoria College, July 9 to 21 next. If fifty or more, up to two hundred and ninety-nine, attend, fare-and-one-third, if three hundred, single fare. For full particulars write J. A. Jackson, B.A., general secretary, Ontario Sunday School Association, 89-109 Confederation Life Building, Toronto.

A Costly Spark. Underwood, May 13.—Yesterday morning fire destroyed the barn of Job Carr, on 12, Bruce Township, together with all his implements and stock. The fire was caused by a spark from the chimney of his dwelling house. Loss about \$2000, covered by insurance.

Ill-told Still Discovered. Ottawa, May 13.—(Special.)—Dr. Anthony Freeland, collector of inland revenue and inspector of detectives employed by the Dominion inland revenue department, made a sensational discovery at Leno as the result of which Joseph Dressard, a farmer, is in the jail. The officers are alleged to have discovered an illicit whiskey still on Dressard's premises. Several barrels of whiskey were seized.

## CAMP WILL BE AT NIAGARA SIMCOE PLAINS DEAL OFF

Minister of Militia Says So and Announces the Reason—New Barracks at Humber.

"They poked their own eyes out by putting an exorbitant figure on their holdings," said Sir Frederick Borden to The World when he positively announced on Saturday evening that the deal for Simcoe pine plains, north of Aliston, as a camping ground for military district No. 2 was off. Sir Frederick referred to the owners of a few corners of the property, which was looked upon as a most desirable camping location on account of its natural advantages and its accessibility. Much time has been spent by the military authorities of this district trying to get this spot for a camping ground.

The minister was the guest of Sir Henry Pellatt at luncheon on Saturday evening. The World saw him at Sir Henry's house shortly before he left for Ottawa. He stated that the year the camp would be held as usual at Niagara, and he did not care to discuss the agitation for the perpetuity of the historic Niagara commons as a government property.

Sir Frederick stated bluntly that there was no foundation for the rumors that the government has abandoned its idea to remove the regular soldiers from Stanley Barracks to a point in the vicinity of the top end of the Humber River, but he had time to touch on details concerning it. He seems very satisfied with Toronto's showing in the militia way, and was sorry he could not stay over for the annual divine service parade yesterday.

He said his visit to Toronto was mainly to see the Ontario government in regard to arrangements for taking over the Petawawa camp in Renfrew County. The government has just extended the charter of the Grand Trunk to continue its line from Brock to the camp grounds. The result of the visit seemed to be satisfactory to Sir Frederick, but he would not discuss it. He spent the afternoon with Mr. Whitney.

Neither would the war minister go into the merits of the claims of those who want the old fort property preserved, but he left the impression that there was no much cause for worry about it.

Hon. Mr. Whitney said that his intention was to visit the Borden Barracks, and to see the Dominion government regarding the lease of the Petawawa camp ground, and that negotiations were in a decidedly satisfactory shape.

EARTHQUAKES IN BRITAIN. Many Disturbances Reported, But Little Damage Done. London, May 12.—At the time of the San Francisco disaster certain seismographs expressed the opinion that the earthquake would, in due course, make its appearance on this side, and that Edinburgh, which stands in the danger zone, practically being built upon extinct volcanoes, would be visited.

The earthquake has been here. From Devon, Cornwall, from the Channel Islands, and from some parts of Scotland, but not from Edinburgh, have come reports of how the earth had been quaking on different days this week, but the earthquake has dealt gently with this country, and beyond a slight rattling of crockery and glassware, and, as it is reported, the displacing of some balls on the putting green of the golf courses, the earthquake passed off, leaving Great Britain as it was and where it was.

A NEW ONE ON THE CONDUCTOR. Street car conductors as a rule are up to all the tricks of the professional free rider, but a King-street knight of the fare box had it all put over him on Saturday night. Three young ladies boarded his car—at well it wasn't Yonge-street. The faithful guardian of R. J. Fleming's interests presented the coffee pot for the untimely donation, but with down cast eyes and blushing cheeks the trio confessed that the only coins in their possession was safely stowed away in their stockings and of course modestly forbade a showdown. They assured the embarrassed conductor that they would pay on the Broadway line, as they would have an opportunity to rescue the coins at the transfer corner.

Chicago Gossip. Ennis & Stoppard wired to J. L. Mitchell to-day: "While what to-day averaged a scattered long rather than any aggregated selling by the bear contingent. Evidently the latter have sold all they care to sell until there is a cessation of damage reports, which, to-day, were again numerous."

All other factors for the time being are subservient to crop news, and we should see an active market, with a more general light, and no special feature. Provisions—Steady, with a fair local trade.

## GRAN OPTIONS EASIER BUT UNDERTONE IS FIRM

Trenton, N.J., May 12.—Two firemen were killed and several others narrowly escaped a similar fate this evening in a fire which destroyed the plant of the New Jersey Pipe and Foundry Company, in New York avenue. They lost their lives under a falling floor when it seemed they had nearly won their battle against the fire, after two hours of the most stubborn fighting they ever had.

