Saves His Sister From a Similar Fate-Party Out Boating. Delhi, Oct. 19.-William Buck, aged 19, the heavy hitting left fielder of the champion Delhi baseball glory by saving a young lady from drowning. Young Buck rescued from the waters of the Rhome River on Sunday Miss Leta Dalton, the pretty talented daughter of Dent Dalton, one of the weakhiest men of Southern Ontario. Buck has been presented by Dalton with the finest gold watch that money can buy, inscribed with the record of the deed of valor, and an effort will be made to secure the life-saving medal of the Humane Society. Sunday was an ideal for boating, and Miss Dalton, accompanied by Miss Julia Wilson and her small bro-ther, Arthur Wilson, were enjoying the water near Quance Mills. When their boat reached a point in the shadow of a perpendicular bank near the Buck home the boat overturned and the three young people water. Arthur Wilson, a brave little fellow accustomed to swimming, after a des-prete effort, managed to to whis sister to safety; for which act he de-sister to safety; for which act he de-seres great praise. The little fellow was so exhausted from his great ef-br that he was unable to go to the asistance of Miss Dalton, but he called loudy for help. The cry was heard by Will Buck in his home near the top of the river bank. From the top of a sheer preci-pisc he took in the situation at a "Here goes, but I don't know wher-atane. ## The Best Food for Workers.

The best food for those who work with hand or brain is never high priced.

The best example of this is found in Quaker Oats. It stands at the top among foods that supply nourishment and vigor, without taxing the diges tion, and yet it is the least expensive food one can eat. The great food value and low cost

make it an ideal food for families who want to get the greatest good from what they eat.

Laborers, factory or farm hands, fed plentifully on Quaker Oats will work better and with ress fatigue than if fed on almost any other kind of food. All of these facts were proved and very interesting information about human foods was gathered by Pro-fessor Fisher of Yale University in
