

PURE BLOOD.

It is of the first importance that the blood should be kept pure and healthy. Impure blood, as we have previously shown, is first caused by inaction of the stomach and bowels, and a return into the blood of those impurities which should be passed off and out of the system. This poison, going into the blood, develops itself in various ways, always, as would naturally follow, in the weakest place, in boils, carbuncles, skin diseases, rash, etc., etc.

Dr. Baxter's Mandrake Bitters expel all these poisons from the blood, and, stimulating the internal organs into healthy action, are a powerful purifier.

BLOOMVILLE, N. Y., June 29, 1887.
I have been using your Baxter's Mandrake Bitters to a very limited extent. I have taken five small

doses, and it has done me more good than all the doctor's stuff I have taken in the last four months. I had a sister-in-law come from a distance who bought a bottle for her own use while visiting. I took a few doses, with the most beneficial results, and write to ask where I can get them. C. H. WETMORE.
