# PEOPLE AT HOME SEE WHAT WAR IS

Striking Feature of Film Lt.-Col. Showing Battle of the Somme.

# DRAMATIC INCIDENTS

Nothing More Stirring Than Major Mitchell Has Been Sight of Infantry Making Attack.

Battle of the Somme," the greatest motion pictures ever produced, will do more than any number of lectures and speeches to show the worker at home what is really going on.

He sees at once the vast preparations, the wonderful organization of the army behind the army that has been perfected during the months of walting. Then he sees the launching of the attack, and as he sits at home of the attack, and as he sits at home of the comes a glimpse not merely of the horrors of war, but of its glories, of unselfish British soldiers sharing their eigarettes with their prisoners, of the wounded patiently waiting their turn at the dressing stations, of men staggering back to the British lines with wounded companions on their backs. And all the time one feels that these men, cheery under the most trying conditions, are members of a victorious army.

The films are full of dramatic intorious army.

cidents—the explosion of a monster mine which envelops the countryside in debris and smoke, the devastating effect of the Royal Marine Artillery's 15-inch howitzers the burging of the strong. It makes the devastation of the strong in the st in debris and smoke, the devastating effect of the Royal Marine Artillery's 15-inch howitzers, the burying of the dead and the pathetic picture of the Manchesters' pet dog, killed with his master in the storming of the Dantzig alley.

But there it the storming of the Dantzig and has been in training here ever since the camp opened three months ago.

But there is nothing more stirring than the sight of the infantry rushing over the parapet to the attack, some of them falling even before they have

Newspaper Men Testify at Resumption of Contempt Case.

### **NEW OPINION GIVEN**

Beck Examination Exceeds Commission's Scope, Says Judge Haggart.

Winnipeg, Oct. 6.—The contempt proceedings were renewed this morning at 11.30 before Justice Haggart, in habeas corpus action, to release from custody the four Winnipeg newapaper men sentenced to jail by Justice Galt for alleged contempt of court, committed in commenting on the Arricultural College Investigation Commitsion.

Wilson, the crown counsel, who contends that the proceedings are irregular, did not appear. It was arranged that the evidence should apply to all four parties interested equally. Deputy-Sherif Pyniger was called as the first witness to tall of sarving the first witness to tell of serving subpoenas and to produce the formal documents of committal and release.

Col. Lindsay, who is the governor of the provincial jall, produced the warrants of committal showing that the parties had been delivered into his custody on orders signed by Judge (Salt as commissioner).

Their Daring and Sacrifice

Alone Has Made Film An Admission

Mr. Andrews, counsel for defend ents, read what he called "an admi Judge Galt, and produced to remove the necessity for calling the judge as a witness. This contained a copy of

162nd; C.S.M., L. G. Gardiner, Sergt. M. Patterson, 169th; Corps. J. McBride, C. R. Long, 180th; Corp. J. S. Wooller, 198th; C.Q.M.S., T. Shaw, 216th; C.S.M.. G. Hill. Sergt. O. H. Robins, 176th, and Sergt. J. D. Cooke, 220th. To be corporals: Pte. G. N. Eccleston, 122nd; Sergt. T. L. Leith. 176th; Sergt. J. Borthwick, 216th, and Sergt. B. N. Duck, 216th.

the commission appointing Judge Galt to hold the enquiry, and counsel said his power to summon witnesses was confined to the purposes of the com-mission. Andrews read the "admis-sion" of Judge Galt that his authority was based on his commission to hold the enquiry and that Edward Beck was summoned to be exturned with respect

summoned to be exumined with respect to a newspaper article.

Beyond Legal Powers.

"To be cramined," commented Justice Haggart, "on a matter neither within the scope of the act or of the commission." A similar admission was presented to each of the other applicants. "I'm not tying the question as to whether the article is lihellous or not," said his lordship, refering to the report in The Telegram, which caused the committals. "It is which caused the committals. "It is the practical validity of the committal

the practical validity of the committal we are trying."

Andrews read the recard of proceedings when the applicints were sentenced. It was admitted, he said, that Edward Beck was only to be questioned on the newspaper articles. Contempt of court was criminal, and the sum of the evidence against Beck was that his name appeared as editor. Pecause he refused to give evidence against himself he was sent to fail. The newspaper men had no notice of the proceedings and no opportunity to defend themselves or produce evidence.

# **BRAVE OPERATORS** HAD CLOSE CALLS

Possible.

After Thrilling Escape, Men Were Unable to Guide

Motor Car.

