

"Superba," the Haulon Bros. famous production, combining spectacle and pantomime, with its gorgeous somic effects, its beautiful ballets, odd illusions, quaint and clectrical effects, will make one of the strong Fair-week attractions at the Princess. Theatre, opening next Monday night for a two weeks stay. This year it is said to be in most elaborate form, and replete with surprises of every sort.

William Hanlon, sr., arrived here from Boston yesterday to superintend its initial production, and is stopping at the Rossin House. The sale of seats will open on Friday at the box office of the Princess.

The sale of seats for C. B. Jefferson, Klaw & Erlanger's big new production, "Palmer Cox's Brownies," will open at the box office of the Grand Opera House this morning at 10 o'clock sharp. The engagement of the notable attraction will begin with a matinee and night performance on Saturday of this week, and it will continue all next week, with matinees Wednesday and Saturday. Everything, it is promised, will be new in "The Brownies." and the scenery, costumes and effects will be seventy artists, is announced to appear in "Little Monte Cristo" during Fair week.

nesday and Saturday. Everything, it is premised, will be new in "The Brownies." and the scenery, costumes and effects will be on a more dazzling and elaborate scale than on the occasion of the first visit of the now world-famous spectacle to Toronto two seasons ago. Interest centres on the appearance of the celebrated "Brownie Man." Palmer Cox, in the production. At the Saturday matinee this week Mr. Cox will make his debut on any stage, and will afterwards be one of the great features of every performance. He will draw brownies in charcoal, and tell all about these quaint creatures of his fancy. Mr. Cox will be a strong magnet to draw the people, but there will be unany others—the beautiful bubble ballet, a new dance creation, the flying ballet, in which pictures of Queen Victoria, the Prince and Princess of Wales, the Union Jack, etc., will be thrown on the handsome young women as they fly through the air. The German Band and wandering minstrels are among others that may be mentioned. For opening week at the Bijou Theatre, commencing next Monday, the management of this popular vaudeville house have secured an aggregation of comedy talent that will doubtless put on the breezlest show in town. The company is headed by Miss K. T. Karr, a winsome little coquet, who has sung and danced her way into high popularity at the New York roof gardens during the summer. She is described as one of the latest vaudeville successes, and does an act that will doubtless make her a prime favorite in this city before the week is out. Morrow and Chulita, the actor and the kid; Frank and Grace Graham, Winchester and May, cute Ella May, Ed. Winchester, and Arnim and Wagner, are among others who will contribute to a big, bright and pleasing continuous performance. The Bijon Theatre.

Mr. Lorne T. Murray of Aylmer West. Ont, is in the city visiting his aunt, Mrs. J. T. Hawke. Mr. Murray came via Niagara Falls and Boston, taking the steamer from the latter place to St. John. The distance from Niagara Falls to Boston is 640 miles of very wet roads, he covered the 600 miles on a Cleveland Model 29, visiting en route the principal cities, towns and points of interest in New York State and Massachusetts, The weather was very disagreeable and caused much delay. The route taken for the bicycle trip was a most beautiful one. The best roads were in Massachusetts. guay was not altogether a surprise to officials here who have watched the recent outbreaks in Uruguay. This is the second attempt on the President's life, the former being made by a crazy stated to named Revecca. The last mail advices received here showed that the revolution had broken out afresh, the peace delegates from the insurgents having given up the hope of securing peace, and withdrawn to the Argenting Republic. Further agitation was occasioned by the reports that the Government receipts had shrunk \$1,600,000 during the year as a result of the revolution. The last issue of The Montevideo Times received Here states that the President remained away from the state house in evident fear of his life, ith the same time a "colorado," or junta of those seeking to overthrow the Government, had established active operations at the capital. The assassination of the President will doubtless bring the country to a revolutionary crisis, which has long been impending. The revolution thus far has been confined to the country districts, where several extensive engagements had been fought,
