SPANKED IN COURT.

A Hint for the Police Magistrate of St. John.

NEW YORK, March 4.—Two young men with long hands and plenty of strength back of them acted as "good hand spanking" at a public spanking administered to six youthful delinquents in Kearney, N. J., police court.

The boys, whose ages range from 10 to 12 years, were brought before Recorder Krebs on a charge of opening freight cars and destroying property. Recorder Krebs sentenced each to "good hand spanking" as the alternative of a \$5 fine. The parents spoke for the boys and chose the spanking.

Chief of Police Tolon selected two able-bodied policemen. Each took a boy and placed him across his knee in the approved position, and an instant later the court room rang with yells. When the spanking had been completed the youngsters were again arraigned. They were very penitent, and after the court had admonished them against evil doing they promised to be good in the future and were discharged.

PRINCE HENRY'S VISIT.

CHICAGO, March 4.—The Chicago which Prince Henry of Prussia saw last night by the glare of many lights was presented to his view today by the clearer light of the sun. The welcome which he received was right repeated and emphasized, and he was given further opportunity to enjoy his expressed desire to meet American citizens at close range. During the day he listened to an address from the central Bund of St. Paul, placed a wreath on the Lincoln monument in Lincoln Park and enjoyed a luncheon and reception at the Germania Club.

The presentation of the address by Governor Van Sant of Minnesota was the first detail of the day's official programme. The prince received the governor and a committee accompanying in his private parlor after he had eaten breakfast. By 11 o'clock all those who were to accompany the prince during the day assembled at the auditorium. Without delay the party entered the carriage waiting to convey it to Lincoln Park and the Germania Club. In the carriage with the prince were Mayor Harrison, Rear-Admiral Evans and former secretary of war, Robert T. Lincoln.

In nearly every door and window along the streets where the prince passed curious faces were to be seen. Handkerchiefs were waved at him from the windows, and the crowd along the streets shouted a greeting. The prince was kept busy touching his cap in response. While decorations along the route were not profuse, they were sufficiently in evidence to give the streets a semi-holiday appearance.

A dense crowd was gathered about the statue of the great emancipator when the prince and those accompanying him came upon the scene. Boys surrounding the statue kept back the crowd. The prince entered the plot of cleanly swept ground surrounding the monument and laid at the feet of the image of the martyred president the floral token of respect. The whole ceremony lasted but a few moments. The prince and his official party quickly re-entered their carriages and started at a brisk trot for the Germania Club. A burst of music from a brass band heralded the prince's coming, and in a few minutes the "Prince Henry" of last night was "Unsel Heinrich," among an enthusiastic congregation of German Americans.

ESTERHAZY IN NEW YORK.

NEW YORK, March 4.—Major Ferdinand Esterhazy in Paris confessed that he forged the Dreyfus bordereau, has, according to the Herald, been seen in this city. He is said to have spent two hours in a Broadway restaurant in animated conversation with an American woman. Esterhazy was shabbily dressed, and his features were extremely thin.

Count Fangaert of Belgium, who knew Esterhazy in Paris, and two waiters, are the persons claiming to have recognized the man who became notorious in the Dreyfus case. Fangaert was talking French with friends when Esterhazy overheard him, and with his friends immediately sought a secluded corner. Their movements attracted Fangaert's notice, and he says he immediately recognized Esterhazy, and so did the two waiters.

THE LABOR WORLD.

NEW YORK, March 4.—It is stated that President Shaffer of the Amalgamated Association of Steel and Iron Workers, who is in this city with the members of executive committee, is here for the purpose of renewing the agreement entered into when the great steel strike was ended six months ago. It is said they will meet President Schwab of the U. S. Steel Corporation today. Mr. Shaffer, it was learned, may also ask certain concessions from the steel magnates.

SUSPECTED SMALLPOX CASE.

(Special to Star.)
FREDERICTON, N. B., March 4.—A suspected case of smallpox developed at St. Mary's this morning. The suspect is Barney Fisher of Stanley. He came lately from Maine lumber woods. He is quarantined at St. Mary's.

HELP FROM ITALY.

NEW YORK, March 4.—At its annual meeting here the society for the protection of Italian immigrants received word through the Italian consul general of a subsidy of \$2,000 from the home government and promises of further aid as needed.

AN AMERICAN REVERSE.

MANILA, March 2.—Twenty-five members of the Constabulary of Morong, ten miles from Manila, encountered 30 well armed insurgents today. The reverse, after expending all their ammunition, fled. Eleven of the constabulary are unaccounted for, and it is believed they were killed or captured. The same band of insurgents turned back a commissary wagon, but did not molest the escort, consisting of three men.

