S0 feet long. This wharf would have a depth on the outer face, of 26 feet at low water, spring tides and of 25 feet in the inner face, to be obtained by dredging. Mr. Perley's estimate for this work is \$337,500 and is calculated as follows:	for the government in 1882 to agree to give the St. John harbor commission money at four per cent. We do not know what ground the Sun has for stating it "is hardly probable that the Canadian Pacific Railway will seek to establish a terminus at Letang.' If for "hardly" the Sun had written "highly" it would have been nearer the truth. Our information is to the effect that the merits of Letang have been most seriously considered by the Canadian Pacific Company, that they have had surveyors there, and that the prospect of having a harbor of their own at Letang has been the occasion of the indifference shown by that company to what is to be done in St. John for harbor improve- ment. A correspondent in another column raises some important questions in regard to the action of the Common Council with respect to harbor improvement and the harbor commission to which we ask the attention of our readers. Tenchers' Institute. At the closing session of the teachers institute yesterday afternoon the follow- ing officers were elected for the ensuing year: Edward Manning, president, F. H. Hayes, vice-president, Wm. C. Simpson, secretary-treasurer. These with Misses Kate R. Bartlett and Bertie A. Mcleod constitute the committee of manage- ment. The executive committee were asked to provide a musical and literary entertainment for the next annual meet- ing of the institute. " Yotes of thanks were tendered to Mr. C. II.
