ADVENTURES OF THE TWINS

By Olive Roberts Barton

JOHNNY JUMP UP

A fairy climbed up the vine to look into the window-sill. Nancy and Nick, my dears, were asleep. One night when the twins were asleep, a fairy climbed up the vine to look into the window-sill. He did a little dance, and he did a little prance, and then he turned a somersault. Then he blew out his cheeks until they looked like apples, and whistled. Nancy and Nick woke up like a shot and sat up in bed and rubbed their eyes. "Did you hear something?" whispered Nancy. "Yes, did you?" asked Nick. "Then suddenly he began to laugh, and Nancy, looking where he looked, began to laugh, too. And they laughed and laughed and laughed, both of them. And if you had been there, you'd have laughed too. For the little fairyman was making the funniest faces at them and jumping around like a clown. Finally he gave a spring and landed right on the bedspread where Nick's knees made a mountain. "Hello!" he cried. "Are you wide awake enough?"

Floating Specks Before The Eyes Means Liver Trouble

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly. The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Laxa-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system. Mr. Chas. Ayland, Franklinville, Ont., writes: "I used to be awfully bothered with floating specks before my eyes, headaches and sickness to my stomach. I took just half a vial of your Milburn's Laxa-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand." Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

SELF POISONING TODAY'S DANGER!

Hurried and improper eating, nervous worry and lack of abdominal exercises clog up your system and overload your liver. The result is self poisoning! No longer can your liver do its work properly and the result is you wake up dull and tired, coated tongue, bad taste, and offensive breath. Often you suffer from loss of appetite, bad digestion, gas on your stomach, improper movement of the bowels and a run-down condition of your whole system. Cleanse and tone your liver! Put your system in condition! Feel your very best again! Try just a spoonful of Dr. Thacher's Liver and Blood Syrup after the next few meals and notice the quick improvement in the way you eat, sleep and feel—the return of strength, vigor and energy. You will be completely satisfied; otherwise there will be no cost. Dr. Thacher's Liver and Blood Syrup is sold and recommended by J. Benson Mahoney, cor. Union and Dock; Watsons Company, Ltd., 9 Sydney; A. Chipman Smith & Company, Charlotte; Travis Drug Company, Ltd., 542 Main, cor. Portland; H. J. Mowatt, Haymarket Square; Geo. A. Cameron, 141 Charlotte, cor. Princess in St. John; E. R. W. Ingraham, in West St. John; O. D. Hanson, in Fairville; Compton, the Druggist, in Hampton; C. A. Peck, Hillsboro, N. B., and by leading druggists in every city and town.

the window-sill, my dears and we'll be off. The timorous is waiting." (To Be Continued)

CUT INSURANCE RATE ON GRAIN

Fees Reduced from 30 to Three Cents Per \$100

Winnipeg, June 10.—A rate-cutting war among insurance companies who issue policies on grain shipped down the Great Lakes has begun, and brought about a reduction of the rate of 30 cents per \$100 of cargo value to the low rate of three cents, according to a news item in the Winnipeg Tribune today.

It is said that since the Dominion Government by legislation last year killed the monopoly so long enjoyed by the vessel agents of writing insurance

on grain, a rate war has been waged between outside companies and those already in the field.

That an early halt to this competition will be called is freely predicted in active insurance circles, as it is recognized that no company can carry on business at a three cent rate and hope to survive for any length of time.

STRICKEN AT MEETING.

While attending a meeting in the Orange Hall, Simonds street, North End, last night, a woman fell in a fit. First aid was given by persons present and on the ambulance being summoned, the woman was conveyed to her home in Carmarthen street.

Radio In Spain.

Spain is planning a conference at Madrid to organize a system of broadcasting stations similar to those in other countries. There is only one station in Spain so far.

MONCTON CASE OF ST. JOHN INTEREST

Harry Ruch, who was taken into custody on Sunday on a charge of receiving goods stolen from the warehouse of Baird and Peters in the fall of 1923 appeared in court in Moncton yesterday, says the Transcript, the case having been adjourned by Magistrate Steeves from Monday's session.

The accused was represented by A. A. Allan and I. C. Hand, while Francis Murphy appeared for the prosecution. It is contended by the defence that the accused was tried by Magistrate B. McNeilan, in the parish of Durham, Restigouche county, and that he was there sentenced to three months in the penitentiary, sentence suspended.

Mr. Ruch argued that the Restigouche court had jurisdiction. He cited the case of Rex vs. Seely, in which a man accused of a crime committed in Sydney, was arrested and tried in Halifax. The case was appealed by the defendant to the Supreme Court of Canada through the regular channels but was lost, the judges stating that the Halifax magistrate had jurisdiction in the case.

Mr. Murphy, in reply, said that the proceedings were wholly irregular and that Magistrate Steeves was the only person clothed with authority to try the accused. At the present time Magistrate Steeves has the matter under consideration and he will render his decision on Monday next. Ruch is now out on \$2,000 bail, which was renewed after the hearing yesterday morning.

person clothed with authority to try the accused.

FABLES ON HEALTH

Formative Period

The Mann baby has passed from babyhood's stage. Another came, and then another, and the first thrill lost quite a bit of its edge. The problem of the transient stage from babyhood to childhood was upon the Mann family's hands.

The second chapter of childhood is pictured as beginning upon the day that the baby rises from its knees and begins to toddle across the room. Then comes the period before the child reaches school age, when environmental responsibility falls heavily upon the parents.

Between the ages of 2 and 6 are years of utmost importance. Recent study has tended to impress the necessity of care in the rearing of the child. Not only is the mental life at this time to be carefully watched, but the physical life needs the closest scrutiny.

These are the formative years and character and frame are very likely to get definite foundations. The fact that the United States Department of Health has been concentrating on children is indicative of what the government experts think of this period.

HAS PLANS FOR 2 NEW INDUSTRIES

Lewis Connors Announces Project for Canning and Cigarette Factories.

That outside capital was already considering the proposition and that, if concessions from the city in the way of taxes and from the Canadian Pacific Railway in the way of freight rates could be obtained, a cigarette manufacturing plant would be established in the large wing and a plant for the canning of fruit in the other wing of the old Fowler mill property in West St. John, was the announcement made last night by Lewis Connors, of Lewis Connors & Sons, Ltd. Mr. Connors had just returned from attending the convention of the Canadian Manufacturers' Association in Montreal recently.

Workmen are already employed in clearing some of the debris from the mill property. As regards the cigarette making industry, Mr. Connors was convinced that it would meet with great success. The cigarettes were of a brand little used in this country, but were superior to any with which he had had experience, he said.

The canned fruit industry would include that of canning strawberries, blueberries, apples and vegetables. Its establishment would not only mean added employment and prosperity in the city but also increased prosperity in the country where the fruits would be grown in greater abundance to meet the demands of the factory.

Missionary Work. That there was no justification for the manufacturers and people of the rest of Canada considering the Mar-

SPEAKS ON PUBLIC HEALTH.

The Fundy Chapter, I. O. D. E., met at the Health Centre last night and enjoyed an illustrated address by Miss H. Melkjohn, who spoke on public health and showed an excellent series of slides. Miss Alward, regent, presided. The chapter voted to give \$5 towards sending an Imperial army soldier home in England and also voted to pay its share towards the erection of headstones in the military plot in Fernhill cemetery. Methods of raising funds for the I. O. D. E. war memorial in the summer were decided upon. After the meeting the members made an inspection tour of the Health Centre and were greatly impressed by its admirable arrangements. A social hour was enjoyed. The hostesses were Miss Irene Barber, Miss Mary Glennie and Miss Jessie MacKay.