Cook's Cotton Root Compound. The great Urine Tonic, and only safe effective Regulator on which women can rely. Sold in three degrees of strength—No. 1, 2, 3. For special cases, \$1 per box. Sold by all druggists, or sent direct on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (Formerly W. H. Cook).

Melady & Co. had the following at the close of the market: Wheat—Wheat opened higher to-day owing to the reflection of crop damage reports in the south-western states, but the liberal realizing amongst local longs, causing a recession, the market closing lower, with the local crowd having sold most of their wheat. On confirmation of the crop damage reports on Monday, the market should have a good bulge, as we have said before, do not buy wheat on the bulge, as you will have plenty of soft spots to buy it on. Primary receipts for the week have been comparatively light, and the cash demand excellent. The flour trade is improving, and millers have been good buyers at good premiums over the options. On all breaks, September and July wheat will prove very good investments. Corn—Corn was lower to-day, and received no support, as shorts have been liberal buyers this week, owing to the light contract stocks in Chicago. We still favor the sale of September corn on all the good bulges. Seeding should soon move, and receipts should increase materially. Oats—The market was very dull to-day, outside trading being very light. The tone of the market, however, is strong, owing to the good demand for both foreign and domestic account. As the market has been steady late and the acreage is smaller than last year, and the weather not very favorable, we recommend the purchase of September oats on all moderate declines.

Liverpool Grain and Produce. Liverpool, May 12.—Wheat—Spot, nominal; futures, steady; May, 85 1/2; July, 85 1/2; Sept., 85 1/2. American mixed, new, 48 60; American mixed, old, 48 60; futures, steady; July, 48 60; Sept., 48 60. Corn—Spot, steady; American mixed, new, 11 1/2; American mixed, old, 11 1/2; futures, steady; July, 11 1/2; Sept., 11 1/2. Flour—St. Louis, fancy winter, steady, 88 60. Hope—In London (Pacific Coast), steady, 22 10 to 23 10s.

Beef—Steady; extra India mess, 75s 9d. Pork—Firm; prime mess, western, 52s 6d; hams, short-cut, 14 to 16 pounds, quiet, 54s; bacon, quiet; Cumberland-cut, 26 to 28 pounds, 18 to 24 pounds, 51s; long, clear middles, light, 28 to 34 lbs., 46s; long, clear middles, heavy, 35 to 40 lbs., 46s; clear bellies, 14 to 16 lbs., 45s 6d; shoulders, square, 11 to 12 pounds, steady, 41s.

Lard—Steady; prime western, in tierces, 48s 6d; American-refined, in pails, 44s 6d. Butter—Butter, standard, United States, 87c; good United States, 76c. Cheese—American, finest, white, new, 30c; Swiss, 30c; American, finest, white, new, 30c; Swiss, 30c; American, finest, white, new, 30c; Swiss, 30c.

New York Live Meat Market. New York, May 12.—Butter—Steady, unchanged; receipts, 3615. Cheese—Steady, unchanged; receipts, 3070. Eggs—Firm; receipts, 19,294; western, 18c to 18 1/2c; eastern, 17 1/2c to 18c. Canadian Produce Prices. London, May 12.—(C. A. P.)—Bacon, 44 to 62 pounds average, No. 1, 54s to 58s. The market has been depressed all week, and prices have been coming down steadily. The demand for these commodities has been free from all speculative elements. Prices show a decline on the week.

Cheese Markets. Yankel's Hill, May 12.—There were 603 boxes cheese boarded and sold on Yankel's Hill Cheese Board here to-day, 580 boxes of white and colored was 11c, all selling at that figure. There were five buyers present—Wegman, Cohen, Code, Wilson, and Fraser. Government Cheese Inspector P. J. O'Connell addressed the board, with the object of organizing a syndicate to take over the business and have an inspector over them to inspect and try to improve the quality in this district. The syndicate's representatives made applications. Cornwall, May 12.—As most of the cheese of this district is sent on Cornhill to Brookville mill, only 484 boxes were sold here to-day, 301 white and 183 colored. The price soared, most of the \$6.40 to \$6.50; best, balance at 11 1/2c; colored, sold at 11 1/2c.

Doyle's Exchange, May 12.—At the weekly meeting of the Eastern Townships Dairywomen's Exchange, held here to-day, 65 creameries offered 175 boxes cheese. ### THOUGHT THEY HAD BARGAINS

Windsor Merchant's Intimation of Smuggling Attracted Customs.

Detroit, May 12.—Many women in and near this city who have believed that they were securing great bargains in silks and dress goods supposedly purchased in Canada and smuggled across the border will now learn from developments just made public that they have been the victims of a clever swindler.

