

ANARCHY REIGNS HUNDREDS KILLED

Harbor Warehouses and Several Steamers at Odessa Destroyed by Fire Started By Mob.

Rumor That Officers of Ships Belonging to Kruger's Squadron Have Been Murdered by Mutineers Who Are in Possession of a Number of Vessels.

Odessa, June 28.—The crew of a battleship in the roads have mutinied and murdered their officers. It is reported that the mutineers are threatening to bombard the town. All work at the port has been stopped.

Washington, D. C., June 28.—Thos. E. Hannan, American consul at Odessa, today called the state department in substance as follows: "The Russian warship Kniaz Potemkin and one torpedo boat arrived yesterday evening. All officers were murdered at sea and bodies thrown overboard. The men threatened to bombard the town if interfered with. The situation is precarious. The Black Sea fleet is expected to-day."

Warsaw, June 28.—The conditions at Lodz are unchanged, excepting that most of the workmen have returned to work. Out of 60,000 men about 7,000 from 22 factories remain out.

Warsaw, June 28.—A strike was declared to-day at the coal and iron mines, foundries and factories in the districts of Dombrowa, Strzemieszce and Sosnowica.

St. Petersburg, June 28.—The wave of disorder rolling over Russia has appeared at Odessa, where a general riot, accompanied by bloodshed and disorders, has broken out. There were several collisions between the military and the strikers Monday night and yesterday in which volleys were fired by the troops.

five Russian steamers were burned. Probably three hundred rioters were killed. Several Cossacks also were slain. The troops are rapidly restoring order. The losses are estimated at many millions of roubles. The remnants of the wharves and warehouses set on fire last night are still burning to-day, and the city is enveloped in a thick cloud of smoke. Several explosions occurred in the port during the night, and fierce combats took place between troops and rioters.

The dead are now reckoned in the hundreds. The hospitals are overflowing with wounded persons, and the medical aid available is quite inadequate. The shops are closed, and business and traffic is suspended. The streets are occupied by troops. Many residents are leaving Odessa. The body of the sailor executed on board the Russian battleship Kniaz Potemkin is still exposed on the quay, where it was landed by the crew of the Kniaz Potemkin yesterday. The dead man's comrades who demand that the corpse should be accorded military honors actively fought on the side of the rioters against the troops.

Mutiny of Transport's Crew. Odessa, June 29.—The crew of a government transport, which arrived here today from Nikoloff, mutinied, seized the officers and crew of the transport, and turned over the captain and other officers of the transport. It is reported that the foreign consuls have applied to their respective governments to send warships to Odessa. Reported Spread of Mutiny. St. Petersburg, June 29.—The government is in a state approaching a panic over the events at Odessa, and the gravest fears are entertained that the mutiny among the blue-jackets may spread to the army. Should some of the troops at Odessa be won over to the cause of their comrades of the navy, other troops sent against them might have to face their arms.

Admiral Avranin was summoned to Petersburg at 8 o'clock this morning to discuss the situation with the Emperor. Such advice as the Emperor and the government have received from the witheld. The wires are in control of the authorities, and appeals sent to the Associated Press correspondents at Odessa to telegraph what has happened since last night have met with no response up to noon. Rumors are rife in this city, however, that the officers on board the ships belonging to the squadron of Vice-Admiral Sevastopol, which left Odessa on Tuesday according to one report, and for a practice cruise according to another story, have shared the fate of the officers of the battleship Kniaz Potemkin, and have been murdered.

Murdered by the Mutineers. It is added that the mutineers are in possession of the other ships of the squadron. If so the mutiny has control of more than half the heavy ships of the Black Sea fleet. The other vessels said to be in the hands of the mutineers are the battleship St. Chesme, Sissep and the Tri Sevastopolia (Three Apostles). The admiral, however, does not confirm the report of mutiny on board Admiral Kruger's other ships. Admiral Wrenius, chief of the naval general staff, frankly confessed that the situation was grave. The Black Sea squadron which left Sevastopol Tuesday under command of Vice-Admiral Kruger was due to arrive at Odessa last night and a battle with the mutineers may occur at any moment. The Kniaz Potemkin is a more powerful ship than any in Kruger's squadron, and the gravity of the situation is increased by the fact that they are practically in the possession of the strikers. Should the sailors of Kruger's ships join the mutineers, the government would have to face open revolution which would spread like wildfire to other towns in the Black Sea.

The mutiny of the infantry coming when Poland is in a state of ferment, when agrarian disturbances are coming to a head and when the government is attempting the mobilization involving 300,000 men, may easily precipitate a crisis, and the authorities are endeavoring to keep it from the public. Nevertheless the Liberals and agitators have ways of spreading the things military news was known here in all cities at midnight. The radicals hail the event as the dawn of an actual armed revolution and say Omil Tchuk's name will go down in history as that of a martyr who precipitated a Russian revolution. Guns Trained on City. London, June 29.—A dispatch from Odessa says: "The whole of the quays and the buildings around the harbor as well as much shipping are in flames. Masses of striking workmen who yesterday had before the volleys of the troops are now inflamed by the spectacle of open revolution on board an imperial warship, and are making a bold front against the military."

