A BRIGHT YEAR  
FOR MORVICH

Owner Expects Him to Equal or Surpass Man-o'-War's Record This Year—Being Conditioned for Kentucky Derby.

New York, March 9.—(By Canadian Press)—Morvich, the champion two-year-old of 1921, is being pointed for a great campaign this season and is expected to equal, if not surpass, the great record made by Man O' War in his three-year-old year. In winter quarters at the Jamaica course the mighty son of Runnymede and Hymalaya being conditioned for the first of the three-year-old classic of the year, the Kentucky Derby. After that he probably will be transferred to the Landonia Derby, the "Breakfast in Maryland" and all other events for horses of his age for which it may be practicable to train him.

It is the attitude of Benjamin Block, owner of Morvich, that his colt is as good a horse, on what he showed last season, as Man O' War ever was. Block belongs to the racing fraternity of the American continent and to the people generally. Mr. Block regards him merely as a custodian for racing this year. He is a California-bred colt and reckons it as a sacred obligation to show him in as many places as possible, to the end that the greatest number of the supporters of racing may see him in action. It is possible, though dependent upon the success of the colt, that he will be taken to Canada for some of the best three-year-old stake events.

Morvich did not happen to be eligible to race in the Belmont Park Futurity revival of 1921, which Bunting, one of his prospective Kentucky Derby opponents won. But, after his victory in the Hopeful he went down to Havre de Grace and carried off by winning a renewal of the Eastern Shore Handicap. After the Eastern Shore he earned an additional \$427.00 by winning the Maryland Futurity Inaugural.

By a victory in the impending renewal of the Kentucky Derby Morvich may possibly get a start that will enable him to equal the record Man O' War made in 1920. Man O' War earned \$166,140 as a three-year-old and retired to the stud prematurely mortgaged with a matter of \$249,465 in earnings to his credit. Add \$166,000 to the \$119,000 Morvich earned last season and the total is a greater sum than any American thoroughbred has accounted for in the past.

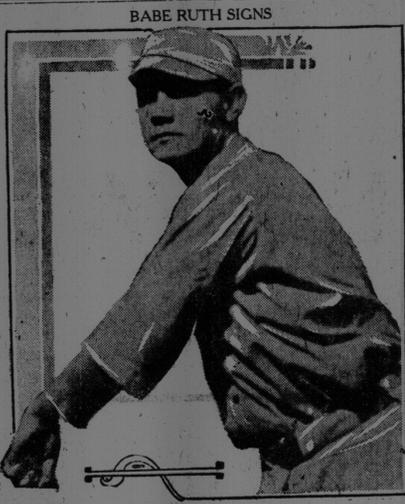

That Morvich will negotiate the Kentucky Derby without a sophisticated patron of racing who watched the stout little Runnymede colt race last year, doubts. The circumstances that his father, a son of Viceroy and Running Stream and a half brother of Ultimus, Pebbles, and Cataract, did not distinguish in racing over one mile is no consequence, having been his extreme distance under pressure, got brilliant route travelers in Ballot and B. Manager. Sterling, a miller, sired Isomony and half a dozen truly great distance runners. More recently in Great Britain Sandridge a sprinter of the Viceroy type as regards racing bred the distance Sun Star and Sun Brier, and Sun Star has fathered a flock of distance runners, notably Bushan, Gallinger Light, Star Hawk and others.

Morvich was bred in California by Adolph Spreckels of the Napa stud. Runnymede had been bred in Kentucky by James R. Keene and sent to England to race. It was in Great Britain that he made his reputation as a sprinter. The veteran trainer, James Rowe, who broke Runnymede for Mr. Keene while the sire of Morvich was still a yearling, has always had an idea that if he had been able to train Runnymede in America that he might have developed him as a first class mile-and-a-quarter horse, like Whisk Broom 2nd.

On the distaff side Morvich comes from one of the strongest families of the Napa stud. Hymalaya, his dam, was a daughter of the distance runner Dr. Leggo and Georgia Girl; she a daughter of the stout bred Solitaire 2nd (an imported son of Ayrshire and Solon) and Georgia Girl, by Flambeau out of Goula. Dr. Leggo was by the distance runner Purdy, and he was the son of the distance runner Decider.

Bender Improves Cadets.  
West Point, N. Y., March 8.—Chief Bender, former big league pitcher, was here during the last week working with Hans Lobert, coach of the army baseball team, in the preliminary development of the cadets' nine. Bender handled the army pitching staff, and has given invaluable assistance during a brief stay here. The Army will open its baseball season on April 1 against Bowdoin. The complete schedule will be announced this week.

Saskatchewan Dog Derby.  
Big River, Sask., March 9.—(Canadian Press)—J. McDonald's team, driven by Antoine Maurice, an Indian driver from Isle Lacrosse, won the first annual 135-mile Saskatchewan dog derby, finishing here yesterday morning. He covered the course in eighteen hours and fifty-nine minutes.

Colonel Huston of the New York American League Club announces that "Babe" Ruth, famous home run king, has signed a five year contract. It is reported that his salary will be around \$75,000, with a bonus of \$500 for every home run. The toss of a coin is said to have settled the argument between Babe and the club. Ruth won the toss so he is to get his original demands. He is the highest salaried man in baseball.

