OTTAWA.

A Silly Exhibition of Temper Given by Mr. Blair.

Unable to Furnish Needed Information, He Threatened to Take Refuge in the Corridor.

More Revelations of Grit Election Methods in West Huron—Big Subsidy to the Quebec Bridge—A Sunbury Co. Postmaster.

OTTAWA, Aug. 4.—In the privileges committee this morning Harry Ross, who works for Thompson of Toronto, testified that he worked in the name of Mr. Blair...

ways had accused him of attacking men of whom he (Foster) had spoken no word of disrespect. He claimed that when the house was voting a large sum of money, involving the probable expenditure of millions, to a company, the house had the right to know more of that company than the name of the company.

In the evening sitting there was a long and interesting discussion of the Rainy River subsidy of over a million dollars. This road is supposed to open up the mining district of the Lake of the Woods district, and the firm of McKenzie and Mann have it in charge.

Mr. Blair seemed to be unable to furnish information in respect to this line, and lost his temper when closely questioned. Some members are of opinion that this line will either be a connection by which the Northern Pacific railway of the United States will capture the traffic of the Northwest and carry it to United States ports, or else that it will pass into the control of the Canadian Pacific.

Independence and voted and spoke against the government measure. On the motion for the second reading of the bill to provide for the safety of the ship, Toronto, Ontario, and he intended to drop all but the first clause, which fixed October 12th as the date at which steamships might clear from Canadian ports with summer deck loads.

THE HURON ENQUIRY. In the privileges committee Mr. Borden went on calling conservative witnesses who voted at Farr's poll in Goderich, and whose ballots are alleged to have been replaced by ballots for Holmes. It was arranged that no more witnesses be called after Monday, as the house will probably complete its work Wednesday and a report of the investigation as has been accomplished. The inquiry will cover only two polls of West Huron, and will not reach Brockville.

The discussion was continued through the afternoon, Mr. Hagart and Mr. Foster vainly struggling to ascertain whether this proposed railway was to be a local line or was intended to be part of the trans-continental line.

In the evening sitting there was a long and interesting discussion of the Rainy River subsidy of over a million dollars. This road is supposed to open up the mining district of the Lake of the Woods district, and the firm of McKenzie and Mann have it in charge.

Mr. Blair seemed to be unable to furnish information in respect to this line, and lost his temper when closely questioned. Some members are of opinion that this line will either be a connection by which the Northern Pacific railway of the United States will capture the traffic of the Northwest and carry it to United States ports, or else that it will pass into the control of the Canadian Pacific.

attendance. It is probable that his report will be presented, but that the committee will simply report the evidence and recommend that the case be taken up next session.

The public accounts committee met this morning, when the majority and minority reports were presented on the Costigan case, the McLaughlin case and the Donville case.

The majority report of the Manitoba hogs, prosecutions is not yet ready and the committee meets again tomorrow morning. Mr. Downie supported the majority report, and Clarke Wallace defended the minority report, while John Costigan made a rather hot attack on the opposition members because, as he said, they were taking advantage of the committee to draw up a report reflecting on the conduct of his son.

Mr. Foster called Costigan's attention to the fact that he (Foster) had proposed that no report be submitted except the bare evidence, and that the government supporters insisted on a finding. This showed that Costigan's reflections were baseless.

OTTAWA, Aug. 2.—This morning Mr. Blair moved that the senate amendments to the Grand Trunk and Drummond bills be accepted. He made from reflections on the senate for making the amendments, insisting that they were not called for. Mr. Blair took occasion to give the results of business on the intercolonial for the year ending June 30. The revenue for June was \$3,738,531; the expenditure, \$3,674,686; the surplus, \$63,845. Mr. Blair claimed that this was a good showing, and that it was entirely due to the extension to Montreal.

BOSTON LETTER.

The New England Hay Crop a Small Yield.

Miss Anglin Winning Steady Triumphs in the Golden State—St. John Newspaper Man in a New Line.

