The Pyramids of the Pentateuch

Smith, after months of the most assidious mealength, after a life of scoffing, turn back to that surements repeated again and again with the old narrative, so humbling to proud, godless best instruments, by himself and his wife, and man, of God-created, God-instructed men, who their assistants, alleges that the following facts lived a millennium, and so learned more in one are patent and demonstratable to-day to any life-time than many generations of modern twoscientific investigator:

1. That the Great Pyramid, which the traditions of eastern nations connect w Seth, is perfectly plain and devoid of all those carvings and ornaments with which the Egyptians delighted to decorate their tombs; that it is provided with a thorough system of ventilation, quitr unneces sary on the common supposition that it was simply the tomb of a king; that the passage leading to the Great Chamber are lined with white stone, as if to lead to the discovery of its contents; that it is of a different construction from all other tombs, having the smallest door forty-one by forty-seven inches, to the largest building in the world; and that these facts show that it was not built merely for a burying place, as Egyptologists

laid in horozintal courses, the entrance passage for gigantic buildings which never could have is laid with stone much harder and finer, cemented with finer cement, and with joints ground so less habits which centuries of sensual civilization truly, and fitted so closely along an axial line, and refinement had produced? As these pathat the point of a pen-knife can not be inserted triarchs sadly viewed the increasing vices, and between them, and that this entrance passage enfeebled minds, and puny bodies of their sickhas been laid, not horizontally, but at such a ly short-lived sons and grandsons whom they folvertical angle, and such an azimuth, as to point lowed to their antimely graves, did they resolve, exactly to the star a Draconis, when it was at before death's ihexorable summons consigned the lowest point of its daily circle around the them also to oblivion, to erect one imperishable Pole, in the year when that star's distance from monument of that earthly wisdom they had the Pole amounted to only three degrees, forty- learned from their God-instructed fathers? A works. two minutes; that the Great Gallery of the Pyramonument which bears no man's name, a memid rises again with an angle, and with its seven morfal of the collective physical science of the to the series upon Sacred History, and yet is so comover-lappings points southward to the precise human race! spot in the heavens in which the constellation of Yes! there it lifts its majestic head amidst the the Pleiades—called in the Bible the "pivot," ruins of the cities of its sons, and casts its shades and supposed by modern astronomers to be the of proud contempt upon the ignorant, dirty, decentre of the revolution of our sun and the other graded vicious beggars, and thieves, and cutstars of our firmament—stood at midnight of the throats, their offspring! There it stands, an imsame year in which a Draconis was three degrees, science; its very stones crying out, that materneither of these starf have been in the same position since, nor will a Draconis again be in line civilization it has inherrited; but that genera-

SUPERANNUATED MINISTERS' FUND.

To the Editor of the Recorder. DEAR EDITOR,—I wonder you do not see your error in regard to the amount raised for the Superannuated Ministers' Fund, on the Pembroke District. The amount credited in the Minutes to Circuits, \$65 42, does not include what was contributed by Ministers. Nor does the amount credited in the Minutes to Cirtions of Ministers; and if, as you state, your tables are made up on the supposition that it does, it is easy

A correct calculation will show that our District, though one of the youngest, most missionary, and most northern in our "Home Work," is neither the last nor the least in financial matters, in proportion

ance of this sad, awful story—of the survivors of this dreadful destruction again multiplying in ount, Cavan, by the Rev. J. C. Slater, of Whitby, assisted by the Rev. Andrew Smith, of Brighton, the Rev. Jas. A. McClung, of Newcastle Circuit, to Miss Annie E., fourth daughter of Robert Meharry, Esq., of Summerhill, Cavan

LITERARY NOTICES.

THE LIFE AND REIGN OF DAVID, KING OF ISRAEL, by George Smith, L.L.D. & F.A&S., London, Longman's & Co.. Toronto, S. Rose, large 12mo. pp. xii

This last book by the author of the Sacred Aanals, although written amid the infirmities of the authors last ilness, and under the immediate shadow of death,

There are few finer subjects of Biography than the man who was at once the Warrior of God and the sweet singer of Israel. And few men were better qualified for the task of writing that Biography than he late Dr. George Smith. To the numerous advers of that gentleman, distinguished alike by he helarship and by the result of the start of the s mirers of that gentleman, distinguished alike by his scholarship and by the nobler attribute of poetry; scholarship and by the nobler attribute of poetry; this work will be an affecting memorial as the last SINGER SEWING MACHINE OFFICE

Mrs. Palmer, with an introduction by Bishop Janes, spect for Families. They are Quiet, Simple, very

THE KINGDOM AND REIGN OF CHRIST. A series of discourses delivered in the Chapel of the Wesleyan Theological Institution, Didsbury, by the Rev. W. B. Pope, Theological Tutor. Second edition, 12

This is a series of twenty-one sermons on the Life and Work of Christ, by the talented and pious Tutor of the Didsbury Wesleyan College. They begin with the prophecies of the incarnation, and end with the song of the finally saved; thus comprehending the grand drama of redemption. There is thus a unity about the work that few volumes of sermons possess. The book gives a nost favourable idea of the character of the religious training that the candidates for the English ministry receive.

ILLUSTRATIVE GATHERINGS FOR PREACHERS AND TEACHERS. By Rev. G. S. Bowes, B. A. First and second series, pp. 504 and 464. On sale at the Book Room.

The demand for three editions of the first volume of this work, and for a second series, indicates a high appreciation of its usefulness. It will be found an admirable repertory of facts, figures, anecdotes, England and America, and would be a valuable SUITABLE STYLES addition to the library of any Minister, Sunday School Superintendant or Teacher.

Babism.—This is a new form of religion, gaining many adherents in Persia and Turkey. It is other scientific mysteries, nan developed, await our progress in science to comprehend await our progress in science to comprehend await our progress in science to comprehend them, such as the relation of the earth's density to its measurement; but the above are patent, to its measurement and that payers.
