## Canada-Cuba Land and Fruit Co., Limited First and Only Issue of Stock

Thirty Thousand Dollars' worth of this Company's stock is now offered to the public at par, \$100 per share. All stock stands on the same basis; no preference stock.

This Company owns about 140 square miles of land in the famous Vuelto Abajo valley, the greatest tobacco growing district of Cuba. It owns and operates over 100 Tobacco Plantations of great value, producing the finest tobacco grown in Cuba. About two-thirds of this property, for which we are now giving deeds, is absolutely clear of encumbrance; on the remaining one-third rests a mortgage, for part of the purchase price, of about thirty thousand dollars, and the Company is now offering this stock only for the purpose of paying off said encumbrance. This Company can now give deeds for any portion of the two-thirds which is free from encumbrance, and will then be in a position to collect over seventy thousand dollars on land sales made and now due to the Company, which will enable it to at once declare a large dividend.

In addition to the said \$70,000.00 collectable accounts, this Company will have scores of square miles of the very finest fruit and tobacco lands to be found in Cuba, and also over 100 Tobacco Plantations now under cultivation. The Townsite of Ocean Beach, with all its adjuncts, is also absolutely free and clear from all encumbrance; there can be no better assets. This is the safest and most profitable investment ever offered to capitalists and the investing public generally.

Call for full information and see the expert reports on this investment, which will bear the closest examination by the most exacting accountant. With this issue not more than one-half of the authorized capital will have been sold. ADDRESS ALL COMMUNICATIONS TO