TO CURB WOMEN SMOKERS.  
Bay State Legislator Wants Practice in Hotels Forbidden.

Boston, March 9.—The female smoker was under discussion today before the Legislative Committee on Legal Affairs. Representative Shulman of Dorchester, appearing for his bill to prohibit women from smoking in hotels, asserted that the measure had been offered to raise the standard of generations and promote the public health.

If women wanted to smoke, he said, let them do so in private. He declared that the smoking habit had been brought to this city by "a handful of women who saw it in New York and thought it would be a society fad here."

W. W. David, speaking for the hotel men, said he did not like to see women smoke, but he thought it preposterous to stop on the hotels the burden for stopping the practice.

Nils T. Kjellstrom, speaking for the Association for the Preservation of Personal Liberty, remarked that decent women did not smoke and added: "If women are prohibited from smoking, then the men will be, and our clothing regulated."

Representative Shulman's bill would amend the hotel laws so to have the proprietor liable to a \$100 fine if women smoked at his establishment.

Kearns Says He Has Heard Nothing Further Regarding Big Fight Plans.

(New York Times)  
Jack Kearns, manager of Jack Dempsey, last night reiterated a statement he made on Saturday when he was first apprised of the offer made by Harry Frazee, Boston Red Sox owner and theatrical man, of \$350,000 to Dempsey provided he would agree to meet Harry Wills, the negro fighter, in a battle for the world's heavyweight title this summer.

When his attention was called to statements in which he was said to have agreed to Frazee's offer, which carries with it \$50,000 more than the champion received for his bout with Georges Carpentier in the Jersey City Arena last summer, Kearns stated emphatically that he had not heard further from Frazee and that he had given the offer no consideration.

"I stand on my original statement in the matter," said Kearns, just as he was about to take his turn with the champion at the Hippodrome last night. "There is positively nothing of the sort in it. Of course, I have had a few wires from Frazee, and while the offer is satisfactory so far as the money end of it is concerned, Frazee has as yet failed to give me any inkling as to where he plans to stage the bout—a rather important detail."

You can bank on it, if there are any definite ideas as to where the battle could take place, there would be a merry scramble on for the privilege of staging it, but thus far, so far as I know, there is not a single rift in the skies showing any arena available for such a contest.

"In case Frazee will show me where he can stage the bout, then there will be plenty of time for us to get together and discuss the details. In his original offer, he mentioned Boston, New York and New Jersey. Immediately Boston and New Jersey were eliminated as a contest; the New Jersey Boxing Commission has put its foot down against the proposed bout, and New York is out of the question."

"There is something about the whole proposition that makes me chary toward it. Three championship bouts in one arena in the same day is something that is certainly a novel way of settling matters. Whether it is practicable is quite another matter."

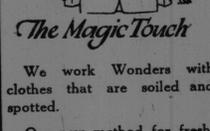

"No Jack and I have no immediate plans for the future, except the immediate future. The present act is drawing big money and we are having lots of fun. I may go to Europe this summer. I don't know."

"Returning to the subject at hand, I have not heard from Frazee since he departed for the south, leaving behind the offer, which is certainly a tempting one in the matter of finances, but I have not heard from him so far as actual when, where and how is concerned."

OSCULATORY TENOR  
GOT SMACK ON JAW

Kissed 17 Women "From Texas," but 18th Husband was Present.

New York, March 9.—Rafaelo Diaz, handsome tenor of the Metropolitan Opera Company, is trying to account whether kissing eighteen beautiful women is worth a resounding smack on the jaw. Considering that his jaw was not broken, that his lips still retain their delicate contour and sensibility, and what is more, that he lives to kiss another day, Rafaelo believes that he came out on the right side of the exchange.

Besides he reasons that if he had stopped at the seventeenth, looked before he kissed, it was early in the morning, and the entertainment in aid of crippled children, held in the ball-room of the Hotel Commodore, was nearly over. Rafaelo has just finished singing—a very amorous song of love and tragedy—beautiful women gathered about him, admiring for one thing, his complexion.

"That's from Texas," said the tenor. "I'm from Texas, too," said Miss Mary McCormack of the Chicago Company.

So he kissed her, lightly. Immediately the curious revelation was made that all the other women were from Texas, accent of them. At least they all said they were from Texas. Anyway Diaz took their word for it, and one by one he kissed them until he came to number eighteen. She was not from Texas, at least she hadn't said so. To Rafaelo her silence was admission, but the gallant tenor took too much for granted.

"Then came a rush, a ball and vigorous figure burst through the circle of fluttering femininity, and the knuckles of a Riverside Drive physician crashed against the jaw of the singer. Number eighteen happened to be the physician's wife.

"How could I have refused to kiss her?" Diaz demanded when he was struck in the incident. "There was nothing wrong in it—in the presence of all the others."

