For Those Who Play Tennis and Golf!

Everything for a Lively Game of Tennis

Golf---The Great Outdoor Sport

THE first and probably the most important thing to do to get ready for your season's fun at tennis is to make certain the ground is as level and smooth as is possible to make it. It may be a bit soft and uneven, especially at the beginning of the season, and so an iron roller will be an important acquisition to the court just now, as well as throughout the season when it is necessary to roll it after each fall of rain.

We show a variety of sizes in lawn rollers in the basement that are all made of heavy, water tight, shell steel and fitted with roller bearings and weighted handles. The drums are welded, thus doing away with that roughness caused by riveting. Priced according to size as follows:

Size 18" x 24", weight, with sand, 860 lbs. Price 12.50
Size 24" x 32", weight, empty, 230 lbs., weight, with water, 710 lbs., weight, with sand, 1060 lbs. Double rollers. Price 17.00
—The above are in the Basement.

After the rolling of the grass comes the marking out of the court with white liquid or tape.

The Eclipse Wet Marker is operated the same as a lawn mower, simply push it along and it leaves a clean white line that remains on the grass for weeks. Price 2.25
Another Wet Marker is priced at 3.00
Dry Markers are priced at 1.25
Marking Tapes, per set 4.50
—These are to be had on Fifth Floor.
