Reep Little Ones Well In Winter.

Winter,

Winter is a dangerous season for the little ones. The days are so changsable—one bright, the next cold and stormy, that the mother is afraid to take the children out for the trash air and axerciae they need to much. In consequence they are often cooped up in overheaded, budly wentilated rooms and are soon seiz d with colds or grippe. What is need to keep the little ones well is Baby's Osn Tablets. They will regulate the stormch and brother and erform out colds and, by their use the baby will be able to get over the winter season in parfect adely. The Tablets are sold by medicine dealess or by mail at ay cents, a box from The Dr. Williams Madicine Co., Brockwille Oct.