All days long firing has been heard in many quarters of the city. A number of barricades have been erected, and tumult and disorder reign. The main squadron of the Black Sea fleet, consisting of the battleships Georgi I., Pobledonosetz, Tri Sevastopolia, Rostislav and Ekaterina II., with two cruisers, are expected to arrive here to-night, and a naval battle is in prospect. The rioters are in a defiant mood. The mutiny arose from the shooting of a sailor who was presenting on behalf of the crew, a complaint against the food. According to one version this sailor, whose name was Omil Tchuk, objected to the quality of the soup, and was immediately cut down by the mess officers. The crew then rose and seized the ship and officers, eight of them were spared on condition that they would join the mutineers. The others were killed. The Kniaz Potemkin arrived here last night, accompanied by two torpedo boats. Early this morning the body of Omil Tchuk was brought ashore in one of the battleships' boats and was landed on the new mole, where it was exposed in semi-state all day. It was visited by thousands of persons, many of whom placed coins in a basket at the head of the body toward a fund to defray the cost of the funeral, which the sailors propose to hold to-morrow, and which the strikers will make the occasion of a great demonstration. The authorities have made no attempt to remove the body, the sailors having served notice that the ship would fire on anyone seeking to interfere with it. A police agent visiting the spot was killed by strikers. During the day a red flag was hoisted on the Kniaz Potemkin, and members of the crew roved from ship to ship in the harbor, stopping all work thereon. The strike is now general here, and the rioters are growing in number and boldness. There were shots all day. To-night a bomb was thrown in Cathedral Place, killing its thrower and a policeman. During the day one of the torpedo boats which accompanied the Kniaz Potemkin seized the Russian steamer Esperanza, with 2,000 tons of coal, which the battleship has taken on board.

Authorities Panic Stricken. St. Petersburg, June 29, 2:40 a.m.—More serious in its possible effects than all the defeats in Manchuria or the destruction of Rojstevskiy's fleet was the news which reached St. Petersburg last evening that the standards of the Emperor's battleships in the harbor of Odessa, and that with guns the mutinous crew, headed by eight officers, were holding the ship against all comers.

The authorities are panic stricken and at the admiralty consternation reigns. Admiral Wrenius, chief of the naval general staff, frankly confessed that the situation was grave. patch was received here stating that complete anarchy reigned at Odessa. The inhabitants were panic-stricken and were huddled together in the houses. The streets were filled with frenzied workmen fighting the troops. The warehouses, quays and some of the shipping in the harbor were in flames. The correspondent of the Associated Press who forwarded this dispatch had to make his way to the telegraph office through dense smoke which covered the city like a pall. He heard volleys every few minutes from the wharves. There was beginning the work of pillage and plunder, indicating that the dispatch was filed last night, but was delayed by the authorities. The correspondent added that blue-jackets with machine guns had been landed from the battleship Kniaz Potemkin, in the hands of the mutineers, and the streets are occupied by troops. Many residents are leaving Odessa. The body of the sailor executed on board the Russian battleship Kniaz Potemkin is still exposed on the quay, where it was landed by the crew of the Kniaz Potemkin yesterday. THE CHINESE BOYCOTT. Importers Meet Difficulty in Having Merchandise From the States Unloaded in China. San Francisco, June 28.—Edward G. Bellows, until recently consul-general for the United States in Japan, has arrived in San Francisco. He brings confirmation of the boycott which the merchants of China have declared upon goods and merchandise coming from the United States, and says he has been notified by the boycott that in many instances importers are having great difficulty in obtaining assistance in the unloading of American products. "There can be no doubt that there is a determined effort afoot in China whereby it is hoped to bring pressure to bear upon the United States through the medium of a boycott," said Mr. Bellows. "The object, as has been already explained, is to force this country to grant more liberal treatment to merchants and other Chinese who travel in the United States. All over China the guilds, which are similar to our boards of trade, are using their utmost influence to bring about the desired effect. In the several ports the hands who are accustomed to unload the goods have been taught to leave untouched the merchandise brought from the United States. This condition of affairs is likely to greatly embarrass us."

Of course I am not saying how effective this mode of procedure may prove, still we must remember that in Germany and other nations we have worthy competitors in the Chinese trade, and what we lose is bound to be their gain to a certain extent at least." Henry B. Miller, consul at Newchwang, succeeded Mr. Bellows. Penang Joins Boycott. Penang, June 28.—A large meeting of the leading Chinese merchants here to-day decided to co-operate with the Chinese of Singapore in boycotting American products, pending the withdrawal of the Chinese Exclusion Act. MINNESOTA BANKERS. (From Wednesday's Daily.) A large party of Minnesota bankers, members of the Bankers' Association of that state, reached Victoria yesterday afternoon on the Princess Victoria. They left Minnesota just a week ago and came West over the C. P. R. They are very enthusiastic over the grand scenery of the Rockies, and are in a position to thoroughly appreciate the vastness of this province. The trip from Vancouver was very enjoyable, the visitors describing the scenery of the gulf as the finest they have ever seen. The party will spend to-day in Victoria and this evening will arrive on the Whistler for Seattle, en route to Portland. After taking in the exposition they will proceed to the Yellowstone Park. The visitors include J. W. Barnes and Mrs. Barnes, Minneapolis; W. A. Shaw and Mrs. Shaw, Clearwater; L. Mattison and Mrs. Mattison, Fairbairn; Mrs. A. R. Fuller, A. A. Miller and Mrs. Miller, H. P.
