WHAT? CAN IT BE ??? THE COMPUTER GOOFED

AND GAVE ME TWICE

AS MUCH MEMORY SPACE

THAN IT SHOULD HAVE &

ATTENTION

All Photographers or persons interested in becoming photographers for the Brunswickan, please be at Room 35 S.U.B., Today 12:30.

Training is provided.

Contact; Photo editor: Ronald W. Carver

As a CA you can climb to the top

Earning the CA designation is a beginning, an open door to numerous opportunities. As a CA you can choose to work in industry, government, education, for a CA firm, or for yourself in public practice.

You can work anywhere in Canada or almost anywhere in the world, if you wish.

Whatever avenue you pursue you'll be working with people, helping people, encountering new situations and continuously facing new challenges.

A career as a CA is open to students from a wide range of disciplines, not just to those with a commerce or business degree. Many students from backgrounds such as the humanities, mathematics, science and engineering have found rewarding careers as Chartered Accountants.

Consider the career with opportunities ... start accounting for your future!

> HISTORICAL FOOTNOTE: credentials count

In the over 71 years of the profession's history in New Brunswick, its most farreaching decision was to require every student considering a career as a CA to have a university degree.

If Chartered Accountants were to take their rightful place in the business world and if they were to become problem solvers, then - the Education Committee decided in 1970 - they needed the benefit of a broadly based university education.

Today, that standard of excellence continues.

THE NEW BRUNSWICK INSTITUTE OF CHARTERED ACCOUNTANTS L'INSTITUT DES COMPTABLES AGRÉÈS DU NOUVEAU-BRUNSWICK

75 PRINCE WILLIAM ST., SUITE 312 SAINT JOHN, N.B. E2L 2B2, TEL: (506) 634-1588 A Photo-workshop is going to be offered at the beginning of october. If interested in learning how to use a camera leave name at bruns.