In constant danger of instant death by the fire of enemy guns, the motion picture machine operators who were responsible for the production of the world's greatest film. "The Battle of the Somme," in assuming the same risks as that of the British soldiers in their offensive of July 1 have won for themselves fame which will never be forgotten.

In a letter to The London Times, Sir Arthur Conan Doyle declared that "the names and portraits of the brave operators who risked their lives to se-cure this valuable national possession

cure this valuable national possession should be flashed upon the screen."

The two operators who were J. B. McDowell, managing director of the British and Colonial Kinematograph Co., and G. H. Malins, an operator in the service of the Gaumont Co., performed their duties under the supervision of Capt. J. C. Faunthorpe, military director of the Kinematograph operations on the western front and Dr. E. Distin-Maddlek, acting on behalf of the war office.

Dr. E. Distin-Maddiek, acting on behalf of the war office.

When it was suggested that the names and pictures of the operators be flashed on the screen, it was felt that this would be invidious as the others, including the directors, had run equally great risks.

Had Narrow Escape.

Malins had a narrow escape when two bullets passed thru his service as he was taking down his camera, which had been lixed in a trench. He then made his way to a village into which Germans were dropping tear shells. Finding his car there, he drove away, but both he and his chauffeur were so affected by the shells that feur were so affected by the shells that the car fell into a ditch. The films McDowell on July 1 filmed the leap

from the trenches and other stirring pictures often from such exposed positions that he had to be called away. While he was taking several of the pictures, shrapnel burst overhead and hullets struck the ground in front of the camera. Both operators used an ordinary lens.

### WRITES FOR SUNDAY WORLD.

Miss Adela Gianelli, who, in company with her mother, Mrs. Alfred Glanelli, has been in England since the beginning of the year, is sending a weekly letter to The Sunday World on interesting current topics under the pen name of "Aleda." Her many friends among the younger sex may pleased to know of this.

### DEPUTY JUDGE OF HURON.

Ottawa, Oct. 6.-Robert C. Hayes, barrister, of Goderich, has been ap-pointed deputy judge of the County

Richard Hill of New York has just returned from the Turkish war zone. He comes with a thrilling revelation of actual conditions in Armenia, which Lard Bryce characterized as "the murder of a nation." Mr. Hill's lecture at Convocation Hall Tuesday vening at 8.15 is free to the public.

# ow Nuxated Iron helped me to whip Frank Moran ESS WILLARD TELLS SECRET OF HIS EASY VICTORY. GREAT TRIUMPH OVER JACK JOHNSON; SAYS IRON IS GREATEST OF ALL STRENGTH BUILDERS

Ordinary Nuxated Iron will often increase the streagta and e n durance of delicate, nervous folks 200 per cent. in two weeks' time.

SPECIAL NOTE,—Dr. E. Sauer, a weil-known physician, who has studied widely in both this country and Burope, has been specially employed to make a thorough investigation into the real secret of the great strength power and sendurance of Jess Willard, and the marvejous value of nuxated fron as a strength builder.

marvelous value of nuxated from as a strength builder.

NEW YORK—Upon being interviewed at his apartments in the Colonial Hotel, Mr. Willard said: "Yes, I have a chemist with me to study the value of different foods and products as to their power to produce great strength and endurance, both of which are so necessary in the prize ring. On his recommendation I have often taken nuxated iron and I have particularly advocated the free use of iron by all those who wish to obtain great physical and mental power. Without it I am sure that I should never have been able to whip Jack Johnson so completely and easily as I did, and while training for my fight with Frank Moran I regularly took nuxated iron, and I am certain that it was a most important factor in my winning the fight so easily." Continuing, Dr. Sauer said: "Mr. Willard's case is only one of hundreds which I could cite from my own personal experience, which proves conclusively the astonishing power of nuxated iron to restore strength and vitality even in most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old, and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man—in fact a young man he really was, notwithstanding his age. The secret he said was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 careworn and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength-builders. If people would only-throw away patent medicines and nauseous concocitions and take simple nuxated iron, I arh a hundred times over, iron is the greatest of all strength-builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more or less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without whigh you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in soil deficient in iron. If you are not strong or well, you owe if to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three

among all the prominent figures of the prize ring probably none is so devote o family life as Jess Willard.. After each engagement the champion hurries is wife and children and remains at their side until public demand forces his to leave for new encounters. Everything is done to bring up the "little Will rds" with strong healthy bodies. Mr. Willard accounts for his own suc

times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, rundown people who were alling all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone to inglorious defeat simply for the lack of iron.—E. Sauer, M.D.

NOTE.—Nuxated Iron, recommended above by Dr. Sauer, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily asymilauted, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, rundown conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed by G. Tamblyn, Ltd., and all good druggists.