PROHIBITION  
PARLIAMENT

Dominion Alliance Urges Continuous and Energetic Law Enforcement.  
Toronto, March 9.—The forty sixth annual meeting of the Ontario Branch of the Dominion Alliance styled the "prohibition parliament" opened in the Hotel Windsor yesterday afternoon. The session terminated in a mass meeting last evening when resolutions were passed endorsing a continuous and energetic law enforcement campaign on the part of the provincial government, and also one calling on the government to institute in all the schools the province studies calculated to instill in the minds of the youth of the province the evils of alcohol as a beverage.

OLD MINER'S GUESS WINS  
Ung His Brains as Well as His Pick, He Cleans Up \$75,000.

As an old-time mining man, G. R. Bancroft has found it advisable to use his brains as well as his pick. At Elbow Lake, Canada, reached the outer world, an influx of prospectors followed. All these fortune hunters for the original Murray discovery. Then he looked up the records and found that this land that stretched on the new mine had not been filed on. It had been overlooked because of the heavy growth of timber and the up-and-down nature of the country.

So, right next door to the Murray claim, which is said to be one of the richest discovered in years, Bancroft drove his stake. A few days later, before he started work, he sold out for \$75,000 to a Toronto syndicate.

The Elbow Lake region is trapping grounds of the Hudson's Bay Company, that is closing out to farm settlers all its lands in the Prairie provinces. While the region is pure wildland, it is less than a hundred miles from good farming country. Five hundred claims, it is said, have been staked at Elbow Lake since the rush began, and a gold camp that rivals in picturesqueness the boom towns of the old days in the American West has been established.

EIGHTEEN POLICEMEN  
POTTING AT HIM; BURGLAR  
GIVES UP THE CHASE

(New York Times.)  
Eighteen policemen of the Jamaica Station, on foot and in automobiles, surrounded the woods in Miland Parkway, Jamaica, yesterday afternoon, firing at an alleged burglar each time he came into sight and finally capturing him. He said he was Frank Meyer, thirty-eight years old, without a home. Jamaica detectives believe he is responsible for several burglaries in the Eastwood section of Jamaica.

Yesterday afternoon Meyer rang the bell at the home of David W. Couch, Homer Lee avenue and Crofton road. Miss Gertrude Couch, who was home alone, did not open the door, but a half hour later she discovered him in the sun parlor. Believing no one was at home, he apparently broke a window, then unlocked the door latch and entered. As Miss Couch came into the room the stranger fled, running toward the woods. Miss Couch gave the alarm, and police reserves surrounded the place, firing as they went. They hemmed in closer and closer to the centre of the woods and Meyer suddenly darted from behind a tree into the open roadway. Shots followed him. After running a short distance he turned and threw up his hands.

In Meyer's possession the police found twelve skeleton keys, a penknife and \$80 in cash. He admitted, the police say, having served a term for burglary and having been released only two years ago.

In the station house he was identified by Miss Couch and three other women, who said he had rung their bells, and on finding some one at home, asked for food.

Mrs. Stanton Recommends  
Dodd's Kidney Pills.  
Woodstock, Ont., March 8.—(Special.)—Mrs. John Stanton, who lives on R. R. 1, near here, is never tired of telling of the benefit she received from the use of Dodd's Kidney Pills. The pain now gone, but I keep Dodd's Kidney Pills in the house, as I have an occasional touch of lumbago, and they help a lot. They help my husband's head, too."

"I read about Dodd's Kidney Pills and what they had done for others, so I sent and got six boxes. They did me good from the start. The pain is now gone, but I keep Dodd's Kidney Pills in the house, as I have an occasional touch of lumbago, and they help a lot. They help my husband's head, too."

Dodd's Kidney Pills are the best known and most reliable of kidney remedies. They heal the kidneys. Sound kidneys strain all the uric acid, the cause of rheumatism, out of the blood. Ask your neighbors if Dodd's Kidney Pills do not make healthy kidneys.

WHO INVENTED LEWIS GUN?

Cleveland, Ohio, March 9.—The Federal Court Room here looked like a dug-out in France as a suit to determine "Who invented the Lewis machine gun?" was called for hearing. The suit was instituted by Dr. Samuel McClean, formerly a practicing physician of Detroit, who asserts he invented Lewis machine gun. He asks for \$500,000 as his share in war profits resulting from sale of this gun.

That amount is for Lewis guns bought by the United States Government. Dr. McClean also has a claim for a share in profits on \$300,000,000 worth of Lewis guns sold to the allied nations.

Dr. McClean names R. M. Calfee, 3 A. Bradley and the estate of J. G. W. Cowles as defendants. Dr. McClean alleges that the defendants fraudulently obtained possession of his patent papers when the McClean Arms and Ordnance Company of Cleveland, of which Dr. McClean was President, was in need of money in 1917, the defendants, who were then directors of the same company, advanced the money, taking a mortgage on the patents of McClean's guns. It is alleged the defendants foreclosed irregularly, taking title to the patents and forming a new company named the Automatic Arms Company of New York. This was in 1919. This company, who were then directors of the same company, advanced the money, taking a mortgage on the patents of McClean's guns. It is alleged the defendants foreclosed irregularly, taking title to the patents and forming a new company named the Automatic Arms Company of New York. This was in 1919.
