Sweat Shop Shoes

MEAN STARVATION FOR THE WORKER CONTAGION FOR THE WEARER

Women! Will you buy sweat shop shoes, and so encourage grasping employers, paying a starvation wage, and not only keeping the worker in crowded, unsanitary, diseasebreeding surroundings, but spreading contagion through their products? Sweat shops are dangerous—dangerous to the health of the buyer, and equally dangerous to the wage of the skilled worker, which is lowered by the unfair competition of unskilled workers. Sweat shop shoes are poorly made, and yet cost as much as well-made shoes.

This is a true statement as far as it goes and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words, they must be starved. It would be just as sensible for a business man who is unable to do all his own work to cut down his business—to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible man employs help and goes forward with his business. Likewise this sensible dyspeptic will employ help for his stomach and gives his body proper nourishment.

New Teachers Save Money.

A woman who retires at a salary of \$250. A male teacher with \$1600 is replaced by one getting \$700. The new teacher comes in at the lower end of the scale, and the other man, who is promoted, may get a \$50, or perhaps \$100, increase, but there is a clear saving of \$200. The advantage in having a newer, younger staff is very great, and better teachers are attracted. Worn-out teachers can be retired, and the efficiency of the schools largely promoted. Greater continuity of service is also secured, and teachers can do better work when reflected of anxiety about the means of subsistence in old age.

Stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They them-

action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintenance of the body.

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means the body and brain get all the good, nutritious food they need and the man is properly nourished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condition by starving himself or employing some new fangled, insufficient food that does not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed, and this applies to the brain as well as the body.

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it to recuperate and regain its normal health and strength. Nature repairs the worn and wasted tissues just as she heals and knits the bone of a broken limb, which is of course not used during the process of repair.

New Amalgamation Combines Interests Hitherto at Mercy of the Standard.

Considerable interest is taken in many quarters in regard to the announcement that a million dollar cil company has been organized, which in cludes four of the largest oil concerns in Canada outside of the Standard Oil Company interests. Rumor has it that this number is to be, or has already been, increased by six. The four which the charter names are: The Grant-Hamilton Oil Company; the Canadian Oil Refining Company; the Canadian Consolidated Company, and the Sun Oil Manufacturing Comthe Canadian Oil Refining Company; the Canadian Consolidated Company, and the Sun Oil Manutacturing Company of Hamilton. The six other companies which are expected to join the new formation are: The Union Petroleum Company of Canada: the Gall-Schneider Company of Montreal; the Walker Oil Company of Winniper; the Sterling Oil Works of Marietta, Ohio; the McCort Oil Company. Petrolea, and the Elgin Field Oil Company. The new company is known as the Canadian Consolidated Oil Company, and is to have its head offices at Toronto. Its provisional directors are: J. Kerr, Petrolea; E. R. Clarkson, T. Ramsey, and L. Bauer, Hamilton; D. B. Hanna, J. Main, W. D. Lummis, T. H. Hamilton, Joseph Wright and W. P. Bull, Toronto; W. J. Lovering, Coldwater; H. As this is the largest concern the Standard Oil Company have ever had to deal with in Canada, and as they will surely be a factor in the field for business, it is looked upon as certain that there will be a struggle between the two who will control nearly the entire output of oil in Canada. It is the two who will control nearly the entire output of oil in Canada. It is declared by some that the fight has already begun. It is said that prices are being altered on both sides. But just how the two big amalgamations are going to affect the public is the speculation just now. Will they get together and arrange to hold the prices up or, by fighting, give the public the benefit of cheap oil? This is one of the questions now ocupying the minds of those directly interested.

The assertion was made yesterday that the principal people behind the consolidation are Americans, who have been interested in Canadian oil companies for a number of years, as well principals and their lawyers, the city as having extensive connections in the being the only party to the case that
