

will be induced to any serious effort. We are glad, however, to be able to state that such a movement has begun within the college walls. A subscription list has been opened; and already a number of students have pledged themselves to place in the Treasurer's hands by the first of July of this year, the sum of \$620.00. This, together with the \$520.00 collected during the past summer makes a total of \$1140.00 already in hand or promised. For the remainder we do not beg, but we ask those who in easy affluence enjoy the light and liberty of the gospel, to consider their duty to their brethren in the darkness and bondage of Romanism, as well as their responsibility to God whose stewards they are; and we feel assured that such a consideration of duty and responsibility will be followed by a very liberal donation to this, and all the regular schemes of the church.

As students, men consecrated to the work of the christian ministry, we feel the claims of the foreign field pressing heavily upon us. But those claims, we are obliged to allow to stand in abeyance until this equally necessary work at home has been successfully inaugurated. Let the loud cry of heathendom incite us to more vigorous efforts to evangelize Canada, that Canada's forces united in Christ may more effectively invade heathendom. May we not express the hope that our Society at the opening of next session may find itself untrammelled by debt in connection with this school, and in a position to prosecute with energy the work abroad.
