

NEWS OF SPECIAL INTEREST TO WOMEN

ENTIRE SPORTING SUIT MADE OF JERSEY SILK

The New Beach Costume is Very Dainty and Universally Becoming.

SKIRTS UNCONVENTIONAL

Jackets Have Artist's Collar With Flowing Ties—Pantaleone Pockets a Rage.

The newest thing in sports tops is the entire suit of jersey silk, instead of the jersey silk sweater and contrasting skirt. Extremely chic and universally becoming are these new beach costumes, which come in a "heavenly" array of pastel shades—and a few bright ones too.

The skirts and waist portions depart from conventional lines, which used to distinguish—or rather mark—sporting outfits, and assume most interesting proportions. Pantaleone pockets are all the rage and give the desired fullness over the hips—hems are in stripes or contrasting materials and all models are well trimmed with novelty buttons.

In the blouses even greater variety is in evidence. Jacket designs, of course, prevail, the many new innovations are to be seen—a particularly effective one being the "artist's" collar and flowing silk tie. To complete the new sports costumes and outfit suits of either jersey silk or French flannel—which is another favorite—are odd little sets consisting of a sporty beach cushion and sporting hat—soft-brimmed and square-crowned, and decorated with a tailored band and flat bow. These are fashioned of wide-striped silks or mercerized linens with heavy cord effects in the weaves.

SHOULD BE IN EVERY HOME

Larned's Great History of the World—How to Get It With This Paper's Coupons.

President Wilson of the United States, in a recent message to a National Educational Association, in session in St. Paul, said that "nothing less than a comprehension of the national life is necessary for a teacher." By this means he is enabled to think nationally and not sectionally or locally. This is equally true of all citizenship, and the only means of acquiring this comprehension is to know and understand history. The work now being offered by this paper to its readers is far and away the best work of its kind. Its division of history into logical epochs that mark the boundary lines of the different periods of the world's progress is a stroke of genius. The marvelous illustrations, both in color and half-tones, 150 of them; the handsome text and the beautiful design style of binding make the five volumes the most attractive ever offered by a newspaper to its readers. Our coupon, published elsewhere in today's issue, should be clipped at once.

DOCTOR WILL BE TRIED

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays by asking at any drug store for "Wyeth's Sage and Sulphur Compound" you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it. No one can possibly tell that you darkened your hair, and it does it so naturally and evenly. You simply wash with soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

COMMERCIAL COURSE FOR BLIND SOLDIERS

Instruction Will Be Given by the Library for the Blind.

HELD MONTHLY MEETING

Assistance Was Asked From the Toronto Board Yesterday Afternoon.

At the regular monthly meeting of the library board, held in the College street library yesterday afternoon, a deputation representing the Canadian free library for the blind attended with a view of obtaining further aid from the board.

The skits and waist portions depart from conventional lines, which used to distinguish—or rather mark—sporting outfits, and assume most interesting proportions. Pantaleone pockets are all the rage and give the desired fullness over the hips—hems are in stripes or contrasting materials and all models are well trimmed with novelty buttons.

There are now over fifty active readers belonging to the library for the blind who are benefiting greatly by this institution, and it is the intention with the help of the Toronto Public Library and other organizations to instruct and entertain returned blind soldiers, who will also be taught commercial courses and typewriting.

Chairman N. B. Gash thanked Messrs. Carruthers and Swift on behalf of the board for the information and details submitted, and stated that the matter of further assistance would be taken up without delay, the intention being to have out this year augment their library with instructional literature.

MRS. PANKHURST AND MUNITION WORKERS.

In the early summer the question of munitions became a vital one, and the Women's Social and Political Union realized that help was needed in this connection. They then opened a war service register for women eager to do munitions work, and the number of women who volunteered soon rose to many thousands, and women of all grades joined to Lincoln's Inn House to register their names for some sort of war work.

In addition to this, the W.S.P.U. organized a monster procession of women armed to serve the state. They marched through London on Saturday, July 17. A deputation headed by Mrs. Pankhurst and was duly received by Mr. Lloyd George, the minister of munitions. Mrs. Pankhurst put the women's case before him and he gave a sympathetic reply, promising that women should be largely used in the future for munitions work. As a result of this thousands of women are now engaged in munition making in all the large industrial centres of England. The response made by British women to this, as to every other patriotic call, has been magnificent, and has shown people all over the world what women are prepared to do in the time of their country's need.

WORK OF WOMEN ON BEHALF OF SOLDIERS

Splendid Aggregate Reported at Annual Meeting of Daughters of Empire.

MUNICIPAL CHAPTER

In Many Instances of Material Value to the Families Visited.

Nothing short of splendid was the aggregate of work reported at the annual meeting of the Municipal Chapter, I.O.D.E., which took place in the Margaret Eaton Hall yesterday, inaugurating the experiment of a morning and afternoon session, which proved very satisfactory.

Mrs. R. S. Wilson was in the chair and reports from 37 primary and three junior chapters were received. These reports for the most part have already been published individually thru the press, and all told of patriotic service in some measure along the line of Red Cross Endeavor, supplies of comforts for soldiers, assistance to the city poor, visiting soldiers' families or other line of Imperial or local aid.

The treasurer, Mrs. Angus MacMurchy, announced receipts as \$28,824, expenses \$27,562.52; balance on hand, \$12,619.77. Votes of thanks were given Mrs. Peniston Taylor, retiring assistant secretary for her good work, and to the press for the attention and space given the work of the order. A telegram of regret was read from the national regent, Mrs. A. E. Gooderham, expressing regret at inability to attend, as she had been called to Montreal in connection with important work of the order there.

A motion to restrict members to active membership in one chapter only was lost by a small majority, but may be tested again at the national meeting.