Governor Flores of the province of Bulacan says the members of the band who recently captured Ampil, the president of Calinta (Morone province), were neither Ladrones nor insurgents. He thinks a private feud was at the bottom of the matter. Word has been received that Ampil is still alive, but under torture and expecting death. As previously set forth in these despatches, Ampil was an enthusiastic American sympathizer.

ROOSEVELT WILL GO.

WASHINGTON, March 3.—A delegation of prominent citizens of Charleston, S. C., had a conference with President Roosevelt today in regard to his attending the Charleston exposition. The delegation strongly urged the president to keep his engagement to visit the exposition, and assured him of a most cordial welcome. The president told the delegation that if nothing intervened to prevent he would take great pleasure in visiting Charleston and the exposition some time in the near future. The party was invited to luncheon with the president.

VENEZUELAN TROUBLES.

WILLEMSTAD, Island of Curacao, March 3.—News has reached here that a revolutionary outbreak occurred yesterday in the vicinity of Valencia, capital of the state of Carabobo, Venezuela. The government hastily sent troops to the disturbed district. It is also reported here that President Castro is sending numerous reinforcements to the Columbian frontier. The government seems to have concluded that the situation on the frontier is serious. Loreto Lima, the Mochist leader, who was recently wounded, is dead. He expired in the military hospital at Valencia, Venezuela.

FROM SOUTH AFRICA.

(Portland Press, Mar. 3.)
The steamer Hurona of the Thomson line arrived here yesterday morning from South Africa where she went from St. John three months ago with a load of horses for the British army. She took out thirty-one cattlemen who enlisted in the British army. At Cape Town the ship received orders to go to Elizabeth where martial law was in force and where none of the ship's company were allowed to land with the exception of the captain who was allowed to visit the shore twice during his stay there. The crew have not set foot on shore for three months until yesterday. Most of them were paid off here. The ship is to load here for Liverpool.

PAINTERS' STRIKE.

Six Men Went Out Yesterday, Demanding More Pay.

Six painters employed by H. L. & J. T. McGowan went out on strike yesterday and declared their decision to remain out until their demands are acceded to. The cause of the trouble is the rate of wages, the strikers demanding a uniform rate of \$2 a day instead of the varied wages of \$1.50 and upward.

For some time the advisability of some concerted action tending to an increase of wages to the \$2 rate has been under discussion by the painters of the city. Some of the employers who have been approached have expressed their willingness to agree to this if all the others would fall in, and it is probable that in a short time this would have been peaceably brought about. But the action of McGowan's men, which was unannounced by the union and came as a surprise to the majority of other painters in the city, has introduced new difficulties into the situation.

At a meeting of the local union last night, the strikers asked for endorsement, but no definite action was taken other than the appointment of a committee to try to bring about a peaceful settlement. A report of the strikers' action and that of the local union will be sent to headquarters.

H. L. McGowan, of the firm of H. L. & J. T. McGowan, today stated that two of the striking painters had returned to work. He says that the stand taken by the six is not fair to the good workmen, the customers or the employers. During the winter months there is a reduction made in wages because of the fact that their work is mainly done during the summer. If a reduction is made work comes in during the slack months and gives employment that could not otherwise be obtained. In the summer the best workmen get \$2 a day. The poor workmen do not get so much, because they are not worth it to the employers. A uniform rate of wages would furnish no encouragement for the poorer men to do better work and so fit themselves to receive the higher rate of pay. It would also, he says, tend to make the good men more careless about their work.

The summer rate comes into force about the first of April.

ETRURIA DISABLED.

NEW YORK, March 4.—The agents of the Cunard Line Steamship Company here, have received a despatch from London, saying that the steamer Etruria in tow of the steamer William Cliff had been sighted four hundred miles west of Fayal, Azore Islands, having lost her propeller.

WIRELESS TELEPHONY.

French Electrician Claims It is a Complete Success.

NEW YORK, March 4.—E. Ducretet, the French electrical engineer, has made the following statement concerning the system of wireless telephony which he has invented, says a Paris despatch to the Journal and American. "The Academy of Science, to which my invention of telephoning without wires has been submitted, acknowledges its value. The transmitter and receiver are much like those in daily use for the ordinary telephone. There is the difference that a small coil is introduced and the electrical intensity is slightly increased.

"When the instruments are put down deep in the earth messages can be transmitted over enormous distances. Forests, rivers, mountains may separate armies, yet they can communicate with each other through the earth by wireless telephony.

"Wireless telephone messages can be transmitted through sea from shore to shore or between ships. The voices transmitted without the least difficulty and the most delicate articulations reach the ear."

PROBABLY NOT TRUE.