In the Divorce Court—Recent Deaths of Provincialists—The Colored Race in Canada—Lumber and Fish Markets—General News.

(From Our Own Correspondent.) BOSTON, Aug. 6.—The weather here during the past week has been quite warm. There has been little rain in this city, although other sections of New England have been pretty well watered.

The Grand Trunk railway, the benefactor of Portland and the citizens of that town, are making arrangements for a greater business next winter than ever before. The contracts already made will give Portland a steamer every day during the winter months.

Contracts have been signed by the Grand Trunk as follows: Weekly boats to Liverpool, Allan line; to Liverpool, Allan line; to London, Thompson line; to Manchester, Manchester line; to Glasgow, Glasgow line; to Bristol, Elder-Dempster line; to Hamburg, Hamburg-American line; to Antwerp, Leyland line; to Manchester, Manchester line.

It is announced that the famous populist ex-congressman of the seventh district of Kansas, Hon. Jeremiah Simpson, a native of New Brunswick, is campaigning for the United States senate. He wants to succeed Senator Baker, a republican.

The biennial meeting of the Royal Canadian Order of Scottish Clans is to be held in this city Aug. 16-19. Delegates are expected from Canada and nearly every state in the union.

Walsingham, the New York special correspondent of the Boston Herald, who is now in San Francisco, in a letter to that paper says: "The most recent performance of Miss Margaret Anglin, the clever Canadian chosen by Richard Mansfield for the character of Roxane in 'Cyrano de Bergerac,' released by him to appear in 'The Musketeers,' and the translator heroine of Charles Coghlan's eponymous 'Citizen Pierre,' is now leading lady with Henry Miller in a round of what are known as Empire theatre successes."

The most recent performance of Miss Anglin has been Lucy Alby, in which the same touch of what seems artificiality proves valuable, and she is winning her way into the favor of California theatre goers.

Robert G. Leaven, a newspaper man, formerly of St. John, has gone to South Carolina with Miss Lillian Clayton Jewett, the new champion of the negro race. Miss Jewett, who is a young white girl, is on her way to New England with the survivors of Postmaster Baker's family. Postmaster Baker was burned in his home because as a negro he was objectionable to the white population. Several members of his family also perished. Miss Jewett plans to begin a crusade in the north against the southern lynching, and to use the Baker family as an object lesson. There is considerable objection among the negroes in Boston to the plan, and several of the more prominent ones charge that Miss Jewett desires cheap notoriety.

Congressman White of North Carolina, who lectured recently in St. John, Moncton and other places in the provinces, has returned to Washington. Mr. White says he found no discrimination against the negro in Canada, but he thought the race there was not as prosperous as in the United States.

Mr. Sarah W. Whiston of Worcester, mother of the boy preacher, Rev. Robert F. Whiston, has been notified that her son has accepted a call to the Central Christian church of Charlotte-town, P. E. I. Mr. Whiston is about 22 years old and has been heard in St. John, Moncton and other places.

The following deaths of provincialists are announced: In Charlottetown, Aug. 2, Mrs. Catherine Hunter, widow of Thomas Hunter, formerly of St. John, aged 83 years; in Roxbury,

Aug. 2, Otis L. Warr, aged ten years, formerly of St. John; in South Boston, Aug. 1, Angus James, eight-year old son of Hugh S. and Christina C. MacDonald of Prince Edward Island.

The huckleberry and raspberry trade from the province is very brisk just now. Large shipments are being received on almost every steamer.

Spruce lumber is rather firmer than it was one week ago. It is said there is every prospect of large shipments being advanced \$1 a thousand this week. Small sized stuff is in better demand and slightly higher, many dealers making an advance of fifty cents. Building is not active in this state or the market would be booming in earnest.