Some time ago United States special treasury agents became interested in the fact that a Canadian merchant was diverting that he would deliver free of cost all silk and dress goods purchased in his store to any point in the United States within 100 miles of Detroit. His business became extensive, and it is declared that many wealthy Detroit ladies were his regular patrons. Secret service men assigned to the case were unable to learn who was implicated in the smuggling, if any was done. The merchant himself often visits Detroit. He was closely watched without avail. Finally, as a bluff game, pure and simple, he was on his last visit here detained by Special Agent Lewis and accused of wholesale smuggling. The Canadian immediately confessed that while the goods were purchased from his store in Canada, the material was supplied by and shipped from American houses. The department investigated and found that this was the case and that the government was not being defrauded in any way.

PULJANES ON THE WARPATH. Band of Renegades Invade Town and Burn 30 Houses. Manila, May 12.—The following despatch has been received from Acting Governor Cincos of the Island of Samar:

"A band of twenty-four Puljanas having five rifles and other weapons, entered the Town of Insabangan to-day, killing one and wounding seven residents, burning and looting thirty-six houses and taking over twenty residents prisoners. Troops, constabulary, policemen and volunteers are pursuing the band and are expected to capture them to-morrow."

Gov. Curry has received a cable message from President Roosevelt congratulating him upon his escape at the fight with Puljanas at Magatton recently.

NOT A GERMAN COALING STATION. Berlin, May 12.—The Magdeburg Gazette says that the statement of the Paris correspondent of The London Times to the effect that Germany had occupied an island on the southwest coast of Borneo for a coaling station is a malicious invention of the press.

VETERANS ATTEND SERVICE. One Hundred Survivors of '98 Listen to Sermon From Dr. Davidson. The Northwest Field Force 1885 Association attended divine service at St. James' Cathedral yesterday morning. Canon Davidson of Peterboro preached the annual sermon.

Under command of Col. Grasset, with Lieut.-Col. Denison, Ryerson and Harston and Major Brock, 100 veterans marched, led by the Queen's Own Bugle Band.

The tablets in the cathedral to the memory of Capt. A. E. Irving and Lieut. Fitch were appropriately draped in black and surrounded with floral wreaths.

JAPS OWN INVENTION IS THIS WIRELESS PHONE. Tokyo, May 12.—There is widespread indignation over the statement by the Berlin Tageblatt that Prof. Kimura of the Imperial navy stole Reumers' wireless telephone method. The admiralty officially denies the Tageblatt's allegation. It demonstrates that Kimura's system is radically different.

Kimura ten years ago won distinction in pure mathematics at Yale. Later he developed the Japanese system of wireless telegraphy, which contributed materially to Admiral Togo's victory over Rojensky's fleet.

### SERVICE FOR IMMIGRANTS TO BE A WEEKLY FEATURE

Rector of Church of Ascension Begins a Good Work Among New Arrivals.

"With the kind permission of the officials we have been allowed to hold service here this afternoon. You are still under the British flag, and we welcome everyone of you. You will have in this country the same religion you left."

This is what Rev. W. H. Vance, rector of the Church of Ascension, began to a gathering of 200 English immigrants in opening a religious service at the immigration office Sunday afternoon at 4 o'clock. The idea of holding such a service with a view to giving the strangers a word of welcome and encouragement was originated with Rev. Mr. Vance, and if subsequent meetings prove as successful it is the intention to continue all summer.

So well did everyone enter into the spirit of the service and especially the singing that it is intended to make use of a portable organ to lead the service of song. The country people are nearly all good singers, and it was thought by the rector that if the assistance of an instrument could be obtained it would induce everyone to sing.

Rev. Mr. Vance chose as his text Exodus xlii, 17, "God led them not through the way of the land of the Philistines, although that was the near way." Applying the lesson he said that God had led the Israelites by a roundabout route to Canaan, which took 40 years, instead of the five days by the near way, in order that He might have a chance to teach and educate them.

"You to-day step into a new country," he said, "but you are still under the British flag, and although true Britons we hope soon you will be true Canadian citizens. You have come to follow the nearest way, but you must adapt yourselves to the conditions and make yourselves good citizens under our free laws."

He directed them to the nearest churches of all denominations if they wished to attend any of the services. About 150 immigrants arrived in the city yesterday, 500 in the morning and 600 about half past six in the evening. They were nearly all English, and chiefly young men. They came over on the Empress of Britain are expected in a day or so.

One Hundred Survivors of '98 Listen to Sermon From Dr. Davidson. The Northwest Field Force 1885 Association attended divine service at St. James' Cathedral yesterday morning. Canon Davidson of Peterboro preached the annual sermon.

Under command of Col. Grasset, with Lieut.-Col. Denison, Ryerson and Harston and Major Brock, 100 veterans marched, led by the Queen's Own Bugle Band.

The tablets in the cathedral to the memory of Capt. A. E. Irving and Lieut. Fitch were appropriately draped in black and surrounded with floral wreaths.

JAPS OWN INVENTION IS THIS WIRELESS PHONE. Tokyo, May 12.—There is widespread indignation over the statement by the Berlin Tageblatt that Prof. Kimura of the Imperial navy stole Reumers' wireless telephone method. The admiralty officially denies the Tageblatt's allegation. It demonstrates that Kimura's system is radically different.
