The building is that frame structure next to Harrison Hall, on Fifth St. It was afterwards turned into teveral dwelling houses and is now owned by C. R. Atkinson. There were then a number of little green grocery stores standing on the present site of Harrison Hall. Old Mrs. Crow kept one of these.

LARCENY CASE

W. J. Kitchen pleaded guilty this morning to a charge of stealing two suits of clothes from W. M. Stone. Mr. Kitchen secured two suits of clothes from W. M. Stone on trial, Saturday night, promising to return them on Monday. On Wednesday Mr. Stone spoke to the prisoner and asked for the return of the clothes. This
was not done and Mr. Kitchen left
for Detroit. He was arrested in
Windsor and brought back to Chatham by Officer Dezelia. The Crown
offered no evidence in a similar
charge preferred by Geo. W. Cowan.
Mr. Houston remanded Kitchen till

FINE STRIKE OF RICH OIL

Chatham Company Last Night Locate the Best Well in the Field.

Splendid Prospects of Their Field.—A Meeting to be Held To-Night.

The Chatham Oil Company last night struck a magnificent well on the Ball farm, Raleigh, on the northwest corner from the Doyle field. This well already gives promise of being the finest in the whole field.

To-day it is flowing over with pure oil, free altogether from the water usually in evidence. This afternoon the operators will start pumping.

"The best thing struck in Raleigh," was the enthusiastic comment of the experts. "It will be at least a 50 barrel well."

This splendid strike materially enlarges the field of the company. It is their eighth well—and their best. Every well is now pumping steadily and the company has evidently secured a first class field, with little doubt of its permancy.

The new well is not a deep one, being only 350 feet down, but is with-To-day it is flowing over with pure

NICHOL-COLTART.

The splendid home of Mr. and Mrs. A. R. Coltart, William St., was the scene of a very quiet wedding, when their second daughter, Miss Jean Coltart, one of the Maple City's foremost young ladies, was united in marriage to Rev. James Malcolm Nicol, pastor of Knox Church, Wallaceburg.

The nuptial knot was tied at three o'clock yesterday afternoon by Rev. J. R. Battisby, of whose church the bride is an earnest member. The wedding service was witnessed by the immediate relatives on the bride and groom only.

Miss Coltart is very highly esteemed in this city. She was for five years a teacher in the Central school, having resigned her position last term, and she was also a valuable worker in St. Andrew's Church The groom is a rising young clergyman and presides over Knox Church, Wallaceburg, and Calvin Church, Chatham Township. He is a son of James Nicol, of London.

The presents were very numerous and costly, giving evidence of the well-wishes of their many friends.

The happy couple left on the 5.08 G. T. R. train on a honeymoon trip to Toronto, New York, Boston, Newark and Montreal. They will be gone for three weeks, after which they will settle down at their new home

Yesterday afternoon at four o'clock the teachers of the Central school telephoned Mrs. Nicol, and each one expressed their congratulations and wished her good-bye. A large number of her friends also were at the station to bid her farewell.

DOVER CROPS

Ex-Warden Frank Rankin was Maple City visitor to-day. In a short conversation with The Planet in reerence to the crops in Dover he said:

"The corn is doing well at present. The recent rains have not injured the crop as yet and if the weather gets warm now and the wind re mains light there will be a record breaking crop of corn in Dover this

year.
"The rain has been too much for Wheat, "The rain has been too much for the other crops, however. Wheat, which should yield from 20 to 30 bus. to the acre, yields from 16 to 20 bus. this year. The sample, however, is good. I saw some of the finest wheat I ever saw in my life at Collop's last week. It was grown on sandy land, but the yield per acre was not as large as it should have been

large as it should have been.
"Oats, which generally run from
60 to 56 bushels to the are, are yielding only about 40 bushels. The ing only about 40 bushels. The sample of the oats also is very poor compared with former years."
Mr. Rankin owns a threshing outfit and is in a position to pass judgment on the crops grown.