The general demand in other parts of the country and the united action of American spruce millmen are largely responsible for the present upward movement. The demand in New York state is particularly active. Cleopold does not share the firmness throughout the market and are inclined to be dull. Shipments are in fair demand and a steady rise in progress. Laths are steady and enjoy about the same call as shingles. Hemlock lumber of all kinds is in strong request while offerings are small. More Canadian lumber is coming into the market in spite of the duty, although there is not as much profit in Canadian lumber for shippers as there ought to be. Prices here are as follows:

Spruce—Frames, nine inches and under, \$15.50 to 18; frames, twelve inches and up, \$17 to 17.50 (nominal quotation, but most lumbermen now ask \$18); 2x4 and 2x4, \$18 to 18.50; merchantable boards, \$12 to 13; mill run, \$14 to 14.50; clear floorboards, \$22 to 22.50; seconds, \$19; extra cleopolds, \$28 to 29; clear, 1.5-8 in., \$22.50 to 24; 1.5-2 in., \$23 to 24.

Pine, hemlock, etc.—Extra pine cleopolds, \$36 to 40; clear, 4x4 to 3x; second clear, \$30 to 33; extra cedar shingles, best brands, \$3 to 3.10; clear, \$2.60 to 2.65; second clear, \$2.15 to 2.25; white pine, \$2; extra No. 1, 1.5; eastern hemlock boards, \$12.50 to 15; No. 1, \$10.50 to 13; boards, planed one side and matched, \$13 to 16.

The fish market is firm, the market situation being stronger on the continued scarcity of that fish. For the past two or three days no fresh mackerel have been landed here. About 325 barrels from the provinces have been received during the past week. Provincial mackerel have brought \$13.50 to 14 for large and \$25 to 30 for tunkers. Codfish are firmer. Large dry bank are quoted at \$5.50; medium, \$5; large shore and Georges, \$2.50 to 3. Picked herring are quite firm. New large split, the first of the season, have sold as high as \$7.50 per bin. Old Nova Scotia split are worth \$4.50 to 7. Box herring are firm and unchanged at 15 to 18c for medium sized, No. 1 and lengthwise. Sardines are steady, \$3.50 to 3.75 for quarter cans, and \$2.50 to 2.75 for three quarter mustards. Canned lobsters continue very scarce and firm. Flats are held at \$1.10 to 1.25 and uprights at \$1.10 to 1.20. Live lobsters are worth 17c, and boiled 18c. Fresh fish are full supply at usual prices.

GENERAL BOOTE ON SHAM REVOLUTION. (London World, July 25.) Last evening General Boote, addressing a large number of his followers at the hall, said he was going to die at his post for the people he meant to save—those men who were willing to give up their greedy money-making pursuits for salvation.

Numbers of people with nothing else than a feebly appetite to comment there, confessed that heaven was very good if they could only get their "Bun," their wealth, and their worldlyness prevented salvation. "The religious teachings of the present day said if they would only believe they would be saved. This was merely a money-making assertion; they must make their money first, and then serve, for without service they could not have the joy that was unspeakable and the eternal triumph that all desired."

Children Cry for CASTORIA. THE TURF. Eastport Races. EASTPORT, Me., Aug. 4.—There was a large attendance at the horse races here today and good sport was an order. In the 2.10 class Willie Baidon won, Archie, second and Fletch Wilkes third. Best time, 2:22.

In the 2.25 class, Jack Down won, Scooter second, Rhodie third, Impudens fourth, Jim Wilkes fifth, Rex sixth, and Battery seventh. Best time, 2:30. In the 2.30 class, the best time being 2:32, Archie won, second, Alvin Drake third, Lady Lumps fourth, Honest Farmer fifth, while Von M. and John L. were distant CRICKET.

WOODSTOCK, N. B., Aug. 4.—The first cricket match of the year was played between married and single members of the club yesterday afternoon, the former winning by six runs on the first innings of 4 to 22. Among the biggest scores were Dr. Sprague, 17; Malen, 14; Arthur Day, 11. The cricket club hope to run an exhibition to St. Andrews on the 28th instant, when the home picnic will be held for the club, and when one of the features of the day will be a match between Woodstock and St. Andrews. Woodstock were asked to arrange a match with an eleven from St. John.

