London, March 29.—Frank Moran, the American heavyweight, who hails from Pittsburgh, knocked out the English champion, Bombardeur Wells, in the tenth round before 4,500 spectators in the London Opera House tonight. White Beats Thomas.

Philadelphia, March 29.—Charley White, the Chicago lightweight, had the better of a six round bout with Charles "Kid" Thomas, of this city, who claims the French lightweight championship, here tonight. Both boxers weighed in at 133 pounds at three o'clock.

STYLES FOR MEN

By an Authority

Fashions have changed in many ways since the early days when eccentricity in dress was a sign of the "dandy." Beau Brummel, who was the supreme dictator of fashion a century ago, is said to have made the Prince Regent weep when he disapproved of the cut of the royal coat. But today Beau would himself be laughed at.

A violation of the artistic principle in dress is tabooed by the leaders of fashion, and the noisy or loudly dressed man is pitied rather than admired. The well-dressed man of today wears clothes that are subdued, refined and sane in expression. There is an entire absence of frills.

The Semi-ready system of wholesale custom tailoring has exercised a powerful tendency towards the adoption of comfort and conservatism in dress, with the richness and softness in the weave and the wool.

There are changes in styles each season, but these variations are usually a gradual evolution of style, and are stamped with the undeniably quality of good taste.

It is the young business man of today who puts the stamp of approval upon the creative product of the designer—his energy, his ingenuity and his taste. His decision give instant judgment. Seldom does this innate instinct go astray.

In fabric the recent combinations will be the dominating colors for the season, and all the new patterns and shades are quiet and yet smart.

The cutaway frock, or as it has been more generally called, the English morning coat, will have three buttons, and there is a likelihood that the cut-

away will grow more in favor for office men and professional men.

Yet the sack coat this season is shown in such a variety of attractive lapels and of shapely fronts that it will be the choice of the multitude. Coats, such as "The Marlin," with the neat square cut broad lapels and patch pockets, will be in vogue. The coat will be loosed this year, with less tendency towards the tight form-fitting design. A three-button sack, with roll lapel of medium length, slightly rounded or quite square in the notch, will be a strong favorite.

The waistcoat will have no collar and will show one button above the coat. Double-breasted sack coats, like "The Savoy," a design of the Semi-ready tailors, will have three buttons, but with a roll lapel so that only two buttons should be closed.

A smart rolling or outing suit will be the yoked Norfolk, with an envelope seam across each shoulder to allow full freedom of muscular action, but with a roll lapel so that only two buttons should be closed.

For seaside and holiday dress the English white serge and gabardines will be worn chiefly with the morning coat, but the liberal width of the coat lapels as shown in all the new models of the Semi-ready designs is one of the marked features of the season.

John P. Walsh of St. John, and George Lee of St. Francis, N. B., have been returned from Salisbury Plain because of illness.

An offer of \$100,000 has been made to the Dominion government by Mrs. G. T. Fulford and her son-in-law and daughter, Mr. and Mrs. A. C. Hardy, of Brockville, Ont., towards equipping a Canadian regiment.

When Joseph P. Mahoney of St. John was shot in the leg in France his words were "The sons of guns! After training six months they've got me before I've even seen one of them." He is not seriously wounded. This further news was received in a letter from Leslie Creighton to his father, H. C. Creighton, written from very near the firing line. Young Creighton has been under fire and in the trenches himself and was near Mahoney when he was wounded.

W. S. Fisher has received a letter from his son, Capt. Donald Fisher of the Canadian Mounted Force, which shows that the cavalry from the dominion are still in England. He says they are stationed at Brighton.

The Duke of Connaught yesterday received a message of congratulations from Field Marshal Sir John French, commending the work of the Canadian division, and making special reference to the splendid fitness of the Canadians in ability and physique.

EAT LESS AND TAKE

SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, the French weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jass Water; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with litine, and has been used for generations to flush and stimulate clogged kidneys; neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jed Seltz is inexpensive; cannot injure, makes a delightful effervescent litina-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flush—any time.

DR. WOOD'S NORWAY PINE SYRUP.

Mrs. Rebecca Hays, Mahone Bay, N.S., writes: "My little boy aged six, was always troubled with bronchitis, and when he had 'whooping cough' he was worse. Doctors advised me to use Dr. Wood's Norway Pine Syrup. It gave him instant relief, and positively cured him."

Price, 25c and 50c. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

BRONCHITIS

If Neglected Will Surely Turn Into PNEUMONIA.

Bronchitis comes from a neglected cold. It starts with a short, painful, dry cough, accompanied with rapid wheezing and a feeling of oppression or tightness through the chest. At first the expectoration is of a light color, but soon becomes copious and of purulent character.

You have, no doubt, wakened up in the morning and have had to cough half a dozen times before you could raise the phlegm from your bronchial tubes, and when you do succeed in doing so you find that it is of yellowish or greenish color, and you get some relief right away.

When this happens to you, you may rest assured that you have a touch of bronchitis, and if not cured immediately it will sooner or later develop into pneumonia or some other serious trouble.

Cure the cold, and thereby prevent bronchitis and pneumonia taking a hold on your system.

This can be quickly done by the use of DR. WOOD'S NORWAY PINE SYRUP.

Mrs. Rebecca Hays, Mahone Bay, N.S., writes: "My little boy aged six, was always troubled with bronchitis, and when he had 'whooping cough' he was worse. Doctors advised me to use Dr. Wood's Norway Pine Syrup. It gave him instant relief, and positively cured him."

"MOTHER" SHIP

WITH SUBMARINES

Enemy's Undercraft Always Accompanied by a Supply Vessel—Story of Wireless Man

London, March 30.—The oft-repeated report that the German submarines which are now so active in the English Channel and the North Sea are accompanied by a supply or "mother" ship, confirmed by the story told by Adolph Doehler, of Baltimore, Md., who was an operator on the British steamship Glenartney, which was torpedoed by a German submarine on March 18.

Doehler says that after the Glenartney went down there was a steamer stationary about two miles away which could see clearly what had happened and yet made no attempt to rescue the crew of the steamer. Shortly after talking to the boats he saw the periscope of a submarine, which made off towards the steamer, and both went away together. There were forty men in the crew of the Glenartney. One was drowned and the others escaped in their boats and reached New Haven.

Doehler says that at 10:30 on March 18 he heard an explosion, and the hatches shot into the air, but could see no trace of a submarine. No warning had been given. Boats were launched, and a few minutes later there was an explosion on the Glenartney, and she went down by the stern.

Blanchard, the principal speaker at the monthly meeting of the Bangor Chamber of Commerce on Thursday evening, asking the city council to co-operate with the commercial body in the endeavor to bring new industries to Bangor and to appropriate \$1,000 to be used in making the effort during the year, were unanimously adopted.

\$150,000 Fire in Montreal.

Damage to the extent of \$100,000 to the million dollar Harbor Commissioner's elevator in Montreal and of \$50,000 to the hay stored there was caused by fire last evening. The fire is believed to have been started by a cigarette.