NEW YORK, March 4.—A strange story is exciting much discussion among military men, says a London despatch to the Tribune, although it has been kept out of both press and parliament. It relates to alleged reprisals taken by Australian troops for Boer outrages in firing upon wounded, and draconian measures adopted by Lord Kitchener for forcing discipline. It is stated that the Australian officers and men who took the law into their own hands, were tried by court martial, and some of them sentenced to be shot. Nothing official has been obtained on the matter at London.

THE DEATH ROLL.

NEW YORK, March 4.—Madame Calve, who is singing in Grand Opera in this city, has been notified of the death of her father in Southern France from pneumonia.

NEW YORK, March 4.—Jos. Tamaro, an operatic singer of note, is dead from Bright's disease at his home in Brooklyn. He was 78 years old, and was born in Barcelona, Spain. Queen Isabella bestowed upon him a title, and he was an honorary member of the Philharmonic Society of Florence and the St. Cecilia of Rome. He received from royalty many valuable souvenirs.

ROCHESTER, N. Y., March 4.—Dr. Edward Mott Moore, one of the most eminent citizens of this city, is dead, aged 88 years. He was born in Rahway, N. J., July 15, 1814, of Quaker and Huguenot descent. He was known prominently in the work of the Red Cross society of the state and as the "Father of the Parks" of this city.

BIG FLOUR COMBINE.

PORTLAND, Ore., March 4.—The Oregonian today says that there is being worked into shape in this city and San Francisco an amalgamation of the interests of the great export flour milling firms of the Pacific coast. The capitalization of the proposed combination will probably be somewhere in the neighborhood of \$10,000,000.

As now outlined the combination will embrace mills having an annual capacity of 5,000,000 barrels of flour. The corporations interested in the proposed combine are the Portland Flouring Mill of this city; The Puget Sound Flouring Mills Co., of Tacoma; the Centennial Mills, of Seattle and Spokane and the Sperry Flour Mill of Stockton and San Francisco. These concerns practically control the flour trade of the Orient, their operations extending from Vladivostok and Port Arthur as far south as Singapore.

TWO BODIES FOUND.

CLEVELAND, O., March 4.—The bodies of May Kelly and Florence McGrath have been found buried beneath a mass of wreckage in the collapsed Cleveland Baking Company's building. In the criminal court Judge Babcock instructed the grand jury to make an investigation of the disaster for the purpose of fixing the responsibility.

THE YELLOW FLAG.

SAN FRANCISCO, March 4.—The U. S. transport Meade, which sailed for Manila on Saturday last, returned late last night flying the yellow flag and anchored at the quarantine station. The Meade's return was due to discovery of a case of smallpox and on account of a case of scarlet fever among the recruits on board.

THEIR FATE UNKNOWN.

(Special to Star.)
HALIFAX, N. S., March 4.—No word has been received of the crew of the ill-fated steamer Tiber, lost off Guysboro. The captain belonged in Quebec. The first officer Stuard, second officer S. J. Burke and steward Frank Roberts belonged in Halifax. The crew were shipped here in October last for six months.

Plants in a dormant state require very little water during the winter and an excess will cause decay.

MORE WINDY CHAPS.

WASHINGTON, March 2.—Representative Fishmead, member of Congress and other distinguished persons tonight celebrated the birth of Robert Emmet.

Resolutions were adopted declaring that England's "present atrocities in South Africa are but a repetition of her crimes in Europe, Asia and America," asking the United States for support in the purpose to restore Ireland to her place among the nations of the earth; reiterating sympathy for the Boers, and urging President Roosevelt to take such other steps as may lead to a termination of the war and the independence of the Transvaal and the Orange Free State.

MONTREAL AFFAIRS.

MONTREAL, March 3.—The charge of conspiracy against A. E. Brunet in connection with the St. James division federal by-election, the hearing of which commenced in enquete some time ago, was continued today. Two witnesses for Mr. Bergeron, who preferred the charges, swore that Brunet had tried to bribe them to impersonate voters in the election.

The Grand Trunk railway has arranged with the Dominion S. S. line for a summer service between Portland, Maine, and Liverpool. It will be performed by the Turcoman, Irishman, Norseman, California and Colonial, all large boats. The Dominion line will also have a Montreal service. Christopher Archibald, a driver for the Dominion Express Co., wound up a protracted spree tonight by putting a bullet in his head. Death is expected momentarily.

STOCK MARKET.

NEW YORK, March 4.—Wall street.—The majority of stocks showed moderate fractional gains in the opening prices, but there were enough small losses to make an irregular tone. Northwest rose two points on last transactions and sugar declared a sharp fraction. Dealings were on a small scale throughout.
