MANTS TO BE PAID.

Many moons ago the city expropriated for the use of the water department several pieces of land at Silver Falls, upon which, after the building of the new dam, the water would back. All of this land has not yet been paid for, although in some cases the original claims have been paid with costs. John Knox, of Silver Falls, one former owner of land so taken, was in the city on Saturday enquiring about \$150\$ that is coming to him. His land was surveyed and the part taken by the city was staked off, but the money for it has not yet appeared.

Bodies Found in Northern Cape Breton.

(Halifax Recorder.)

W. C. Scranton, who has just arrived in Halifax from Cape Breton, in connection with the purchase of some mining machinery, reports a very rich find of drift mineral at a point in the high ground between Baddeck and Cheticamp. A sample of galens gave an assay value in gold, silver and copper at a rate of \$5,000 per ton. Other rich drifts were also found at other points. Mr. Scranton is a former Nova Scotian who spent a number of years in Australia and in the western mining country, and has been prospecting in Inverness and Victoria counties, in the northern part of Cape Breton Island, for a couple of years. He is convinced that there are very valuable deposits of ore in the northern part of Cape Breton Island and he has just completed the installation of a portable three-stamp prospecting mill and with other gear means to continue prospecting during the summer. He thinks that Cape Breton is one of the richest countries, particularly the northern part of the Island, that he has ever seen, and he expects any day to come across some leads of metalliferous ore of phenomenal value. At Cheticamp Mr. Scranton says there are very large deposits of lead and copper ore carrying gold and silver, and there are evidences of nickel in the same district.

Tenny, of Wateriown, Mass., one of the association's lecturers, saying that she has been appointed secretary of an association of lecturers. The object of the association is for the exchange of lectures and views and in other ways to make their work general and effective. The club does not pay for the lectures given and it is considered an honor to be invited to address them.

There will be soldiers' sweethearts, mothers, fathers, brothers and sisters, and no doubt as many of their cousins and their aunts as you can shake a stick at in the Opera House next Wednesday evening when the redcoats put on their grand concert and series of war pictures. Considerable has been said about the entertainment but the best way to find out what the show is to be like will be in attending it. A programme of the popular order, as well as high-class, will be discoursed by the regimental band, which with its new instruments will be quite avattraction to musical people. The 150 men who are to put on the living war pictures are holding nightly rehearsals. So are the men who are to give the fancy drills. Seats can be marked off the plan at the Opera House any time now.