THE RING. Smith Walsh Co. a Draw. NEW YORK, Aug. 4.—The Ring here tonight between "Mysterious" Billy Smith and Andy Walsh of Brooklyn was declared a draw at the end of the 20th round.

WOOL BOUGHT. We buy wool for Oxford Woolen Mills, cash price, in exchange for Oxford Cloth, Yarns and all kinds of Dry Goods, Clothing, Hats and Caps at rock-bottom prices. Address bags, W. H. FAIRALL & CO., 17 Charlotte Street, opp. Love's Stable.

In the house, on the Rainy river subsidy, Mr. Richardson, liberal, of Manitoba, second by Mr. Oliver, liberal, of Alberta, moved that the subsidy be granted on condition that the contractors carry grant at a maximum rate of eight cents per hundred pounds from Winnipeg to Lake Superior—Lack, only five members voting yes.

This morning the house was in committee on the railway subsidies, and the discussion was resumed in the afternoon. A lively discussion took place of one vote.

On the vote for a subsidy to fifty miles of the Edmonton, Yukon and Pacific line, north and westerly from Edmonton toward the Yellow Head pass, Mr. Foster wanted to know who were the promoters.

Mr. Blair said the petition was signed by George McAvity of St. John as president and B. F. Pearson of Halifax as secretary. The government had dealt with the solicitor, Hon. William Pugsley.

Mr. Foster saw in this scheme a link in the chain of the trans-continental line, promoted by Mackenzie and Mann, and to which the government had this occasion recommended subsidies in different parts of the country.

He saw a close connection between the Ontario and Rainy river routes and this line, which, if completed by its charter the two remaining gateways through the Rocky Mountains, that is the Yellow Head and Peace River Passes. He would like to know whether this company intended to construct a road or was acting as a charter morgan preparing the way for Mackenzie and Mann.

Mr. Blair attacked Mr. Foster rather furiously for asking so many questions, and said that if Dr. Pugsley had been a friend of Mr. Foster, the member for York would not have been so anxious to get details. He assured the house that Messrs. Pugsley, McAvity and Pearson were men of high standing in the business world, and charged that Mr. Foster had attacked them.

Mr. Costigan put in a word for Dr. Pugsley, and incidentally went on to speak of a certain proposed railway from Edmonton to Athabasca Lake, with which he was connected, and which had not been subsidized. He took occasion to express his contempt for the Winnipeg Telegram newspaper, which seems to have charged that Mr. Costigan did not pay his own expenses when he went to the Peace River district. Mr. Costigan denied that he received a favor from anybody.

Col. Donville made a speech of his own special brand, apparently directed against Mr. Foster, to which characteristic address neither Mr. Foster nor any other member made any subsequent reference. Mr. Foster said the minister of rail-

ways had accused him of attacking men of whom he (Foster) had spoken no word of disrespect. He claimed that when the house was voting a large sum of money, involving the probable expenditure of millions, to a company, the house had the right to know more of that company than the name of the company.

The discussion was continued through the afternoon, Mr. Hagart and Mr. Foster vainly struggling to ascertain whether this proposed railway was to be a local line or was intended to be part of the trans-continental line.

In the evening sitting there was a long and interesting discussion of the Rainy River subsidy of over a million dollars. This road is supposed to open up the mining district of the Lake of the Woods district, and the firm of McKenzie and Mann have it in charge.

Mr. Blair seemed to be unable to furnish information in respect to this line, and lost his temper when closely questioned. Some members are of opinion that this line will either be a connection by which the Northern Pacific railway of the United States will capture the traffic of the Northwest and carry it to United States ports, or else that it will pass into the control of the Canadian Pacific.
