CONCERNING JAPAN.

Extraordinary and Acrimonious Debate on South African War.

Bishop McKim Says She Wants to Fight Russia.
INDIANAPOLIS, Ind., Sept. 6.—Bishop John McKim of Tokio, Japan, chairman of the executive board of foreign missions of the Episcopal Church, in visiting his brother here, interviewed, he is reported to say, "Japan is exceedingly anxious to fight Russia. Of the people of the making's realm nineteen-twentieths are eager to fight, and if it were not for Japan's foolish pride about borrowing money she would win a struggle with Russia. Japan's fleet is much superior to that of Russia in the eastern waters. Japan's army is larger and is made up of braver and more intelligent men than those composing Russia's force in China and Manchuria. I think, however, that Japan does not fight Russia very soon her chances of winning will deteriorate. Russia at present has no coal-mining stations near Japan, but in two years the Siberian railway will be completed and the forces of the car will then be in a better position to war against Japan and kindred eastern powers. Japan is very much opposed to the partition of China and is especially desirous that Russia shall not secure a foothold in the empire, for the Japanese authorities well know that Korea in such an event would soon go as Manchuria went and Russia would be in a position enabling the car to dictate to Japan. Japan is anxious for the accomplishment of an alliance between America, England and herself."

SOUTH AFRICA.
MIDDELBURG, Cape Colony, Sept. 6.—Lotter's entire commando has been taken by Major Scheel south of Pterburg. One hundred and three prisoners were captured, twelve Boers were killed and 48 wounded. Two hundred horses were also captured.

BRITISH TRADE WITH JAPAN.
LONDON, Sept. 6.—A consular report of the trade with Japan says that in 1885 more than half of the Japanese imports were from Great Britain, in 1891 one-half, in 1896 less than one-fourth, in 1898 a little more than one-fifth, and 1900 one-fourth. While the trade of the United Kingdom since 1885 has increased less than one-half, that of the United States and Germany each has grown ten-fold, and the most strenuous efforts are being made by the last named two countries for trade extensions in the future.

SCALED OUR MATTERHORN.
FIELD, B. C., Sept. 6.—It is reported here that Mount Assiniboine, the Matterhorn of the new world, has at last been reached on Tuesday last by Rev. James Outram, of Titlock, Scotland, a well known member of the London Alpine club, who has spent the past few summers in the Canadian Rockies. He was accompanied by two of the Canadian Alpine Club guides, Hasler and Bohrn.

THE WEATHER.
TORONTO, Sept. 6.—Maritime—Light to moderate wind, fine and warm today and on Saturday.

SLEPPY PAYMENT.
Main street this forenoon broke its record in regard to the number of horses falling on the block pavement recently put down there. Inside of an hour and a half six accidents occurred almost directly in front of Morrison's grocery store. The two horses which fell first, managed to regain their feet with no damage being done other than the natural shaking up. The third horse belonged to Edward Foster and was attached to a milk wagon. It was severely injured, the hind leg being dislocated. The animal was taken away on a sledge and Dr. Simon sent for. When Waterbury & Rising's delivery team came along and succeeded in losing a wheel as well as doing other damage to the express. It was followed by a North End grocery wagon, and on this one of the shafts were broken. Most of these accidents were caused by the very slippery state of the new smooth block pavement over which the watering cart had just previously passed. In conversation with Mr. Morrison the grocer, a Star reporter was told that it was almost impossible to keep the run of the number of horses slipping and falling on this piece of pavement, for seldom does a day pass without a number of these occurrences.

THE METHODISTS.

Extraordinary and Acrimonious Debate on South African War.

Great Disorder and Frequent Interruptions—Southern Delegates Defend England.

LONDON, Sept. 5.—The most striking feature of the conference yesterday was an impassioned jeremiad of the colored bishop, Walters, of Jersey City, who received the heartiest welcome of any of the American delegates. He declared that there was a systematic effort on foot on the part of white Americans to destroy the good opinion which the English people had of America. The bishop's assertions were supported by the year 1900 and declared that though ninety negroes were lynched, in only eleven cases had assault on white women been proved. "The English people have always been our friends," declared Bishop Walters. "You gave us refuge, and now when we are struggling to improve ourselves, we look to you, our old time friends, to give us sympathy and encouragement as you did in the past."

SEEKING ADVENTURE.
NEW YORK, N. Y., Sept. 6.—Captain William A. Andrews and his wife will sail September 15th from Atlantic City in their little boat to cross the Atlantic to Spain. A special to the World from Atlantic City says: "The body of the craft, which has been covered with one thickness of canvas, has been painted black, and the name 'Dark Secret,' is painted in gold, on each side of the stern. The top of the boat is covered with the reception of an opening large enough for two persons in a sitting position. At the bow and stern and around the sides sufficient space is left to carry supplies."

Y., Sept. 6.—President McKinley and party, a few invited guests and a military escort, numbering in all about 100, left here at 9 o'clock on a special train for Lewiston where they will take special cars on the Great George road to Niagara Falls. On descending he expressed himself as entirely satisfied with the impulsive machine, and announced that tomorrow afternoon he would make a formal attempt to win the prize of 100,000 francs offered by M. Deutsch for a dirigible balloon.

MAY HUNT MOOSE.
There is some likelihood of Lord Minto and his A. D. C., Capt. Bell, via King New Brunswick for a moose hunt some time during the month of December. Capt. Bell was out on the Miramichi two years ago in company with General Hutton, and succeeded in shooting a fine moose. They were accompanied by Thomas Pringle and John E. Sanson as guides, and it is likely that they will have the honor of plotting him through the woods.—Herald.

GOING TO QUEBEC.
George Robertson, M. P. F., and E. S. Barker, representing the St. John reception committee and the local government respectively, will go to Quebec the last of next week to meet the Duke and Duchess of Cornwall and party, and complete arrangements for their entertainment in St. John.

BRIEFS BY WIRE.

Death of Rev. Fr. English—Turkey and France.

Felix J. Serrellas, 18 years old, said to be the son of a wealthy planter of Porto Rico, committed suicide at a hotel on 14th street, New York, today, by shooting himself in the head with a revolver. Serrellas and his younger brother were on their way east to enter Wesleyan college. Disappointment in a love affair is said to have caused the young man to kill himself.

LONDON PRESS ON McKINLEY.
LONDON, Sept. 6.—The vast ambitions of the United States, as reduced from the St. James Gazette, the President McKinley's sensational speech at Buffalo, continues to be the theme of editorial writers. "As military power and commercial enterprise must go hand in hand," says the St. James Gazette, "the importance of the statements upon the world of politics, as revealing the new epoch upon which America is entering, must be immense."
