

other necessities. And now our funds are nearly exhausted and there is urgent need of more to be devoted to the same good cause.

It is to be regretted that a larger number of ladies do not attend our meetings and take an interest in our work, we feel assured that if the young ladies of the congregation could be induced to come and help us it would prove a blessing to themselves and others.

Several of our most useful and active members have been unable to take part in the work through personal or family illness. The little we have been enabled to do by the blessing of Divine assistance, has been done by a few willing workers, under the direction of our most energetic and efficient President.

We trust that the coming year may prove still more successful financially and otherwise that it may be marked by a large increase of membership, and that everything may be done in the spirit of harmony that has characterized the work of the past six months.

All of which is respectfully submitted.

JENNIE D. JONES, *Secretary.*
