Lord Aberdeen Needs a Rest.

It had been His Excellency's wish and purpose to respond to the desire of the directors of the Toronto Industrial Exhibition that he should perform the opening ceremony of Aug. 30, especially as it was at one time probable that this might have been the last occasion on which Their Excellencies could visit Toronto officially before leaving Canada. But it is now understood that they hope to pay at least a brief farewell visit at the end of October counstances and in view been the Toronto on the company of the control of the cont at one time probable that this might have been the last occasion on which Their Excellencies could visit Toronto officially before leaving Canada. But it is now understood that they hope to pay at least a brief farewell visit at the end of October or beginning of November, and under these circumstances and in view of the fact that to be in Toronto on the 30th would involve nearly a week's interruption of the necessarily brief holiday stay of the Governor-General with his family at their seaside cottage resort at New Richmond, to which they are now traveling for a little rest and quiet, the directors agreed to fall in with His Excellency's suggestion that some one else should be asked to offichate at the opening ceremony. His Excellency has shown his interest in the Exhibition by offering a prize; value \$50, for competition in any agricultural department of the Exhibition at the discretion of the directors. In connection with the above arrangements the meeting and parade of the Boys' Brigade will also be held later in the fall instead of at the time of the Exhibition.

To-day's statistics showed last week's decrease in the American visible supply to have been a large one for this time of the year, but the freer onerings of new wheat in the West and a break in cash wheat caused some weakness in futures on the Concago board. The decline at the close was about ½c per bushel, as compared with Saturday's last figures.

English visible supply of wheat decreased \$120,000 bushels the past week.

During the six weeks, July 1 to Aug. 8, receipts of wheat at the nine primary markets in the West show a faling out of 6, 501,000 bushels, as compared with same period in last year. Of this denciency, 6,442,000 bushels took place in the three spring wheat markets, at Minneapolis, Duluth and Wisconsin, so that the net deficiency has not been owing so much to non-deliveries of new wheat as to the total exhaustion of reserves of all wheat in the Northwest spring wheat States.

Iowa—The wheat crop of this State is estimated at 25,000,000 bushels, or about double that of last year. This estimate is 504 per cent, above the Washington estimate, published last week. The quality of this season's wheat is the best for many years.

ish on Good Crop Outlook—Canadian Stock Markets Dull—London Electric Light Rises Three Points—Railroad Earnings—Notes and Gossip.

Monday Evening, Aug. 15.

'The boom in Wall-street stocks, which set in when peace between Spain and the United States became practically certain, continued to-day in full force. Again, the Grangers led the wây on the strength of the big crops, which point to good grain and general reight traific, and consequent that the grain and flour rate war between Minneapolis and New York will in all likes bid on the good dividend stocks were bullish on the good dividend stocks were bullish on the good dividend stocks were bullish on the good dividend stocks over Saturday's final figures were: Tobacco 5 points, St. Paul 3, C.B.Q., I. New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch today from New York:

New York opened this morning & shade higher on the London quotations, and commission house buying, but the advances brought out considerable stock. The market felt lits effect. The trading element turned sellers and offered prices down. There was, however, considerable strength shown in some of the specialities, notably Air Brake, Illinois Steel, Rubber, common and preferred, Biscuit, Malting common and Tobacco. In the Grangers St. Paul led in point of activity and strength. U.P. common and preferred were also conspicutionsly strong, the latter on reports of an important deal, which is said to be assured and on continued talk of a surplus after paying the preferred dividend. In the last hour the market railled sharply on covering of shorts stock, put out by the professional element early in the day and on buying by Keene brokers.
